YORK COUNTY'S PROOF

That Doid's Kidney Pills are a sovereign Remedy for All Urinary Complaints.

ST. MARY'S FERRY, YORK CO., N. B., Sept. 28.—(Special)—York County has a living proof that Doid's Kidney Pills will cure urinary complaints, including Gravel in the person of Thomas Harrison, of St. Mary's Ferry. Mr Harrison tells his own story as follows:

"I was troubled with a severe pain in my back which gradually got worse, till I was obliged to call in a physician. He called my complaint Appendicitis, but could give me no relief and shortly afterwards I commenced to urinate blood.

"Then I commenced using Doid's Kidney Pills. The first box gave me relief and greater relief followed when I passed a stone that had formed in the bladder. Three boxes of Doid's Kidney Pills cured me entirely."

THE KING'S CHOICE.

LONDON, Sept. 30.—It is understood the King strongly favors Austen Chamberlain for the war office, considering him the only practical business man among those mentioned for the position.

COMFORT FOR THE AGED

Judging from the letters of people up in years there is no medicine which so promptly frees them of aches and pains and insures regularity of the liver, kidneys and bowels as Dr. Chase's Kidney Liver Pills. Even when all other means have failed old people can turn to this great medicine with full assurance of relief and cure.

HELD FOR MAN-SLAUGHTER.

CANTERBURY, Conn. Sept. 29.—Thomas F. Brown, a former postmaster of Packerville, has been held for the superior court on the charge of manslaughter growing out of the death of Thomas F. Montgomery on July 4 last. The case grew out of a fishing trip on which the men went. It is alleged that Brown and Montgomery had a dispute in the boat and that Brown knocked Montgomery overboard.

This Mountain Climber Has Finished His Walk Across Canada.

FIELD, B. C., Sept. 29.—The eminent mountaineer Edward Whympfer, has finished his walk across the Rocky Mountains of Canada and has now left Field for the Crow's Nest Pass. He started from Kananaskis Falls in Alberta, and walked through to Yale, B. C., crossing en route the main ridge of the Rockies, "the Great Divide," the "Selkirk" and the minor ranges to the west, for the greater part of the distance adhering to the track of the C. P. R. though frequently deviating from it. When the weather was fine, an average of 25 miles per day was maintained. The total distance was more than 500 miles. Before leaving Field, he expressed himself warily in regard to the courtesies and assistance received all along the railway from the officials and employees of the company and said that the walk had more than satisfied his expectations, and that the beauties of the line are greater than he anticipated, that there was not a dull mile upon the whole of the distance. The upper valley of the Bow, he said, is not inferior to the best part of the upper Thames, yet along the entire distance from Banff to Laggan, there is not a single settler. Putting aside such features of the country as are now well known and places on the railway that are frequently visited, Mr. Whympfer indicated a few points in the vicinity of the line which he considered were especially noticeable, the country around Donald, which is extremely fine and almost entirely unexplored, the grand forest trees and the neighborhood around Albert Canyon, Griffin lake, almost as attractive as the famous lakes of Thun and Brienz, but has not yet got a settler, Eagle river, connecting Griffin lake with the great Shuswap lake, which latter combines the charms of Windermere and Lugano, the stream from the Great to the Little Shuswap lake, with its oaves and foliage overhanging the water reminding one of Loch Katrine. It is a delightful spot. The upper forty miles of the Thomson river, which sometimes broadens out to three hundred yards wide, with waters clear as the Mediterranean. English Alpinists have been wanting in the Canadian Rockies this year. The honors of the season have been carried off by Prof. Farker of New York, who amongst other exploitists has vanquished Hungabee (the chieftain) and Deltaform the highest mountain in the valley of the Ten Peaks.

OWES HIS LIFE TO A NEIGHBOR'S KINDNESS.

Mr. D. P. Daugherty, well known throughout Mercer and Sumner counties, W. Va., most likely owes his life to the kindness of a neighbor. He was almost hopelessly afflicted with diarrhea and was attended by two physicians who gave him little, if any relief, when a neighbor learning of his serious condition, brought him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured him in less than twenty-four hours. For sale by all druggists.

A Big Discount Sale

Of over 10,000 Yards of High Class and Medium Grade Cloths,

Suitings, Trowserings, Overcoatings—Over 1100 Yards of the Celebrated Oxford Tweeds, Ladies' Cloths, in Friezes, Cheviots, Tweeds, Serges and Priestly Black Goods.

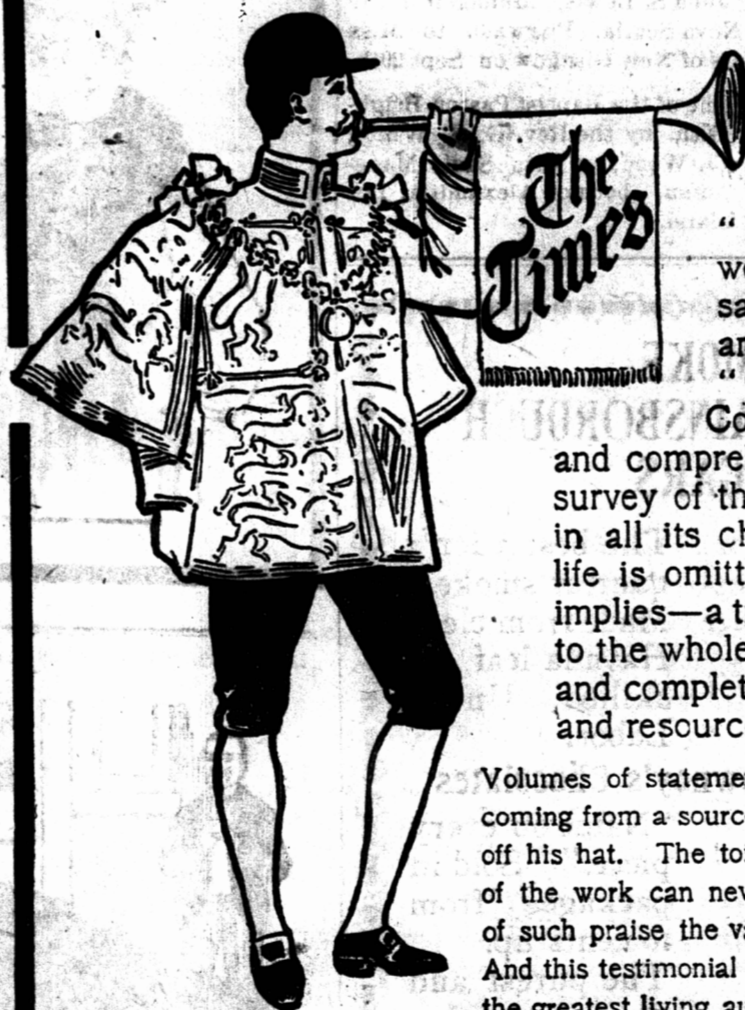

On account of the difficulty of procuring all the first class help we want in our tailor shop, we find we have more cloth than we are able to manufacture. To reduce this big stock we will for two months give genuine discounts of 20 to 30 per cent.

The woolens shown by us are among the choicest ever shown in Canada bought from the leading houses in the trade at the lowest prices. As the price of fine woolens has materially advanced this sale gives a rare opportunity to tailors and others of buying up to date goods at figures that are not likely to be repeated for many days.

No goods reserved. Call early and get first choice.

What the Thunderer says.

Of all the good words that have been said of "Canada: An Encyclopædia"—none is more emphatic than this recent declaration of the London Times—the Thunderer—the greatest Daily Newspaper of the world:—

"It is no disparagement of the other works relating to North America to say that by far the most interesting and important is the work entitled "Canada: An Encyclopædia" of the Country. The plan is unique, ambitious and comprehensive. It gives in six volumes a survey of the past and present of the Dominion in all its chief aspects. No side of Canadian life is omitted: the work is all that the title implies—a true cyclopædia of information relative to the whole Dominion: a personal authoritative and complete record of Canadian history, growth and resources."

Volumes of statement could not convey more than words like these coming from a source to which every British subject instinctively takes off his hat. The toilsome years that have been spent in the preparation of the work can never appear to be labor in vain. In the presence of such praise the value of this Encyclopædia must be evident to all. And this testimonial is but one of hundreds that we have received from the greatest living authorities. The work itself is the achievement of

two hundred and twenty-eight eminent Canadian writers and specialists, a library of reference about Canada to which there is not even an approach existing in any other form, a living monument to the progress of the Great Dominion. Grand in its conception, colossal as an undertaking, and wonderful in its execution, "Canada: An Encyclopædia" has been unanimously accorded its rightful place among the best productions of its class, the great Encyclopædias of the world. To possess these volumes is the duty of every true Canadian, and the prices and terms are such that the publishers have made this possible. The work is complete in six volumes (with a special index volume added without charge) and there is no man in the Dominion, who is capable of earning ordinary wages, who cannot well afford to own it. If you will write to us for terms, we will send you sample pages and prove to you that this statement is plain fact. Having had a large advance sale among people of means throughout the Dominion we are now able to offer "Canada: An Encyclopædia" on terms that place it within the easy buying power of the humblest wage earner. If you have no other books make this the beginning of your library. It is a library in itself, a mine of information about the thing in which you are most interested—your country. Write us to-day, for the number of sets on hand is daily becoming more limited.
