Stock Markets At A Glance

CHICAGO, May 13 (AP)—Another drop of five cents was recorded in May rice today and deferred deliveries of oats weakened on profit-taking, dropping about a cent at times. All trading was in old contracts under old ceilings.

TORONTO, May 13 (CP)—Stocks moved indecisively today on the Toronto exchange, vinging hourly from gains to losses over a narrow range. At the end of the day the mining groups were down a half-point or less and the western oils had insignificant index gains.

NEW YORK, May 13 (AP)—Individualized strength persisted in today's stock market although light selling pressure put many leaders in the losing bracket.

ADD LIVING AND LEISURE CHANGED HEAD SILHOUETTE SEEN
I am still not "taking sides" in the raging hair controversy, says Lois Leeds. But I do believe in the silhouette of the head.

Hair is the most discussed subject of the fashion world and the head influences hat styles as well as clothes styles, the basic silhouette of the head is important.

The "dem-i-coif" with the "short look" is being featured by the American Hair Design Institute and it is a welcome variation of the hair story. They believe that the "short look" is as important as short hair and the effect is achieved without the sacrifice of the hair.

The basic shaping of your hair is the number one step because by this you can have long, medium or actually short hair. The hair length is graduated from back to front with the shortest section between the brows.
