Stock Markets At A Glance

WINNIPEG, May 10 — (CP) — Purchases of a large quantity of Canadian wheat by the United Kingdom pushed other dealings into the background today on the Winnipeg Grain Exchange. Market observers estimated business at more than 5,000,000 bushels.

CHICAGO, May 10 — (AP) — Wheat and rye slipped nearly two cents a bushel in futures markets today under commission house liquidation that at times touched off stop-loss selling. Some recovery was made during the final hour but most of the list finished on the off side.

MONTREAL, May 10 — (CP) — Golds moved up to a new six-year high in the indices in transactions today on the Stock Markets as a reaction to the end of the war in Europe but all other pivotal sections were narrowly under average in slack trading. Junior mines followed the majority trend toward lower ground.

Marked down in papers were Abitibi C per cent Preferred, Consolidated, Quebec Pulp Preferred, Fraser, M. & O. Price, Dominion and Brown Stocks, Burt and St. Lawrence Corporation firm.

NEW YORK, May 10 — (AP) — The Stock Market registered its fourth successive losing session today as apprehensions over the recovery of the steel industry and the reported move in Washington to increase war agency expenditures to billions.

While a new aircraft successfully contested the trend, as it started leaves in the pre-empted class, the losing range was well populated from the opening on. Closing casualties ranged from fractions to 2 or more points. Dealings were livelier at the down-side, with appreciating when interest in airways was made at recovery.

TORONTO, May 10 — (CP) — A sluggish decline prevailed through most of today's session of the Toronto Exchange, following a mild display of activity at the opening. Western Oils tightened up to show a small index gain at the close. The grids lost 7 1/2 and the Base Metals 3 1/2.

Trade in the final hour was enlivened by heavy action in Automobiles on a report that the world's largest car company had sold 100,000 cars in the treasury and an additional 200,000 shares by which the company's valuation is to be raised. After the financing the company will have more than \$1,000,000 in the treasury for development of new shares and the price advanced from a low of 1.50 to close at 1.80, up 22 cents net.

WEBSTER'S CORNER W. I.

The May meeting of the Webster's Corner Women's Institute was held at the home of Mrs. John Heron. A full attendance of members and five visitors were present. The president presided and the meeting was opened by singing the Institute Ode. The roll call was responded to by each member paying a nickel. The minutes of the April meeting were read, approved and signed. A silk breadspread, which had been ordered by the members during the past month, was then drawn for. The holder of the lucky ticket was Simon Paquet, Charlottetown. The proceeds from the lottery amounted to \$18.50, collection for the evening consisted of gramophone selections, vocal and instrumental music, and a contest.

Mrs. Philip Smith invited the hostess to her home for their next meeting, roll call to be answered by each member donating a nickel for a grab box.

Launch was then served by the hostess and the meeting closed by singing the National Anthem.

CHEMICAL WARFARE

Although chemical warfare is as old as history, it did not come into general use until the First Great War when Germany initiated the use of toxic gas, flame throwers and aerial incendiaries.
