THE MORNING GUARDIAN

THURSDAY, MARCH 12, 1903.

THE TELEGRAPH SERVICE.

The energetic manner in which the Board of Trade has grappled with this question and the assurances given by prominent men connected with both our federal and local Parliaments, together with the appointment of a strong delegation to visit Ottawa, gives renewed hope that at at last something may be done to remedy our present serious disabilities in regard to telegraphic communication. For many years the complaints have been widespread and general as to the extortionate charges, the short hours during which the offices are open and the general inadequacy of the service. It is now seven years since The Guardian began the earnest advocacy of improvement in this matter, which has been maintained from month to month and from year to year down to the present time.

Early in April 1896 the editor of The Guardian addressed a letter of complaint to J. H. Carson, Manager of the Anglo-American Company which was courteously acknowledged by him under date of April 25, 1896. In this letter which was printed in full in The Morning Guardian of May 12, Mr. Carson began by expressing his regret that there should be cause for complaint and added: "I beg you at once to accept my sincere apologies for any annoyance or irritation you may have suffered on the occasion of which you complain." He added: "With regard to the rates, although they are very much lower than we are entitled to charge under the charter, I regret to say they yield an extremely small percentage upon the capital expended. This company at the present time and for several years past has been paying a little over 2 per cent per annum." That was seven years ago. Since that time, despite the high charges the business of the company in Prince Edward Island has very greatly increased, if not doubled, owing to the general increase of telegraphic business the world over, and especially to new sources of revenue, notably from the large daily transactions in stocks in which the buying and selling orders are almost exclusively transmitted by wire.

It is clear that if the general business of the Anglo-American Company about the world is still paying but a little over two per cent, their business in connection with Prince Edward Island is vastly more profitable than the average. The present value of their plant in cables and land lines cannot exceed $40,000 to $50,000, and could certainly be duplicated for less than the lower of these sums. The subsidy paid the company by the Dominion Government of $1,946 yearly is alone sufficient to pay 4½ per cent on the value of their cable and land lines. The receipts of the company from its Island business during twelve months past cannot be less than $15,000 on their own showing of what their receipts were a few years ago with the revenue from well-known new sources added. Allowing $10,000 for salaries, maintenance, repairs and depreciation and there should be fully $5,000 of net profits. To this add the $1,946 received in subsidy and the actual net earnings would be equal to 17 per cent on a fair capitalisation of their present plant.

This calculation after making all possible allowances effectually disposes of the pitiful plea that the company cannot afford to reduce its rates and extend its hours of service. The company has in fact played the game common to all monopolies by giving the least possible service for the largest obtainable charges. That they have pushed this principle to the extreme of undoubtedly violating their contract to furnish "a regular telegraph service," is the opinion of the best lawyers of the Province. Moreover Mr. Carson wrote the editor of this journal seven years ago in the letter above quoted from: "We desire that our offices shall open earlier and close later than other business houses;" and yet seven years after the General Manager of the company wrote in that way the local Manager in Charlottetown persists in his old plan of opening later and closing earlier than other business houses. In face of these and other notorious facts of the case the able delegation going to Ottawa, will we trust be able to convince the Government that the time has come to take decisive and energetic action for our relief.

THE FAST ATLANTIC SERVICE.

It was announced in our despatches some days ago that the Ottawa Government had decided to call for tenders for a fast Atlantic service. This may or may not mean that such a service will be put on the route between Canada and the Old Country. But it means at least that the Government is seeking further information as to the cost at which such service could be equipped and maintained, and how much subsidy would be required. What is asked for appears to be a weekly service each way between Montreal in summer and Halifax in winter and some British port. Tenders are to be asked for suitable steamships with a speed of 16, 18 and 21 knots respectively. The higher rates of speed would require a greatly increased subsidy above what would be needed for a 16 knot service, but if the Canadian line is to compete successfully with the swift and palatial steamers that ply to and from New York in the passenger trade the Fast Line must be both swift and palatial.

As was also intimated in our despatches both the Canadian Pacific Company and the Allans will tender for the service when the formal call for tenders is issued. Both these great corporations tendered on a previous occasion, and are eager competitors for the business. The Allan line has long conducted a large carrying trade between Canada and Great Britain. The C. P. R. Company are new to the Atlantic trade, but their recent purchase of a merchant fleet is a sufficient proof that they will hereafter be formidable competitor on the ocean. If they secure the contract for the Fast Atlantic service it will assist the business of their great railway system, and their steamers on the Pacific as well. The modern and progressive spirit and the rare business capacity of the C. P. R. give rise to the hope that if the Fast Line is to become a reality it may be under their control and management.

BABY SALE

There are a great many hungry hearted women who would attend a baby sale if babies were ever offered for sale, because there are a great many wives who love children and have been told by physicians that they can never hope to nurse a child of their own.

Some of these women who have used Dr. Pierce's Favorite Prescription for the cure of womanly ills have been made happy mothers as a result of the cure of womanly disease and the building up of the general health.

Doctor Pierce's Favorite Prescription makes weak women strong and sick women well. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"I wrote to you some time ago to get information about my case," says Mrs. Mary Lee Flanary, of Dryden, Va. "I was troubled with female weakness and pains. Received answer from you, advising me to take Doctor Pierce's Favorite Prescription and 'Golden Medical Discovery.' I took two bottles of 'Favorite Prescription' and found it did me good. I had been married four years and had no children; now I can say that our house is blessed with a little baby boy, born July 10th, by the help of God and your medicine. I praise your medicine highly.

"You can publish this letter if you wish."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 31 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

We have not advanced the price of our tobaccos. Amber smoking tobacco, Bobs, chewing tobaccos are the same size and price to the consumer as formerly. We have also exteded the time for the redemption, of Snowshoe Tags to January 1st, 1904.

PUBLIC NOTICE

Is hereby given that "The Marconi Wireless Telegraph Company, Limited," a Company incorporated by Letters Patent under the Companies' Act of the Province of Ontario, will apply to the Parliament of Canada at its next Session, for an Act to incorporate the present and future Shareholders of the said Company, and such other persons as may hereafter become Shareholders in the Company, to be incorporated by the said Act, and to constitute them a body politic and corporate, under the corporate name of "The Marconi Wireless Telegraph Company of Canada, Limited," with all the rights, powers and franchises which have been already conferred by the said Ontario Letters Patent so issued, and by law upon corporations, and with further power to transact and conduct a business of telegraphic communication by means of wireless or other telegraphy, and to establish, construct, maintain and operate such line, or lines, or system of magnetic, electric or other telegraph, or telegraphic communication, as may be necessary, incidental or advantageous thereto, or to the collection, transmission or delivery thereof, or of such messages, either in whole or in part, and to exercise and enjoy said powers in any part of the Dominion of Canada, or place in its jurisdiction, or between any point or points therein, and any island, province, country or place upon or near the Continent of America, or in the British isles, or the Continent of Europe, or the Atlantic Ocean, or in any island, country or place situate in the Pacific Ocean or elsewhere, to, from or with which telegraphic communication or connection may be established from the Dominion of Canada:

And in connection therewith to exercise such other and general powers as may be necessary or incidental to properly establish or operate the same.

With power to acquire, hold, own, mortgage, hypothecate and dispose of such real estate and personal property at such places within the Dominion of Canada, as may be necessary for the Company's undertaking, and to build upon and improve said property, including the right to enter upon such lands, water lots, foreshore or other places whatsoever, and to survey, and by due process of law, take such part thereof, as may be necessary for the uses and purposes herein set forth, or in connection therewith, and to construct, lay or establish such telegraphic or other lines, wires or cables upon or over or under any lands, streams or other waters within the Dominion of Canada or contiguous thereto, either for its own purposes, or to connect with the lines or other facilities or means for communication of any other corporation or person engaged in the transmission of messages by any means whatsoever.

To enter into agreements and contracts with any city, town, village or municipality within the Dominion of Canada, or with the Dominion or Provincial Governments for the purpose of establishing such lines or systems of communication either in whole or in part, erecting stations, buildings, poles or communication of whatsoever kind, nature or description necessary or convenient in connection therewith, and to use and operate the same upon any public street, square or other public property within the precincts of any municipality or within any property belonging to the Crown.

To acquire, own and hold inventions, patents, patent rights, grants, licenses, or concessions, and to sell, convey or grant rights, licenses, concessions or privileges thereunder.

To purchase or otherwise acquire, own, hold, sell, assign, and transfer shares of capital stock and bonds or other evidences of indebtedness of corporations, and to exercise all the privileges of ownership including voting upon stocks so held.

To purchase, lease, or otherwise acquire, the line or lines of any telegraph, telephone or cable company incorporated in Canada or elsewhere; to lend money in aid of such Company to enlarge or extend its properties, facilities or connections; to co-operate with, or make connection with, or undertake the operation of the properties of such Company, or Companies, in whole or in part, and generally to do all things to promote the conduct or expansion of its business, of transmitting information and messages, public and private, or the collection or delivery thereof.

To borrow money and to issue its bonds, promissory notes or other evidences of indebtedness therefor, and to secure the same by any real or personal property belonging to the corporation; to make and execute guaranteed indemnity and other bonds or assurances connected with or incidental to the exercise of its powers and conduct of its business.

To undertake the transmission of messages, communications or information for the public or others with whom it may enter into contract, and to collect tolls for so doing.

To confirm and legalize the five million dollars paid up stock already made and issued by the said Company incorporated by the said Ontario Letters Patent and declaring that the said stock shall not be assessable for calls.

GREENSHIELDS, GREENSHIELDS, HENEKER & MITCHELL,
Solicitors for Applicants.
