WHY CHESTCOLDS ARE DANGEROUS

They lead to pleurisy and pneumonia. Follow the advice of W. H. Powles of Powles Corner, Ont., who says: "I used to be subject to attacks and although I used most everything nothing relieved quickly till I discovered Nerviline. I have used it for pleurisy and sore chest and found it just the proper thing. For Lumbago or Neuralgia it's quick as lightning. I cheerfully recommend Nerviline." Strongest, cleanest, most pain destroying liniment on earth is Polson's Nerviline. 25c bottles sold everywhere.

CALL FOR HELP.

The Northwest needs more workers to assist in gathering this season's harvest. From every section comes the cry for help. Those who have gone from the Maritime Provinces are now hard at work, and still the demand is for more. There is work for all who can go—work that will last well on to the New Year, and that may result, if the visitor wishes it, in opening up for him opportunities of settlement on advantageous terms in the new land. This year's crop promises to be up to the average, and to harvest it will require a mighty army of men. The call of the west to save its crops and help in the growth and development of Canada is a call that must be heeded. It is of national importance and a patriotic duty to our brethren in the West to go to them in their hour of necessity, and every man who can go should lend assistance. Many of the Northwest farmers are from the Maritime Provinces, and are depending on their maritime brethren for assistance and will make welcome those from the home land who will go forth to help them. The Canadian Pacific Railway, in order to assist the western farmers, have arranged for a second Farm Laborers' Excursion, leaving on Tuesday, September 17th. Already there have been a number of inquiries, and there is every indication of a hearty response to the call of the West. The general arrangements will be along the lines of the excursions run on August 20th, and full details are announced in the advertising columns of all newspapers and in the flyers and various advertising matter circulated throughout the country.

THE GUARDIAN COVERS THE FIELD

The Guardian covers the City and Province within which it is published more fully and completely than any other newspaper printed in Canada.

With a daily circulation of its morning and rural edition now about 8,000 and growing from day to day, it has broken all records for a daily publication in a small community.

Charlottetown has a population of 12,000 and Prince Edward Island has 103,000 The Guardian's daily circulation is therefore 1 to 1½ of population in the city in which it is published, or 1 to 13 of the population of the Province. This is, the management believes unequalled by any daily newspaper published in Canada.

Take one or two comparisons with other leading newspapers in other cities and Provinces.

St. John has a population of 40,000 and the Province of New Brunswick 320,000 St. John has five newspapers and among these The Telegraph and The Sun are perhaps the foremost. Each claims a circulation of about 8,000, or say as 1 to 5 of the population of that city and 1 to 40 of the population of the Province.

Or again: Toronto has a population of some 250,000 and the Province of Ontario about 2,225,000. The Toronto Globe is a great Canadian newspaper, known all over the world as one of the foremost journals. The Globe's published daily circulation is slightly under 50,000. That is as 1 to 5 of the population of Toronto and 1 to 42 of the population of Ontario.

The point is this that The Guardian covers the field of its circulation three and a half times as well, if compared with population of the city and over three times as well, taking the population of its Province, as the best New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.

These facts are printed in no spirit of boasting, but for the satisfaction of Guardian readers and advertising patrons alike. They have a right to know how completely their favorite Journal is endorsed by the reading public among whom it circulates and how completely it covers the field as an advertising medium in this City and Province.

I bought a horse with a supposedly incurable ringbone for $30. Cured him with $1. 0 worth of MINARD'S LINIMENT and sold him for $85.00. Profit on Liniment, $54 00.
