

**FRIDAY**  
**DEMOLISHING DRAFT**—The Demolition draft at Charlottetown is being demobilized. The men are receiving their full pay and a \$35.00 statutory allowance in addition.

**THE MEMORIAL SERVICE** recently held in Murray Harbor Methodist Church was largely attended. The Church was suitably draped for the solemn occasion. Fitting reference was made to the heroic deaths of three young men whose memory was honored. Private Reynolds was the only child of David and Mrs. Reynolds and had been in France about two weeks when he was "killed in action." Private Benj. Sencabaug was with the American Forces and when in France a short time he was taken down with pneumonia and died in camp. Pte. Garnet Bull had seen a good deal of fighting during nearly three years and was "killed in action" a few days before the armistice was signed.

**A PIONEER DEAD**—There passed away at Summerside on Friday last one of the pioneers of the ship building industry on the Island—Mr. Thomas Bishop, 84 years old gentleman and skilful ship's carpenter—at the ripe age of 84 years. He was a native of St. Peters, but for some time previous to his last illness had resided with his son at Wellington, where he endeared himself to all classes. There are left to mourn the following sons and daughters: Mr. John B. Bishop of Portland, Oregon; Rev. Robert E. Bishop, of Salem, Oregon; Messrs. Daniel and Thomas Bishop of Bath Maine; Mr. James Bishop of Wellington and Mrs. Jas. Chapell of Sherbrook. The remains were laid to rest on Sunday in the Church of Christ Cemetery at Cape Traverse, Rev. Mr. McDougall officiating.

**FLU OVER**—Thanks to the prompt efficiency and capability of Dr. McIntyre of Montague, Dr. Barnes of Georgetown and as well as the kindly assistance of the citizens of Georgetown the "Flu" has been pretty well stamped out of that town. No new cases have been reported for more than a week and the stricken ones are all reported as coming on favorably. Even Mr. John White whose life the Doctor despaired of many times during the past three weeks is reported as steadily improving under the care of an efficient and capable nurse Miss Acorn of Charlottetown. Enough cannot be said of the splendid way in which these doctors have fought against this dread disease—"G"

## 365 Happy Reminders of You

Give him a Gillette for Christmas.

It is a very difficult thing to determine exactly a man's fancy in the matter of cigars, neckwear, books, and other common gifts.

But you cannot go wrong if you give him a Gillette. It is the really useful gift, something that he would select if you consulted him.

Imagine what it means to a man to have a chin as smooth as your own, to have his shaving time reduced to 5 minutes, so that he can shave every day.

Imagine, too, how grateful he will feel to you 365 times in the year. Buy him a Gillette Safety Razor. It represents the most happy inspiration as a gift, and is five dollars well spent.

Sold at all jewelers, druggists and hardware dealers.

**FURTHER DETAILS OF SHIP WRECK**—The schooner Emma Bell, bound from St. John N. B., for Charlottetown with 50 puncheons of molasses shipped by George E. Barbour & Co., Ltd., to Carvell Bros., and which was wrecked Monday at Cape Laronde, near Arichat, C. B., was a vessel of 223 tons register. The vessel struck during a blinding snow storm. The captain and five men took to a boat but before it reached the shore three of the men fearing that it would be capsized in the surf jumped overboard and perished. The others stood by the boat and reached shore in safety. The vessel and cargo of molasses will probably be a total loss. The schooner was to have been loaded here with oats by Carvell Bros., for Newfoundland. She was commanded by Captain Albert Nowell. The crew all belonged to Newfoundland.

**CANADIAN SEED GROWERS**  
 In the afternoon a meeting of the Canadian Seed Growers Association was held at which Mr. McGregor presided. Premier Arsenault was the speaker. He congratulated the exhibitors on the general high quality of the exhibits of the Fair and dwelt upon the good results accruing from the holding of seed fairs.

The formal opening of the Maritime Seed Fair at Summerside by the Hon. Murdoch McKinnon, Commissioner of Agriculture took place here yesterday. Hon. Mr. McKinnon congratulated the promoters of the Fair upon its success and extended a hearty welcome to the visitors from the other Provinces. He dwelt upon the many advantages to be derived from the holding of such fairs, not the least of which was the value they had from an advertising standpoint in letting the world know what we had to sell. Capt. Joseph Read, M. P., spoke briefly of the seed grain trade of P. E. Island and pointed out that our seed today is of a much better quality than it was a few years ago.

Mr. S. F. Fuller, manager of the Amherst Winter Fair referred briefly to the exhibits which he said were of excellent quality and highly creditable to the Island. There were about 6000 entries in all in the exhibits, but owing to delay in transit only a portion of the entries from the neighboring provinces reached the Fair. Potatoes.—The exhibit of potatoes was very large—in fact the Judges Messrs Fuller and Moore say it is the largest and best exhibit of tubers ever shown at any fair in the Maritime Provinces. Turnip Seed.—This was a particularly excellent class both as regards size and quality. Timothy Seed was a fair showing and the quality was good. There was a large exhibition of flax. In Wheat there were several samples shown which went over the standard, making over 62 pounds to the bushel. The wheat indeed was very good, there being very few impurities. Oats made a big class, all types

being shown. There were some excellent examples of both the white and black varieties.

The Barley exhibit was small but the quality was first class.

**MEETING OF WOOL GROWERS**  
 A meeting of the Wool Growers Association was held yesterday at 10.30, Mr. W. H. McGregor of Central, Lot 16, presiding.

At this meeting Mr. McGregor was appointed a delegate to the annual business meeting of the Canadian Co-operative Wool Growers Association to be held in Ottawa in February.

Mr. James P. Thompson, of the Live Stock Branch, Ottawa, and Mr. Stanley Logan of the Nova Scotia Wool Growers Association, both delivered interesting and encouraging addresses.

He referred at some length to the question of demobilization and pointed out that it was the duty of all who remained at home to see that the returned men are settled into private life again. He drew attention to the danger of having a great number of idle men in any community and said that there are certain organizations taking up the work of settling these men and finding occupations for them and it was the duty of all to assist in this work in every way possible. He pointed out the need of taking advantage of positions available, and the soldiers returning to find out what each soldier is best fitted for or willing to do and get him a job to suit. We had helped during the period of destruction, said the Premier, and must do all we can during the period of reconstruction.

The next speaker was Mr. L. H. Newman, Secretary of the Canadian Seed Growers Association, Ottawa, who outlined the history, aims and objects of that body and especially mentioned the good work of a P. E. Islander—Mr. Thomas Waugh of Wilmot, one of the original members here. He began the selection of Banner Oats, which variety has since proved to be the most popular in the Maritime Provinces, many others having taken up the work since. Mr. Newman dwelt upon the problem of marketing and the great demand for high class seed.

Other speakers were Mr. E. M. Taylor of Fredericton, N. B., H. S. Cunningham of the Agricultural College, Truro, S. J. Moore, Seed Inspector, Truro, J. L. Tennant, Agricultural Representative for Prince Co., P. E. I. and Hon. M. McKinnon, Charlottetown, Mr. James E. Murphy, Augustine Cove and Capt. Read, M. P., Summerside. The public meeting last night which Mayor Morrison presided over was well attended. The speakers were Hon. M. McKinnon, Capt. Read, P., and Mr. Arthur Hawkes of Toronto.

## Don't Use Haphazard Blends

HOW can anyone depend upon getting, always, good bread or pastry if one's flour varies from time to time in strength and composition? The composition of wheat changes from time to time. Your blended flour may be all right one time and all wrong next time, due to the changes in the wheat. Most millers have no means of correcting these changes. The result is a haphazard blend. Our completely equipped testing laboratory finds out first what is IN the wheat. Then it is easy to maintain the absolute uniformity of our famous

## QUEEN CITY FLOUR

(Milled according to Government Standard)

Use our flour. Then you can always be sure of happy results. It always contains just the correct amount of Ontario winter wheat for flavor and flaky texture—always exactly the right proportion of Manitoba spring wheat for fine big loaves of nourishing, delicious, flaky bread. No occasions occur when extra quantities of expensive shortening are needed to counteract over-strength in the flour when making pastry—and bread always rises properly. Try Queen City Flour for uniformly good baking results.

Splendid Pastry and Bread

Queen City Flour makes pastry of rare delicacy and flaky texture and it makes, equally well, bread of high nourishing quality due to the richness of gluten in the Western hard wheat it contains.

The Campbell Flour Mills Co., Limited, West Toronto
