\$20 A TON FOR STRAW.—The seriousness of the feed situation in the country may be gauged from the results of the McPhee sale, at St. Margarets, Wednesday, when some ten tons of straw sold for up to \$20 a ton. This is a record price paid by farmers for straw feed in Prince Edward Island.

LOWER SUGAR. To show that Summerside is strictly up to date the stores have reduced the price of sugar to seventeen cents per lb. which is a decline of eight cents from the former price. This is what it would cost to import it from the refinery today.

Blackheads are a confession

Blackheads are caused by excessive oil collecting dirt in the pores of the skin. Their presence is a confession that you are using the wrong method of cleansing for your type of skin.

To cleanse thoroughly skins liable to this disfiguring trouble, use the following special treatment. Apply hot cloths to the face until the skin is reddened. Then with a rough washcloth work up a heavy lather of Woodbury's Facial Soap and rub it into the pores thoroughly, always with an upward and outward motion. Rinse with clear hot water, then with cold—the colder the better. If possible, rub your face for thirty seconds with a piece of ice. Dry carefully.

To remove blackheads already formed, substitute a flesh brush for the washcloth in

the treatment above. Then protect the fingers with a handkerchief and press out the blackheads.

Keep your skin free of blackheads by the above treatment and gain the clear attractive skin that the regular use of Woodbury's brings.

Get a cake of Woodbury's Facial Soap and begin tonight the treatment your skin needs. You will find Woodbury's on sale at any drug store or toilet goods counter in the United States or Canada. A 25 cent cake will last a month or six weeks.

The death of D. A. Smith, which took place in Harbor View Hospital, Sydney Mines, this morning at 7 o'clock, and particularly under such sad and tragic circumstances, has brought out at the inquest tonight, tender hands and sorrowing hearts quickly hastened to the aid of the aged victim, who was unconscious when he was hastened to the hospital. Mr. Smith never regained consciousness and passed into the hands of his maker this morning about sixteen hours after the accident.

Mr. Smith was born in Charlottetown nearly 85 years ago, and came of a race of Englishmen whose nobility was closely linked with the nobility of England. The writer, when as a boy, remembered Mr. Smith when the latter was settled in business undertakings with other old English stock, such as the Swabeyes, Breckens, Hyndmans, Papes, Palmers, Jenkins and others of the English nobility who settled in Prince Edward Island's capital.

governing the Garden of the Gulf. After leaving the Island, Mr. Smith went to St. John, N. B. where he conducted a most successful ship brokerage and insurance business. About 45 years ago he saw the great possibilities Cape Breton offered in his business, and ever since then he has been an active figure in the welfare of the place. Years ago he was head of the Board of Trade and was always a leader in anything and everything pertaining to the uplift of the community. As a church worker there was none ever better in St. John's Anglican, of which he has since the inception of the church here been deacon. In a word Mr. Smith was a fine example of the real English country gentleman—more could not be said of a departed friend.

Mr. Smith was married to Miss Britain, who predeceased him years ago, without issue. His only near relatives is an unmarried sister, a few years his senior, who resides at Digby. A brother for years lived in New Zealand, but is believed to be dead. Three or four nephews and nieces live in the States, and his mother-in-law, Mrs. Britain, and daughter reside in New York. But countless are the sorrowing friends who will as long as life lasts cherish his memory.—North Sydney Herald.
