## The Suffragettes Out in Force. An Attack On Winston Churchill—Marriage Engagement in High Life Creates Social Surprise in London

Special to The Guardian.  
LONDON, Jan. 20.—The Cabinet held its first meeting today for the purpose of drafting the King's speech from the throne and the program of legislation for what promises to be an historic session.  
The Militant Suffragettes thickly dotted Downing Street, determined to remind the Ministers that their demands were as urgent as ever.  
One banner suggested that Winston Churchill should be imprisoned.  
The active member of this banner managed to elude the police, rushed the Home Secretary when he

banner as a lance attempted to knock off Churchill's hat.  
The police quickly cleared away the demonstrators.  
Another society surprise has been given by the unexpected engagement of the Viscount Chelsea to Miss Marie Coxon, a pretty girl of twenty-one and niece of Lady Jardine.  
Viscount Chelsea last May passed through the bankruptcy court.  
He became heir to the Earldom of Cadogan and an income of \$500,000 yearly on the recent death of his seven-year-old nephew.  
Only a week ago Earl Cadogan, who is seventy years of age, married the Countess Palagi at Florence.

# TESTIFIES TO SALES OF POISON

WHEELING, W. Va., Jan. 17.—Surprises follow one another with great rapidity in the trial of Mrs. Laura Farnsworth Schenk, who is charged with poisoning her wealthy husband, and today is marked by the testimony of a physician who declared he had given Mrs. Schenk some sugar of lead.  
When Prosecutor Handlan called Dr. J. W. Meyers, a prominent South Side physician, Myers declared that Mrs. Schenk had secured from him about an ounce of sugar of lead, one of the poisons alleged to have been given to Schenk, and that she had tried hard to get about two ounces of Fowler's solution of arsenic, but upon being refused Mrs. Schenk finally declared she had bought the other poison from another physician, whose name she refused to give.  
The sensation produced when Dr. Myers claimed that he had given the woman the sugar of lead followed the scarcely less dramatic testimony of Lundy Wilson, the chauffeur employed by the Schenks, who told the story of Mrs. Schenk and her relations with Daniel Zana Phillips.  
On the stand last Friday, Phillips admitted taking long automobile trips with the accused, Wilson declared that Mrs. Schenk admitted improper relations with Phillips to him.

# ELY LANDED ON WARSHIP'S DECK

SAN FRANCISCO, Jan. 18.—Ely B. Fly today flew 13 miles in an aeroplane, made a landing on the cruiser Pennsylvania, and an hour later rose from the cruiser and flew back to Seldridge Field, twelve miles south of San Francisco. The feat was accomplished without a mishap. Not a wire or bolt of the biplane was injured.  
"It was easy enough," said Ely as he stepped from his seat after his return. "I think the trick could be successfully turned nine times out of ten."  
Ely's flight had been postponed from today to day, but he said today that atmospheric conditions were favorable. The air was hazy. It was 10:45 o'clock when he left the ground. His motor worked perfectly and after a few circles he headed northwest, swept over the San Bruno hills and disappeared towards San Francisco. In the meantime the wireless advised the cruiser, at anchor with the fleet in the Bay, that another man to hold Shiverick braced against the seat while a third wrenched the weapon from his skull. Shiverick jumped from his seat and ran up the side aisle to the lobby. It was seen that he was seriously injured, and he was removed to St. Joseph's Hospital where he was placed on the operating table. Doctors discovered that the end of the sword had penetrated Shiverick's skull.

TORONTO, Jan. 18.—The issuance of warrants for William J. Nesbitt, a Toronto promoter and George Wishart, a New York broker, by the crown is the latest development in the criminal side of the wreck of the Farmers' Bank. Both are charged with conspiracy. The information against Wishart also reveals a second charge against Dr. Beattie Nesbitt, that of conspiring to steal three hundred thousand from the bank, this charge being based upon the Keeley mine deal, in which mine, Wishart is said to hold two hundred thousand shares.  
In the meantime Dr. Nesbitt has not been found and a merry war is on in Toronto over the fact. The police department is scored on the ground that no special instructions have been issued for Nesbitt's arrest, but Inspector Duncan stoutly maintains he is doing everything possible.

# THE BANK OF NEW BRUNSWICK

In other columns of this issue appears the annual general statement of the Bank of New Brunswick, a financial institute whose name has been a household word throughout the Maritime Provinces for generations past. The bank was incorporated in 1826—nearly one year ago, and has stood unshaken through all the financial storms that have happened in that time. Skilful and prudent management have characterized the Bank of New Brunswick throughout its long history. And it had a good year in 1910 as the statement shows.  
The Bank of New Brunswick is distinctly a local bank of the Maritime Provinces, where all its branches are located. Its reserve fund is relatively large, being nearly double the amount of its capital. A highly satisfactory feature, as shown by the certificate attached to the annual statement, is that the books and accounts of the bank have been independently audited by a well-known English chartered accountant. And the annual dividend of 13 per cent ought certainly to be satisfactory to the shareholders.  
The Bank of New Brunswick in this city, now under the capable management of Manager H. P. Pethick, has since its introduction here enjoyed a goodly share of the local banking business.

# KIDNAPPER STABS MAN AND WIFE

PHILADELPHIA, Jan. 17.—Mrs. John M. Harper, wife of a wealthy hide importer, is in a serious condition from knife wounds inflicted during a struggle in her home on the Iled Rose estate, three miles from Villanova, early today, with a Japanese butler formerly employed by the family.  
She is stabbed on the shoulder near the throat, one on the arm and in the breast directly over the heart.  
Her husband's hands are cut from the sharp blade wielded by the intruder in the struggle, and he is slightly wounded in the back. Harper, as well as his wife, is under medical treatment.  
The idea has been presented that the man might have intended to kidnap John H. Harper, Jr., 5 years old, only son of the importer and his wife.  
The struggle occurred shortly before 4 o'clock in the morning in Mrs. Harper's room adjoining that in which the little boy sleeps.  
Mrs. Harper was awakened by the stealthy steps of the intruder across the floor, and sitting up in bed she demanded to know who was in the room.  
The noise of the steps ceased and (Continued on page 12.)

# MRS. EDDY MADE HER MONEY FAST

Practically all of the fortune left by Mrs. Mary Baker G. Eddy, founder of the Christian Science Church, had been accumulated within the last six or seven years. This statement was made by Alfred Earlow, manager of the publication committee of the church, this afternoon. Few even among the captains of industry, so-called, can equal this record of having saved for her own uses (coinciding with those of her faith, in this instance) approximately one million five hundred thousand dollars after having devoted several hundreds of thousands of dollars to the expenses of that action, and after having contributed thousands of dollars more to many worthy causes in this country and elsewhere.  
The large sums of money have resulted entirely from points on Mrs. Eddy's famous book, *Science and Health*, and from the numerous publications which her church publishing organization has put out. Formerly Science and Health bore the imprint of each new edition, but this marking to denote the latest product of the press has been done away with. It may be said, however, that nearly 600,000 copies of the book have been (Continued on page 10.)

# OTTAWA WOMAN WANT TO VOTE

OTTAWA, January 18.—A deputation from the Ottawa Equal Suffrage association held up the city clerk and assessment commissioner this morning, asking why the names of married women were not included in the voter's list for public school trustees. The clerk informed the ladies that in his opinion their husbands' vote was sufficient, and, as far as he was concerned, there would be no change. The ladies departed vowing that they would secure their rights through application to the courts.
