THE VOGUE

MISS MARY MURPHY

Sorrow has been cast over the whole of the last eleven years by the news of the death of Miss Mary Murphy who passed away on November 26th, 1925, in the 64th year of her age.

The deceased was engaged as house-keeper for Rev. Theo. Gallant for the last eleven years; when she was stricken down by the dreadful disease cancer of the stomach, in spite of all that doctors could do she passed peacefully away, fortified by the last rites of the Catholic Church of which she was a devout member.

GLYNDE RIVER and GRANVILLE NOTES.—Mr. James Ernest Cousins, and Miss Gladys MacKenzie returned home from Lloydminter, Sask., a few days ago. Miss Mackenzie was visiting her sister, Mrs. Walter Naylor, of Lloydminter. Mr. Cousins was working at the harvest in Lloydminter, Sask. He reports the crops very good. Although they had a very dry summer in the West the wheat went on an average from 20 bushels to 30 to the acre. The oats went 40 to 50 bushels per acre. Some of the harvesters, however, had very poor luck in the West as in some parts it was very wet. Mr. Cousins only lost one and a half days in three months steady work. The wages being \$3.50 to \$4.50 per day. The weather was getting very cold about the last of November before they left for the east. Some days it was 25 degrees below zero, the weather was very cold but fine. Miss Gladys MacKenzie spent four days in Winnpeg visiting her friends. Mr. Cousins also stopped over in Winnpeg four days visiting his friends.

SALVATION ARMY LEADERS TO VISIT CHARLOTTETOWN.—A great deal of interest has been aroused throughout the city by the announcement that Commissioner and Mrs. Chas. Swytton, leaders of the Salvation Army for Canada, East, Newfoundland and Bermuda, will visit Charlottetown on Saturday and Sunday next. Commissioner and Mrs. Swytton have each spent over forty years in army service and are well qualified to speak of its widespread work, which now embraces eighty countries and colonies. The Commissioners will be assisted in each meeting by Colonel Richard Adby one of the Army's foremost soloists, and Major and Mrs. Burton, Commanders of the New Brunswick division of which P. E. Island forms a part. The visit of these distinguished army leaders will give our citizens an opportunity of learning from those at the top, much about the work and its progress. It is a privilege to have these army leaders in our midst. "I had read in the poems of Rudyard Kipling (whose recent illness every one regrets to see) these lines 'The East is East and the West is West and never the twain shall meet.' I wondered if this were true, would the East ever meet with the West on common ground.

"At the Exposition I met with an intelligent Hindu who spoke English, and put to him the question—'Do you have any relations with the natives of India satisfied with their present Empire relations. He said no they are not satisfied. Well what do they want. He said we admit Great Britain has been of immense benefit to India. For 50 years she has protected us from foreign invasion. She has given us internal peace and a measure of prosperity but this is an age of progress. We want something more, we want the power to control our own affairs. We want responsible government as you have it in Canada. We don't want to part company from England but we want to grow up and develop as you are growing and developing. We want to be a full fledged member of the British Commonwealth of nations. That is our ambition. When we get that we will be satisfied.

"All that seemed to indicate a possibility of the East meeting with the West on common ground. "I had also the pleasure of meeting at the Exposition many Australians. They seemed to outnumber the Canadians. I was a little surprised that they had brought with them not only the English language but the various dialects of the Scotch, the Irish, as distinct as you find them in the Motherland.

"They had also brought with them from the Antipodes their national characteristics. If you wanted to get under the skin—if you wanted to find your way into the heart of the Scot all you had to do was to quote Burns or to recite:

"Oh sing to me the auld Scotch songs in the broad Scottish tongue. The songs me father loved to hear. The songs me mither sung. Or to the heart of the Irishman: The praise of the Shamrock, the beauties of Killarney or a reference to the fact that in Ireland the Celt dominated the Saxon, or to the Englishman, that England bore the same relation to the Dominions as the sun to the solar system—the source of light, heat, vitality and power.

"I put this question to the Australians. Are you satisfied with your Empire relations. They promptly answered yes we are satisfied, we are more than satisfied.

"You see we have a foreign policy of our own, that foreign policy is the result of our environment. In one direction we have 70 million Japanese, in another 300 million of Indians, in another 400 million of Chinese. We are surrounded by hundreds of millions of hungry Asiatics, all clamoring to occupy and exploit our territory. We want to keep them out. We want to preserve Australia as a white man's country. To accomplish that we must have the aid of the British navy. More than that we must have the presence and aid of the British navy in these southern seas. Our policy is to have a British naval base established at Singapore where the larger ships of the British navy can repair without the necessity of a return to their home ports. England in accord with our request is now establishing that naval base. With a part of her fleet located there we will be enabled to enforce our foreign policy viz: to make of Australia a white man's country.

"Now let us change the scene to France. I wanted to see and climb over the top of Vimy Ridge. From the railway station at Vimy you look up to the Ridge. It is about three miles away and extends along the horizon for many miles. The Ridge itself is about 150 feet above the level of the sur-

THE MARKETS

MONTREAL, Que., Dec. 10.—United States buyers were in the Montreal market today for Manitoba wheat and sales of 50,000 bushels of No. 2 northern were made at ten cents per bushel over the Winnipeg December option c.l.f. Bay ports. Exporters here reported some demand from the United Kingdom for wheat in nearby positions and as the prices bid were satisfactory sales of several loads were made, but the trade on oats and barley was quiet.

The trade in cash grain in the domestic market was rather slow, the demand being only for odd cars to meet immediate wants. An earlier feeling developed in Canadian western oats and prices were reduced one cent per bushel, but Ontario and Quebec grades were steady. Prices for spring and winter wheat and sales of flour were well maintained under a steady demand. A fair trade was reported in mill-feed and the undertone was firm. The tone of the market for rolled oats was firm and the trade was steady. The trade in eggs was fair and prices were unchanged. The butter and cheese
