Commerce Chamber Regional Meeting

"The Canadian Chamber of Commerce is very much alive to your activity," stated Mr. R. B. Perrault, Montreal, member of the executive of the Canadian Chamber of Commerce in a short talk to the members of Maritime Regional Committee of the Chamber yesterday morning. Mr. L. W. Simms, St. John presided at the session.

Reports on activities carried out by the Canadian Chamber were given by Mr. D. L. Morell, Executive Secretary, Montreal, Mr. Ralph Hawsthorne, field service representative from Montreal and Mr. Perrault.

The membership report given by Mr. Morell showed that for the first time there were more than 600 members in National Federation, and that two Newfoundland Boards had joined the Canadian Chamber.

A lengthy report on the Economic development program was given by Mr. Perrault.

The foreign affairs report was given by Mr. Morell. He listed the triple spearhead by which these activities are carried out. They are 1. Foreign trade committee of the Canadian Chamber; 2. Canada-United States committee; 3. Anglo-Canadian trade committee.

Mr. Morell also told the meeting that the Chamber was of the opinion that the C.B.C. should not be the arbitrator and operator of the radio business and would submit arguments backing this point to the Royal Commission of Arts, Letters and Sciences. They will also present arguments to the effect that the groups other than the National Film Board should have the right to bid on films let out by the Government.

Mr. Hawsthorne reported on the educational program. He stated that it was their aim to get the principals, teachers, inspectors, and business men together on a common board so that they could iron out difficulties. Six communities across Canada has been chosen for experimental purposes in connection with this purpose.

Other items discussed were the educational program and the annual meeting of the Chamber of Commerce in Montreal Nov. 25, 26 and 27.

Before the meeting adjourned, Mr. A. W. MacKay, Halifax stated that a full time secretary should be employed in the four Maritime Provinces now that Newfoundland has become a province. He asked for more time from field representatives.

Board Considers Quarterly Paper

At a meeting of the directors of the Maritime Board of Trade yesterday, the president, Dr. C.H. Blakeny was authorized to appoint a committee to go into the possibility of publishing a quarterly magazine in the interest of the members.

A tentative committee is presently working with the president on this project comprising Messrs. F.J. Burns, editor and manager of the Kentville Advertiser and past president of the Canadian Weekly Newspaper Association and B. Graham Rogers, Charlottetown.

NORONIC

(Continued from page 1)

before sounding the alarm.

Mr. McQuarrie's questioning brought from O'Neill the admission he had decided to change his evidence Thursday night after talking with C.S.L. counsel.

Capt. Baxter said the Noronic had two special officers whose duties were similar to those of hotel detectives. Their daily reports for Sept. 6-7-8 showed their duties included inspection of decks at night "to see there were no loud parties." They also were to check that passageways were clear, decks free of obstruction, report members of crew found lax in their work and persons found aboard without passenger tickets.

The witness was asked to produce the special officers' reports for each day up to Sept. 16—day before the fire. Capt. Baxter also was asked for company records of the location aboard ship of fire protection appliances. Earlier evidence by Transport Department marine inspectors was that the company had no such records.

Resolutions

Two resolutions from the Associated Boards of Trade of Cape Breton which caused a furore Thursday when they were turned down by the policy committee were passed by the Board yesterday. A third was discarded.

The resolutions were reconsidered at a private conference between the sponsors and the policy committee before yesterday's brief session ended the convention.

One resolution passed was addressed to the Canadian Chamber of Commerce. It stressed the importance of the responsibility, energy and freedom of the individual Canadian citizen and the part these qualities would play in building a greater Canada.

The second urged an attempt to get all boards of trade in the Maritimes to take a more active interest in the Maritime Board and become more closely affiliated with it.

The resolution turned down criticized an alleged lack of courtesy on the part of minor railway officials. During discussion which developed it was felt the instances referred to were isolated cases and could be dealt with locally if the need arose.

The usual resolutions of courtesy to the host Board, the Summerside Board, the press and all others who had co-operated to make the meeting a success, was passed.

Dr. Blakeny, newly elected president, in a short address told the meeting that they must form their plans here so that they could better work with the Chamber of Commerce and Board of Trade. He expressed his desire of seeing a public relations committee appointed and stated that he would try to meet each individual Board of Trade in the Maritimes and try to stimulate an even greater interest.

Transportation Commission Work Warmly Commended

"Whatever concessions have been won, have been won on a hard fought field," declared Dr. C. H. Blakeny, Moncton, newly elected president of the Maritime Board of Trade at the conclusion of the presentation of the annual report of the Board's Transportation Commission.

Commending Chairman D. R. Turnbull, Halifax, and Transportation Manager Rand H. Matheson and staff on a "very excellent job", Dr. Blakeny stressed the necessity of members keeping the individual members of the respective Provincial Governments fully informed on the work of the Commission so that they might realize the necessity of further financial support.

Mr. D.R. Turnbull was re-elected chairman and Mr. L.W. Simms, Saint John, vice-president in place of the late Mr. J. D. McKenna. Messrs. Rand H. Matheson and E. A. Saunders continue as transportation manager and secretary respectively.

Mr. B. Graham Rogers, Charlottetown, was re-elected Prince Edward Island representative on the Transportation Commission.

Presenting a monumental report, Mr. Matheson explained that its purpose was to inform the members fully of the Commission's activities during the year.

The report stressed "the importance and advisability of a uniform, coordinated stand before the Royal Commission on Transportation on behalf of the Maritime Provinces cannot be stressed too strongly. While there might be local transport questions which concern only different sections or regions and justify separate action, the major transportation problems of the Maritimes within Canada, particularly in respect to the rate structure from and to other parts of the Dominion are homogeneal. This fact dictates a united front, not vitiated by divergencies from the general objectives as countenanced by the Royal Commission on Maritime Claims on conditions up to that time and implemented in part by the Maritime Freight Rates Act."

"It has been made clear from the recent decision of the Board of Transport Commissioners in the general freight rate cases and the representations that have been made to the Royal Commission on Transportation," the report adds, "that developments during the next year may have far-reaching effects, not only on the freight rate structure, but also on transportation generally.

"The results of the investigations and studies now in progress can be expected to lay the foundation for a national transportation policy in Canada. Meanwhile, the trend of events requires not only continued vigilance but just as important a united and active promotion of the Maritimes' position."

Mr. Matheson stated that the increase on coal and coke moving would be 6.5 cents per ton within the Maritimes and seven cents per ton on movements to points outside the Maritimes, instead of 8 cents, reflecting the Maritime Freight Rates Act.

Other Activities

Among other activities the report mentioned proposed increases in express rates on fish; special carload minimum on livestock; one zone in P. E. Island; increase in trans-continental freight rates to B. C. coast points; increased elevator charges at Halifax and Saint John; reductions in rates on potatoes from Maine originating points to destination in eastern U. S.; removal of the mountain differential on rates within and from B. C.; reductions in rail rates to Newfoundland; car ferry charges on trucks between Borden and Cape Tormentine; Canso Strait Bridge; excess rates on fruits and vegetables and many others.

CUT OFF FROM SEA

The predominant feature of Asia's geography is the existence of wide areas having no outlet to the sea.

Reports Indicate Excellent Progress In Institute Work

When the Provincial Executive of the Women's Institutes met in the Institute rest room on Thursday the many excellent reports submitted by supervisors and executive members revealed valuable progress. Not only progress, but definitely formulated plans for the future.

Miss Robin submitted plans for Senior sewing courses to being next month. This was exciting news to the many members who were anxious to learn more about home-dressmaking. A comprehensive booklet of instructions has been prepared, giving special attention to selection of color, style and material, cutting, fitting and finishing technique. The course will cover a period of eight classes to be held once each week. Classes will be held both afternoon and evening—the afternoons being devoted mainly to adult clothing, and the evenings to children's garments. Instruction will also be given in making-over the family wardrobe.

Plans for demonstrations on supper-dishes were also submitted. The menus would stress the nutritional value of proper food preparation rather than listing of vitamins or minerals contained. Simple sweets, rather than rich ones, would also be high-lighted.

Miss Robin and Miss Boswell plan to visit as many local Institutes as possible during the season; especially the smaller groups who need help and encouragement. A brief report re Life Membership Pins was given by Miss Boswell.

Mrs. Gates exhibited the scrapbook which she is preparing to be sent to the Women's Institutes of the Netherlands, which received the approval of the meeting.

A letter from F. W. I. C. President, Mrs. E. E. Morton, was read, drawing attention to the increasing prevalence of sex crimes in Canada. She asked that a copy of the enclosed petition be sent to each Institute for signatures, and returned to central office to be forwarded to the Minister of Justice. The petition asked that changes be made in the Criminal Code, so that offenders may be kept under medical supervision until no longer dangerous to society.

Essays and Pen-Pals

Mrs. Herring called attention to the need of more essays entitled "A Country Woman's Day" to come from members of our Province. She also mentioned the "pen-friend" scheme, and asked that a list of P. E. I. pen-pals be submitted to F. W. I. C. Convenor, Mrs. Challand, with regard to United Nations Day, she suggested that all members study the United Nations Charter. As a focal point of information it was suggested that Mrs. A. E. MacMillan submit to us her report on U.N.O.

The business of appointing a delegate to attend the A.C.W.W. Conference to be held in Copenhagen in September 1950 was left for further consideration.

A brief report on the Social Welfare Conference held at Dalvay, was given by Mrs. W. E. MacKinnon. She recommended that the Adoption Act be studied and changes suggested to make it more uniform with that of other provinces. The following were appointed on this study committee: Mrs. W. E. MacKinnon, Mrs. Harold Laird, and Mrs. M. J. Doyle.

The meeting recessed for luncheon at the Charlottetown Hotel. Later, Mr. J. R. MacMillan, Secretary of the Social Welfare Bureau and of the Children's Aid Society, addressed the meeting. He drew attention to deplorable conditions in disorganized homes, and asked that the Women's Institutes act as a committee to inform and advise welfare organizations. He said such organizations were able to do good work, but would accomplish much more by having the advice of sympathetic women who knew conditions in the different localities. He pointed out many instances where we could assist in helping these people to become re-established as good citizens.

The matter of continuation of radio broadcasts was left until next meeting.

The following members were appointed to revise the classes for handicraft exhibits: Miss Robin, Miss Boswell, Mrs. Herring and Mrs. Gates.

Upon motion, meeting adjourned.

PROPOSAL GIVEN

(Continued from page 1)

home, was purchased several years ago by the Government and has been rented by the Australian Government as a legation. Their lease expires Nov. 1.

The Prime Minister and Mrs. St. Laurent now occupy a five-room apartment in downtown Ottawa. The Edwards home is roughly a mile away.

Mr. Howe told the Commons that "if there is no serious opposition, the House will be asked in the 1950 estimates to provide funds for repairs and future maintenance."

Mr. Drew said he felt sure the announcement would meet with the general approval of the House and of Canadians generally. Members knew well that the Prime Minister is called on to receive official visitors week by week and that "he has duties which should be part of the responsibility of the state."

Mr. Coldwell said his followers support the proposal. He wondered, however, if it might not be a better idea to build a new house on the site than to attempt to recondition the old mansion.

Solon Low, Social Credit leader, said he was in favor of the proposal.

He added that consideration should also be given to increasing the salary paid to the Prime Minister. The leader of the Government is "notoriously underpaid," Mr. Low said.

A three-storey structure, the Edwards home, valued at $140,000, lies opposite to the entrance to the Governor-General's home at Rideau Hall and just east of the French Embassy near the banks of the Ottawa River.

LEAPS TO DEATH

HUNTINGTON, W.VA., Sept. 30 —(AP)— A sick postal worker tossed his five-year-old son from the top of Huntington's highest building today, then took the 220-foot death plunge himself. The bodies crashed 14 floors to the sidewalk on the city's main shopping street. The street teemed with office workers on their lunch hour.

District Convention Held At Parkdale

The annual District Convention of Harrington, Spring Park, Brackley Point, South Winsloe, South Milton, Springvale, Parkdale, Central, East and West Royalties, Brackley, North Milton and Highfield was held in Parkdale Hall on September 6th. The President, Mrs. Vernon Burke presided. The minutes of the last annual meeting and executive meeting were read and adopted. Officers elected for the ensuing year were as follows:

President — Mrs. Charles Newport, Springvale; Vice President — Mrs. Vincent White; Secretary — Mrs. Frank Crabbe, Milton; Secretary Sub. — Miss Alice Dollar.

The afternoon program consisted of a series of character readings given by Miss Lena MacLure, which were beautifully presented and thoroughly enjoyed. The first three readings were excerpts from the Works of Shakespeare, John Drinkwater and James Whitcomb Riley depicting women of different emotions and background. The fourth "A Woman of American Revolution" was especially noteworthy because of the part Miss MacLure's grandfather played in the American Revolution and brought more personal memories. Mr. John Martin, Film Board representative, presented two films, one dealing with the Nova Scotia handicraft, and the second a panorama of Island shores. Mr. J.P. McInnis introduced a film on Cancer Control which was most informative and favorably received. This was followed by a demonstration on Handicraft by Miss Eleanor Clapp, Provincial Sanatorium. She had on display many beautiful articles made by patients. It was very pleasant to welcome Miss Robin, supervisor, on her first appearance with our Convention group, and her charming manner endeared her to us all. She gave very helpful hints on planning and redecorating farm homes. She also gave us a very interesting talk on the handicraft exhibit at the Provincial Exhibition where they received nearly 3,000 (three thousand) entries. A sing song led by Central Royalty brought the afternoon meeting to a close. Tea was served by West Royalty Institute.

The evening session opened with "O Canada". Duet — Anna and Carol MacCallum (encored); Solo —Miss Bruce (encored); Solo — Barbara MacKinnon (encored); Duet — Roma and Eleanor Rodd (encored); Piano Solo — Mrs. Allison MacRae (encored); Solo — Raymond Sellick (encored); Solo—Harvey MacKinnon (encored); Duet — Faye and Wayne Proud (encored); Piano Solo — Helen Miller (encored).

In the absence of our guest speaker, Mrs. Allison MacRae and Mrs. Osborne kindly filled in with a sing song and humorous readings.

A very special vote of thanks was extended to all those taking part and to Parkdale for the use of their hall. Collection amounted to $19.00, proceeds for Miss Gallant Trust Fund.

The meeting closed with the National Anthem.

Semi-Finals Reached in 'Shoe Tourney

Semi-finals have been reached in the doubles horseshoe tournament being held at the grounds at Sandy's Restaurant, Marshfield. Four teams are still left in the running and from now on play is fully expected to be even stiffer than has been witnessed in the past.

The tournament has proved to be a most interesting one with the closest of competition being experienced in every match and the remaining competitors only reached their lofty perch by the best of 'shoe tossing.'

The tournament will have to be completed by next Thursday night it was stated by the management last night and on that occasion the banquet and dance marking the close of the season will be held. And this promises to be a really enjoyable affair.

Following are the remaining competitors with their standing:

Raymond McCallum, Cedric Ballem, won thirteen, lost none; Seymour Birt and Herbert McDonald won eight, lost four; Allison and Eric Stewart won seven, lost three; Douglas Strickland, Martin Birt, won seven, lost six.

On the completion of the above tournament the Darts Tournament will get underway and here again, with a large number of competitors expected, more keen competition should be had.

A magnificent silver trophy, standing 20 inches high and surrounded by three silver figures of 'shoe tossers' goes to the winner of the horseshoe tournament while an equally fine trophy has also been put up for the Darts Tournament. Both trophies have been donated by "Sandy" Saunders, proprietor of the restaurant.
