The death yesterday morning, at 11 o'clock, of Rev. Donald McNeill of this City, removed a gentleman whose long life of 78 years had won the respect and esteem of people all over this Province. For the long period of fifty years he was a member of the Presbyterian ministry. For many years he was pastor at Woodville, and after that was for some time Chief Clerk in the Provincial Educational Department. Of his family there survive him one son, Albert a lawyer in Vancouver, B. C., and two daughters, Mrs. A. E. Morrison of this City, and Mrs. Hector Kirke. The company is headed by James H. Huntley and Miss Sadie Hilton who will be seen in the leading roles. Mr. Huntley has been catering to the popular priced amusement seekers for a great many years, and it has always been his aim to present the very best material obtainable in the theatrical market both in plays and players. Supporting Mr. Huntley and Miss Hilton are the following well known players; J. Angus Gustam, Lee Miller, Thos. H. Cullen, Lawrence Conover, James P. Taylor, Richard McCutcheon, Anna MacNaughton, Ida Ellis, Florence Bell and Josephine Seabrooke. Popular prices will prevail during the engagement which promises to be one of the dramatic events of the season. Reserved seats on sale at the usual places.

Some recent results of monthly cow tests in associations organized by the staff of the dairy and cold storage commissioner are: May 10, Victoria, B. C. 43 cows averaged 708 lb. milk, 4.2 test, 30.2 lb. fat. May 12, Milton, Ont. 97 cows averaged 548 lb. milk, 3.6 test, 19.9 lb. fat. May 15, Dixville, Que. 40 cows averaged 451 lb. milk, 4.2 test, 19.2 lb. fat. One of the best individual yields yet to hand throws these "average yields" very much in the shade. A 7 year old cow in the association at Innerkip, Ont., that calved 25th March, gave in the 30 days of April no less than 1910 lb. milk, testing 3.3, or 63 lb. of butter fat. If only one cow has to be housed, fed and milked in place of three, there is an immense saving of labor and material. Look to the individual, not the average yield. The work of these cow testing associations is helping farmers to detect the poor cows; it is also proving useful in securing better treatment for good cows, so that more milk from fewer animals can be obtained. There are now over 70 associations in Canada.

to the Independent Order of Foresters especially to the members of Court Minnewawa, Bedeque, for their kindness to me during the long illness of my husband the late Leslie Gould. While he was in the hospital for the insane the dues were paid by the members. At the funeral everything that a society could do for a member was done and soon after the amount for insurance was promptly paid, and I here tender my sincere thanks to the Foresters for their kindness.
