MISSING $10,000 BILL PAID TO ROYAL BANK

HAVANA, October 9—The missing $200,000 from the National Bank of Cuba which was mailed to the Park National bank in New York, was stolen here, as one of the listed $10,000 bills has been found. It now seems certain that the money was stolen either in the National Bank of Cuba or in the Havana postoffice.

Senor Wamerchant, acting president of the National Bank of Cuba, said this morning that he is absolutely certain the money was mailed in a registered letter. He said the keeper of the money vault counted twenty $10,000 bills in his presence, in the presence of his assistant and a young woman employe.

The letter containing the money was duly sealed and the keeper of the vault gave it to one of the bank's messengers, who was trusted in every way by the bank officials, having handled millions of dollars during his many years as a messenger. He took the letter to the post office.

As the registered letter, purporting to contain the $200,000, reached New York only on October 1, none of that money could return to Havana or be deposited by the National bank in the Royal bank, hence the money was stolen here, either in the National bank or in the Havana post office.

WINNIPEG MEDICO HAS ANOTHER ONE ARRESTED.

WINNIPEG, Oct. 9—Dr. E. R. Grieveson a well known medical practitioner was arrested at midnight on a charge of assault sworn out by Dr. A. H. Silberman.

The story told by Silverman is a remarkable one. He says he was seated in his office last night when Grieveson and another man entered and locked the door after them. He says that Grieveson then seized a heavy inkstand and struck him in the face knocking out two teeth. Then Grieveson seized Silverman by the throat and pointed a knife at his breast, according to Silverman's story, and compelled the latter to write a retraction of a statement Grieveson apparently claims Silverman had made in connection with certain alleged relations between Grieveson and a woman. He says Grieveson threatened him with death if he made an alarm and left after searching unsuccessfully through his pockets for money to pay for the publication of the statement in local papers. Later Silverman called the police and Grieveson was arrested, being released on bail.

The case was adjourned in the police court this morning. Silverman is a native of Quebec and an Edinburgh graduate.

BONAR LAW DENIES HIS POSITION.

LONDON, October 9—In view of the attitude of Ulster on the home rule question the position of Bonar Law, leader of the unionists, becomes important. Bonar Law spoke of the possibility of an irreconcilable Ulster during the debate on the Parliament bill last year. He said: "If the people of this country decide that they will make the experiment of home rule, then—and here I must certainly part company with some of my honorable friends in this house, and with some of those who supported me in the constituency I represent—I should say I believe in representative government, and however much I dislike it, you cannot compel the United Kingdom to keep to the present arrangement against their will. And I should say to the loyalists of Ulster, 'You have got to submit.'"

This, it is contended here, deprives the singers of the covenant of unionist support if the authority of a home rule parliament is refused recognition.

The Daily Telegraph, referring to persistent rumors in political circles that the government is negotiatin with John Redmond in the hope of finding a way out of the Ulster impasse, says that a suggested basis of compromise made has been to give Ulster the right of exemption from some of the provisions of the home rule bill under certain conditions.

It is said that some agreement has been reached.

DOCTORS PLEDGE BODIES.

NEW YORK, Oct. 9.—A campaign has been inaugurated by members of the Associated Physicians of Long Island to educate the public to a better understanding of the value of autopsies and the necessity of a more general offering of bodies for post-mortem examination in order to ascertain the real causes of death.

The medical men are so much in earnest that 200 members of the society at a meeting on Hoffman Island on Saturday adopted a resolution by a unanimous vote pledging themselves to request their heirs to have autopsies performed on their bodies. There are 1,000 members of the medical fraternity in the society.

GOLD MEDAL FOR INTERNATIONAL EXHIBIT.

MONCTON, N. B., Oct. 9—Word was received today by the Intercolonial Railway authorities that the jury of awards, in connection with the Canadian National Exhibition at Toronto, had awarded a gold medal to the railway for the very striking display made at the recent exhibition.

The principal feature of the display was a thirty foot map showing the territory served by the Government railway. By an ingenious arrangement of electric lighting the chief points of interest were shown in illuminating letters, while the route of the railway was traced by a line of red lamps over which travelled a shadow giving a realistic representation of a moving train. It was an exhibit decidedly instructive and one which was warmly commended.

Four hundred Greeks from Toronto went through this morning, being joined by the local volunteers, and will sail for New York. The steamer on which they will depart for the war is being kept a close secret.

DOUKHOBORS THREATEN DEMONSTRATION IN BRANDON.

BRANDON, Oct. 8.—Doukhobors here are causing trouble over the incarceration in the local asylum of two compatriots about two years ago A considerable number have come into the city recently and threatened to repeat the offence for which the two in the asylum are still confined—stripping themselves naked and walking about public streets. Acting Chief of Police West has taken measures, and last night arrested five ringleaders, two women and three men. The foreigners have threatened however, to bring 3,000 of their number, if necessary, to secure the release of the two in the asylum. The police officers took five after they had refused to desist hanging about the asylum, and in the police court this morning they refused to give any names. They explained through an interpreter that they wanted the release of the men confined there, and stated they would go peaceably away if their compatriots were restored to them.

PUBLICITY LETTER---NO. 2.

The question of maintaining athletics is a CIVIC one. It touches directly or indirectly every person in Charlottetown. The loss of the Athletic grounds would therefore be a civic one.

Likewise the destruction by fire of the Grandstand at the Athletic grounds a few days ago is a most regrettable disaster.

If the stand is not rebuilt, the day of Athletic Competition in Charlottetown IS GONE FOREVER. The construction of a new grandstand entails a heavy financial burden.

The Abegweit Association is willing to do its utmost. Its Board of Directors has freely given its time, talents and money to further wholesome physical development. Not a single cent of remuneration goes to a member of the Board.

The effort about to be made to erect a new grand stand is TOO HEAVY to be carried by the Association alone.

An appeal is made to the citizens to assist in this worthy enterprise. A campaign is being developed by which EVERY CITIZEN will be able to help in the preservation of the city's athletic reputation.

DIED BEFORE MARRIAGE.

MONTREAL, Oct. 9.—A pathetic scene was enacted at the morgue here when Miss Flora Scott, a resident of Longue Pointe, came to the mortuary rooms to attend the burial of her betrothed, Thomas R. Irons, who was electrocuted while working at the factory of the Canada Cement Company at Longue Pointe.

This was the second fatality that had entered into Miss Scott's life within a year, her brother having met death in a similar manner last spring.

"We were to have been married next month," she sobbed, when her fiance's clothing and personal effects were shown to her, and she broke down so completely that she had to be led from the room.

Mr. Irons had no relatives in this country. His parents in Ireland have been notified of his death.

BRITISH PORTS WON'T BE-OPEN

LONDON, October 9—There is, it is said, little likelihood of British ports being re-opened for the admission of Canadian cattle in the near future, and the refusal of Mr. Runciman, president of the Board of Agriculture, to receive a deputation upon the subject, has caused considerable indignation among those who for months past have been agitating for a removal of the ban. His attitude is said to be in no small measure due to Irish influence in the commons.

ENFORCE NEW BILINGUAL REGULATIONS.

OTTAWA, Ont., Oct. 10.—The Ottawa separate school board has received a circular from the Ontario department of education dealing with the board's opposition to the new bilingual regulations, which defines the attitude of the minister of education in the matter, that any school which disobeyed the regulation would cease to be a part of the provincial system and that its supporters, while they might voluntarily contribute to it, would also be classed as public school supporters, and would have to contribute as such was one of the statements in the circular. Teachers who disobeyed the regulations would have their certificates cancelled, while the walking out from schools of pupils would also be constructed as an infraction of the law and would destroy the standing of the institution where it occurred, as a unit of the Ontario educational system.

The Rappelt apartments is in the rear of the third floor and it will be impossible for the eight pallbearers to carry the coffin, weighing five hundred pounds, down the narrow stairway to the street. POWERS DECIDE FOR WAR

PARIS, October 9—The conservative journal Des Debats prints a pessimistic review of the political situation in Europe, in which it warns France against weakening her military strength at home by sending troops to Morocco and other colonies. The opinion is expressed by the paper that the war will engulf the entire Balkan peninsula because it was decided upon not only by the Balkan states, but also by several great powers. Whether the Balkan states win or lose, the situation is perilous for Europe. If they win nothing can stop the allies from seizing the territorial spoils of war; if they lose, Russia could never abandon her Slav brothers of the south. In any case, the journal argues, the peace of Europe is endangered.

The French foreign office at a late hour tonight was still without a reply from Sofia, Anthens or Belgrade, and the only suggestion thus far as to its possible tenor is found in the remark of the Bulgarian foreign minister when the note of the powers was delivered that Perhaps it would have had a better chance of success if presented a fortnight earlier.

Bulgaria's hesitation is variously interpreted. Most of the diplomats are of the opinion that it is merely a device to gain time to complete the war preparations. But a shrewd minority has not given up hope that King Ferdinand is searching for some ground to enable him to give satisfaction to the powers without risking his own crown.

A semi-official note reiterates that the accord of the powers is such that even if war breaks out it is sure to be localized. This doubtless is designed to allay anxiety that might have been aroused by the review published in the journal Des Debats.
