THE MOTHERS DESERVE THE GREAT TRIBUTE

Says Haig—Women's Division of Empire League is Suggestion Made at Luncheon

OTTAWA, July 3.—The suggestion that a women's division be formed in conjunction with the Empire Service League was made by Field Marshal Earl Haig when he spoke to the Ottawa Women's Canadian Club at luncheon in the Chateau Laurier. The Earl and Countess Haig spoke briefly to an audience of 300, one of the largest gatherings of club members held in some years.

"While England owes a deep debt of gratitude to the boys who fought for her, it is to the mothers of the Empire who sent their sons, that the greatest tribute should be paid."

These were the words of Earl Haig, who gave highest praise to the splendid spirit of the Canadian boys in the Great War.

HIGH TRIBUTE PAID TO PRINCE EDWARD ISLANDERS

Mayor of Hull Who Accompanied Municipalities Convention To Charlottetown Gives Eloquent Report On His Return Home—Highest Praise For Our Hospitality.

(Special to the Guardian)
OTTAWA, Ont., July 3.—Paying high tribute to the inhabitants of Prince Edward Island and particularly of Charlottetown, Mayor Louis Cousineau on his return from the convention of the Quebec Municipalities gave the following eloquent report to a special meeting of the full capacity council which was held Thursday.

"From my observations and the personal contact which I had with its inhabitants during our all too brief sojourn at Prince Edward Island, I have nothing other than the highest praise for their hospitality.

"There seems to be no race question in that island, every one living in the most amicable relationship with his neighbor. The general and false lines of riches and over drawn society seem to be entirely lacking, everyone is fellow worker in perfect harmony with the natural results of increasing progress and happiness. To my mind they are the most typical illustrations of the idealistic utopia that I have ever come in contact with. Surely they are examples of thrift and honesty which should be followed by the other provinces of the Dominion where little differences are often allowed to overcome the dictates of common sense.

"Prince Edward Island not only from the viewpoint of its good inhabitants but also from natural aspect is a little industrial paradise. Nature has been most profuse in her gifts and is everywhere to be seen at her very best, offering at once a treat for the artist and a solace for the weary business man who wishes to contemplate her beauties in lieu of the drab affairs of the business world. If for no other reason than her natural scenic beauties I think every one should make it a point to some day visit the island and see at first hand the handicraft of which nature is so capable of producing in many different forms. I know that there are many spots of natural beauty in the broad expanses of the Dominion, which are worthy of the same eulogy, but from my own experience and enjoyment of Prince Edward Island ranks with them all.

"The reception of the delegates of the Quebec Municipalities Convention was most enthusiastic and friendly. In fact it seemed that we were unable to do enough for us and I have been told that such hospitality on the part of the habitants is almost proverbial.

"To make particular mention of any of those who so generously received us and added to our entertainment would be an injustice to the others. From the representative of His Majesty to the most lowly and humble citizen, each worked indefatigably to make our short stay an unprecedented success from the viewpoint of the visitors. To say that they were successful would be to beg the question. And it was whilst at Prince Edward Island that I heard the most fluent French, which I have ever heard, spoken by the Irish Bishop, whose knowledge of our language was both a surprise and pleasure to the members of our party.

"In a word if you wish to see life as it should be lived, that is according to the dictates of duty and reason, visit Prince Edward Island and whilst there tell them that Hull is on a fair way to emulating its virtues."

Frozen To Death

VIENNA, July 3.—A hundred mountaineers or more were caught in a blizzard on a Styrian Salzburg Alps last Monday. When a long period had elapsed without news of them, searching parties set out and have thus far found seven of the men frozen to death. It is feared that most of the other mountaineers have been similarly overcome.

At Peace Again

(Special to the Guardian)
LONDON, July 3.—A final declaration of peace between Lord Oxford and Asquith and Lloyd George was made last night at a dinner in the famous Eighty Club, which is comprised of the strictest and was born amidst the troubles that threatened to divorce the Lloyd Georgeians from the older Liberalism some time ago.

RACE TO EVADE GERMAN TAX ON WHEAT

Steamers leaving European Ports for Canadian Wheat Will Race Against Time—Tax After Aug. 1st

MONTREAL, July 3.—A shipping race, unique in the history of Montreal, will take place this month as a result of the wheat tax imposed on foreign wheat entering Germany by the end of the month and thus escape the tax. According to cabled reports freight rates for wheat have pocketed up, the price quoted having doubled within the last five days. Other freighters in a position to get to Montreal and then to Europe before the tax is imposed have also been snapped up and are reported to be on their way here. Only boats that can get here before the 15th of this month and load grain for Antwerp, Rotterdam, and Hamburg are affected.

Whereas a few days ago a rate of 9 cents a 100 pounds was quoted for a steamer which could load here before July 8, 17 cents a 100 pounds was paid yesterday. For a Dutch steamer which has sailed for Montreal laden with ballast to load here not later than July 15 a rate of 14 cents per 100 pounds was paid, and many other boats have been charged under the same conditions. July export of wheat for the first half of the month at least, is expected to boom. After July 15 it is anticipated that the rates and export figures will descend again.

Grain merchants and shipping men here expect the tax placed on wheat to affect Canadian exports. During the last three years Germany has been a large buyer of our wheat, her imports doubling every year.
