THE EMMERSON CROCKET LIBEL

The Defendant By Counsel Pleads that Alleged Libel is True and In The Public Interest—Demurrer to Be Filed.

(SPECIAL BY CABLE)

PETERSBURG, June 19.—In the Emerson Crocket libel suit this morning J. D. Hazen appearing for defendant, James H. Crocket, presented on behalf of his client the following plea for the first time: That the defendant was not guilty; and for the second plea: That he should be dismissed and discharged, because the alleged libel concerning H. R. Emerson was true and that it was in the public interest and for the public benefit that such matters should be known so that the Government could be judged of men whose characters were of a derogating and disgraceful quality. Hon. D. P. Gagey on the part of the Crown asked the court to proceed with

the civil business in order that he and his colleagues might have time to prepare a demurrer against the last named plea. Mr. Hazen then explained that owing to the number of witnesses brought from a distance the case ought not to be delayed. Mr. Gagey argued that there would be no unnecessary delay in proceeding with the case. His Honor Judge Landry said that he was willing to proceed with the civil cases. The case will come up tomorrow morning but he expected several days will be taken to secure a jury.

KIEV GARRISON IN OPEN REVOLT

Seventy Killed or Wounded, Two Hundred and Fifty of Five Hundred Captured—An Officer's Heroic Action and Death.

(SPECIAL BY CABLE)

St. Petersburg, June 19.—Details of the mutiny of sappers at Kiev shows that it was only suppressed after a bloody engagement at midnight June 17 between the mutinous and loyal troops. About 70 men were killed and wounded. The mutiny was planned to coincide with the political strike as a reply to the dissolution of Parliament. In several of the southern provinces arrangements for a strike had been making for months under the leadership of the experienced organizer M. Loskot, who was a member of the first Parliament. The decision of the revolutionary staff here to refrain from any demonstration was disobeyed by the hot-headed sappers. At midnight June 17 five hundred men left their beds, disarmed the sentries, dressed, obtained possession of their rifles, broke into the armory, secured a number

of loaded cartridges and then marched to the camp square and fired a volley in the air. The officer on duty, Captain Akuloff, ran out and addressed the mutineers, persuading them to disperse. He then called out another battalion, drew the men up and led the charge on the mutineers ordering them to surrender. Upon their refusal to do so Capt. Akuloff ordered the troops to fire and fell himself at the first volley. The fighting continued several minutes. Half a dozen soldiers were killed and about sixty wounded. Finally the mutineers, who had no officers, no leaders and no plan, wavered and fled. Two hundred and fifty were captured but one hundred and ninety three eluded pursuit and hid in the city.

THE REMEDY OF 200,000 CLUB

The Facts Set Forth—Concluded From Yesterday's Guardian—Objects Of The Club And What It Proposes To Do For Province

concluded. One of the most important subjects for consideration and discussion need to state, will be the question of transportation between the Island and the Mainland and all other information concerning that question, or in any way touching upon the welfare of the Province, should be promptly forwarded to Headquarters at Charlottetown. No doubt there will be great obstacles and discouragements. Nevertheless, it is the writer's privilege to state his thorough conviction that a complete system of organization, such as described in this article, if followed up, would lead to most tremendous and gratifying results.

of this Province, and to suggest the remedies whether by legislation or otherwise. To make the people of this Province contented and loath to leave. 10. To make this Province an object of admiration and praise to every visitor. 11. To correspond, advertise and, by every means in its power, to induce good people to come and reside on the Island. 12. To keep the people informed, by the distribution of pamphlets and through the press, of any new ideas that might be of service to them in any way, domestic, educational or otherwise.

THE 200,000 CLUB OF PRINCE EDWARD ISLAND. The purposes of this Club are: 1. First and last to increase the population of this Province. 2. To discuss and devise ways and means of improving the present transportation facilities of this Province, both water and summer. 3. To improve the present state of the Province, socially, morally and financially. 4. To improve the appearance of this Island and make it the most attractive place in America to live in. 5. To discuss and find out what industries might be started and encouraged, and to invite outside capital to invest. 6. To discuss ways and means of increasing the tourist trade. 7. To discover what new products can be successfully raised from the soil of this Province, and what manufacturers could be promoted to utilize these products. 8. To discover the weak spots and obstacles that stand in the way of the comfort and contentment of the people. Ask for Minard's and take no other.

ADDITIONAL. In conjunction with the Bureau of Information at Head Office, it is intended to establish an Employment Agency for farm laborers, domestics, clerks or positions of any kind that are asked for. A permanent Bureau similar to Head Office will also be established at Summerside, with a secretary selected by the members from that town and paid by the Head Office, providing that enough members from Summerside can be obtained. It should be the intention of all members to keep the 200,000 Club of Prince Edward Island entirely cosmopolitan in character. FEES. The annual membership fee for Charlottetown—Gentlemen, \$2.00; Ladies 50 cents annually. Towns and villages outside of Charlottetown—Gentlemen \$1.00; Ladies, 50 cents annually. All territory outside of the above—Gentlemen, 50 cents; Ladies, 25 cents annually. When more funds are necessary the receipts may be augmented by voluntary subscriptions. An emblematic button for each member will be procured as soon as possible.

SALVATIONISTS HAD CLOSE CALL

Toronto, June 18.—News reached Toronto today that a Pere Marquette excursion train carrying 350 Salvation Army people from St. Thomas and London, to Detroit, was wrecked near Glenwood, the "first station" west of Detroit, in Kent county at 8:30 a. m. Saturday morning, while running at fifty miles an hour. The accident was caused by the breaking of the truck frame of the engine. The locomotive, baggage car and three coaches were derailed, but none of the passengers were hurt excepting a few who received slight cuts. After a short delay a new engine and cars were secured and the excursion reached Detroit at 2:10 p. m. Train Master G. H. Hula, who was in the baggage car when it left the rails, jumped and alighted in a pond of water.

LITTLE BABIES IN INCUBATOR

Die While Being Shown At Toronto Park—Deaths To Be Investigated

(SPECIAL BY CABLE)

TORONTO, June 19.—Two babies have died within two days in incubators at Scarborough Beach Park and Co. Orr will hold an inquest on the bodies tomorrow. One of the children is described in the doctor's certificate as having died of marasmus, the other child dying of acute indigestion. Both were patients of Dr. St. Charles. Both were sickly when put into incubator and lived only a few days. Coroner Johnson, when spoken to said he had issued a requisition for an inquest. He said if such an experiment were being run at an amusement park it should be in competent hands, otherwise it would be clearly criminal. Dr. St. Charles said that the children that died would have died anyway and lived longer there than they could have elsewhere. There are now six children in incubators.

HE HOPES FOR CHURCH UNION

MONTREAL, June 18.—Rev. Dr. Symonds, Vicar of Christ Church Cathedral, preaching last night on "The Presbyterian General Assembly and Church," declared that it was a matter for deep thankfulness that the tide of Christian fellowship was flowing strongly and apparently surely to some great and practical result. Dr. Symonds pointed out that there were really no insurmountable obstacles to such a union. As to the attitude of the Church of England, he said that owing to certain difficulties representatives of the Anglican church had not yet met the representatives of other churches but, he added, "we have not banged or shut or barred any of the doors, on the contrary they are wide open for amicable discussion when the time is ripe." Dr. Symonds emphatically declared that the consummation of such a union would be the greatest event in a religious sense since the days of reformation.

Fred Blake has been secretary for some time and the appointment of a new secretary with the trustees. The school meeting at Crapaud was well attended. An increase of supplement was voted, the principal to receive \$75, assistant \$25. David Sheridan was appointed trustee. W. D. Sherren retiring. The vacation season was changed from summer back to spring and fall. The annual meeting of Hope River School District No. 90 was attended by only a few ratepayers. Thirty dollars was voted for supplement to teacher and \$30 for running expenses. The summer vacation still obtains. No teacher has yet been engaged. The Trustees are Walter Simpson, John Callen and J. Herbert Simpson and Walter Simpson Secretary.

DOG WHO PILOTED KING AND QUEEN

London, June 17.—A little yellow dog took into his head to show the way down the Strand and Fleet street for the King and Queen of Denmark as they proceeded on a recent afternoon from Buckingham Palace to the Guildhall to luncheon with the Lord Mayor. In the middle of the road ahead of the mounted police, gentlemen outsiders and the Life Guards, the dog sedately trotted along unmoved by the cheers of the crowd. The sidewalk, apparently completely absorbed in the discharge of the important duty he had assumed. The sensation he caused has quite overshadowed that aroused by the Royal visitors from Denmark. Every body cheered the dog and only a few cheered the royalties whose movement he had undertaken to supervise.

FILIBUSTERS ROB AN ENGLISH ROAD

Nicaraguan Force Was Driven Off After A Short Fight

San Salvador, R. public of Salvador June 18.—The manager of the English Railroad Company has officially informed the government that the Nicaraguan guerrillas, Monctomb, flying the Nicaraguan colors landed eight hundred men and war equipments at Acandote, Salvador in the company's tug boat and launches. The men were then taken by train to San Sonate, June 18th, and at noon June 12 re-embarked after robbing the merchandise stores, etc., taking away one launch and three sea-going boats. The revolutionists apparently did not expect any resistance at San Sonate and were unable to carry out their original plans, being driven off by the Salvadoran troops. It seems that the filibusters had resolved to land at other places, perhaps at El Triunfo or Cajalte.

DR. FALCONER IS HARD AT WORK

In University Of Toronto Consulting With His Staff—Widespread Bush Fires at the Soo Destroy Much Property.

(SPECIAL BY CABLE)

TORONTO, June 19.—Dr. Falconer, recently appointed President of the University of Toronto is hard at work. All this week he has been consulting with the various members of the staff, one entering his office as another leaves. He has also inspected the several university buildings. "Yes, I am very busy" said Dr. Falconer today. "There is a great amount of work to look into and I can't say exactly how long I will be here. I expect to be in

Toronto till the end of the first week in July." SAULT STE MARIE, June 18.—It is reported that three men and two camps were destroyed by fire. Both contained an immense amount of supplies. The camps were at Finmark and Bay of English. The district around Kenora is also being swept by bush fires. W. T. Parson, who has the G. T. P. contract in this district lost his storehouse in the fire. His loss will go over \$2,000.

CZAR'S DECISION DISSOLVED DOUMA

He Wanted To Do Away With It Long Ago But Stolypin Wouldn't Consent—Reactionaries Jubilant And Celebrate Their Triumph

St. Petersburg, June 17.—From a well informed source the Associated Press learns that the decision to dissolve the Duma and abolish the former election law was due to the initiative of the Emperor whose original intentions went far beyond the steps actually taken. His Majesty wished to dissolve Parliament forthwith and prolong the interval between the convening of a new assembly, thinking that this would permit the agitation throughout the country to subside. He was encouraged in this attitude by court circles, but finally yielded to the arguments of Premier Stolypin, who strongly advocated the convoking of the Duma in the autumn. The Premier also succeeded in having stricken from the electoral law provisions increasing the educational and property qualifications for suffrage and raising the age limit of voters from 25 to 30 years, working upon His Majesty by what is indignantly described by one of his opponents as "the bugaboo of reaction."

It is learned that the manifesto was drafted at Tsarskoe-Selo over a fortnight ago, and only a few minor changes being introduced Saturday night. Copies of the manifesto reached the papers, with the date Tsarskoe-Selo uncorrected. It is stated that the Emperor was one of the most vigorous enemies of the Duma. Reactionary circles here are jubilant over the dispersion of the Duma, the Conservative deputies are holding an all-night fete at the Conservative club in celebration of the Emperor's decree. Champagne was served to all comers. The Emperor's Decision was hilariously cheered, and ultra-loyal speeches were delivered. Ex-Minister Yermoloff, hitherto consid-

PRISON OFFICERS SNUB GRAND JURY

KINGSTON, Ont., June 19.—One year ago the Grand Jury visited the penitentiary, as was the custom, and subsequently criticized some of the arrangements in the prison. They were, in particular, severe in their condemnation of the practice of distributing food to the men, which seemed like handing it out to so many dogs. For this criticism the threat was made by the officials that the jury might in future be refused admission. This threat was given effect to Thursday in the actual refusal by the authorities to admit them to the industries, the shops, and kitchen, and further refused to answer any questions put to them by the jurors. The matter will be brought to the attention of the Minister of Justice. The course pursued by the prison officials is a novelty in Canada.

BOMBARDMENT OF ODESSA PLANNED

ODESSA, June 17.—It now appears that the mutiny here of the Black Sea fleet, consisting of eight battleships, eight cruisers and a division of torpedo boats, whose crew in all number 5,000 men was discovered just in time to prevent the planned bombardment of Odessa and the Caucasian coast towns, so as to enable the revolutionists and Caucasians to revolt. The fleet came here June 15th for practice and had just entered Odessa Bay when the commanding officer Admiral Tefstinsky on board the flagship Rastislav, seeing that the orders were not promptly obeyed and knowing of the mutinous spirit animating the crew, suddenly signalled an order to dismantle the guns and head back to Sebastopol where after troops had been sent on board the warships, several hundred sailors were disembarked and imprisoned.

WELL POISONING TRACKED DOWN

LONDON, Eng., June 17.—Reports of well poisoning in India by the Government have for a long time been in circulation, and have seriously imperiled the peace of the land. The slanderer has at last been tracked and a Hindu has been imprisoned and a fine of \$150. An accomplice who actually dropped mysterious balls into the wells, alleging that he did so by order of the Government, has been sentenced to eighteen months' rigorous imprisonment. How serious is the effect of such slanders is shown by the fact that a wild state of excitement prevails at Hasan Abdal, a village near Rawal Pindi, in consequence of a statement that there is no such disease as the plague, but that the Government for dastardly reasons, had been despatching emissaries throughout the Panjab, to poison the drinking wells, thereby killing a hundred thousand people weekly. A correspondent of the "Times" points out the amazing readiness of the native mind to believe the most remarkable statements.
