

The Hygienic Method That 8 in 10 Better-Class Women Use

By ELLEN J. BUCKLAND
Registered Nurse

ONE of the commonest obstacles to the average woman's peace-of-mind was the old-time "sanitary pad." Uncertain and unsafe, it has now been supplanted with scientific protection that is absolute.

With the amazing absorbency of 16 times its own weight in moisture, KOTEX, the new way, is 5 times as absorbent as the ordinary cotton pad. It is the only sanitary pad filled with Cellucotton wadding, the world's super-absorbent.

Also, it deodorizes while it acts. Also—it discards easily as tissue. No laundry, no disposal embarrass-

ment. Obtain at any store. 12 in a box.

Note particularly that the package is marked KOTEX. If not, don't accept—it is not genuine Kotex.

KOTEX
No laundry—discard like tissue

FARM FOR SALE

Will sell by private sale my farm of 85 acres, situated at Bonshaw. For particulars apply to MRS. OLIVIA McNEVIN, On the Premises.

EASTERN STEAMSHIP LINES

Plant vs. Animal Life.

Plant life cannot exist more than 600 feet below the sea, but animal life has been found at a depth of four miles.

WANTED

WANTED—Butter and cheese maker to take full charge of all year New Brunswick factory. Must guarantee goods, and sell them for better than average prices. Keep books, etc.

Inclose copies of recommendations and wages wanted, first letter to "Cheese Factory" care, Charlottetown Guardian, Charlottetown, P. E. I.

Canadian Golf Star Wins Again

GARDEN CITY, Sept. 22.—Invaders from Canada and France today pressed forward through the second round of match play toward the women's golfing championship of the United States, while Miss Glenna Collet, of Providence, R. I., one of the strongest of the home-bred hopes met defeat and elimination.

In a "Battle of Ex-champions," Miss Collet was beaten by a margin of 2 up and 1 to play by Mrs. Alexa Stirling Fraser, winner of the title in 1916, 1919 and 1920, as an American but now a member of the Royal Ottawa Club, and of the invading contingent.

The other invaders to come through were Miss Ada MacKenzie, of Toronto, champion of the Dominion and Miss Simone Thion de La Chaume, of France, champion of her own country and of England.

Color-Blind

A peacock is unable to distinguish one color from another. It is said that birds which fly by day see everything a bright reddish orange. Night birds see blue and violet.

RED BULBS, RED BUNTING TO MARK SOVIET FESTIVAL

Moscow Government Spends Much Money And Effort To Make Centenary Celebrations Success.

(By the Associated Press) MOSCOW, Sept. 22.—Neither effort nor money is being spared to make the celebration of the tenth anniversary of the October Revolution an impressive affair. A special "October Commission" has been appointed charged with approval and completion of all preparations.

The centre of the celebration will be Moscow and the Red Square. The high Kremlin walls, facing the big rectangle with the Lenin Mausoleum in its centre and flanked by graves of several prominent Bolsheviks, Russian and foreign, will all be draped in red banners behind which huge electrically lighted numbers "1917-1927" will be placed.

High over the spacious building on the other side of the Square a 200 yard placard will be erected bearing an illuminated inscription: "From ruins to reconstruction." Smaller placards with the usual revolutionary slogans will cover the walls. At the entrance of the building there will be a 50-foot Roman "X".

From end to end of the big square illuminated legends and various diagrams will be contrived on wires high in the air illustrating the growth of Soviet industry and the development of Communist parties all over the world.

Five large balloons, with illuminated inscriptions will float at various corners of an adjacent square, facing the National Theatre. The space between the latter and the nearby Art Theatre will be occupied by red bunting.

Electric factories and textile mills are working hard to produce the necessary amount of red bulbs and red bunting.

ENGLISH GREYHOUND RACING REMARKABLY POPULAR NOW

Many Racing Companies Formed with Enormous Capital to Promote Sport.

LONDON, Sept. 16.—The cables carried a story recently of the purchase of the Wembley Stadium by a syndicate with Major-Gen. J. E. B. Seely as its head, for the purpose of making it a course for greyhound racing, which has had an extraordinary growth in popularity in the last more than a year. On July 24, 1926, the first electric hare coursing track in Great Britain was opened at Manchester. London's first track was opened at the White City on June 20 this year.

Since the beginning of this year 32 greyhound racing companies, with a total nominal capital of £335,400, have been registered in different parts of the country.

A complication is introduced by the scheme for greyhound racing at Wembley Stadium. Sir Wm. Gentle, chairman of the Greyhound Racing Association, in an interview at Liverpool, pointed out that any dog that had once raced on the Greyhound Racing Association tracks and subsequently raced anywhere else would not be allowed to return to the Greyhound Racing Association.

It is the intention of the Wembley syndicate to bring over dogs from America if the supply in England becomes limited.

The syndicate is known as the Wembley Stadium and Greyhound Race Course, Limited, and it has a capital of £1,035,500. The syndicate has floated a loan publicly in connection with the financing of the deal.

The scheme is to develop the Stadium as the greatest centre in the Kingdom for greyhound racing—four to six meetings a week to be held during the season, and one a week, on Saturdays, in the winter.

Rights have also been secured for international Rugby matches, and the Cup Final will still be played at the Stadium. Athletic meetings, baseball, boxing and tennis are also promised.

A scheme for covering the arena with a glass roof has been suggested and found feasible, but will not be carried out for some months. The roof would be made of sections of glass, operated in summer as shutters and closed in winter to complete a novel heating and ventilating system.

Work on the track for the electric hare will begin in a few days, and it is hoped to start racing in the late autumn. A Dog Derby for a prize of £1,000 and a gold cup will be one of the opening events.

Arrangements are to be made for special trains and excursions to Wembley.

"STRAIGHT" PLAYS ASSUME PLACE IN MUSIC HALLS

Developments on Old Country Stage Suggest That the "Legitimate" is Coming Into Its Own.

(Canadian Press.) LONDON, Sept. 13.—Is the "legitimate" stage-play about to come again fully into its own? The question is provoked by the announcement of a complete change of policy on the part of Moss Empires, one of the biggest syndicates in the music hall world of this country. Messrs. Moss intend to convert many of their music halls into theatres for the presentation of "straight" plays in place of the customary entertainment of revue or general variety.

It is understood this company holds that revue, which created the decline in the popularity of variety shows, has now had its day also, and that the British public are anxious to have a more intellectual bill of fare placed before them. Baldly, of this scheme embraces that plays which "make good" in London shall be passed on for presentation at the transformed music halls in the country, much as they were passed on in the days when the existing music hall system was but in its infancy.

The Moss Syndicate was the pioneer of the modern music hall. It started into business thirty years ago, when there still lingered the old-time house of entertainment, where liquor was served in the auditorium, and where the comedian's jokes were usually limited to references to mothers-in-law, to the joys of a bibulous night-out, or to the embarrassment following the loss of your clothes when sea-bathing.

Roads Convention To Open Tuesday

LIEUTENANT-GOVERNOR OF ONTARIO TO DELIVER ADDRESS OF WELCOME

MONTREAL, Sept. 23.—Hon. W. D. Ross, Lieutenant-Governor of Ontario, will officially open the fourteenth annual convention of the Canadian Good Roads Association at the Clifton Hotel, Niagara Falls, Ont., at 10 a. m. on Tuesday next. In making this announcement here today, Mr. George A. McNamee, secretary-treasurer of the association, stated that a large registration has been recorded at any previous convention seems assured, judging by the requests for hotel reservation, more than five hundred having been already received. In addition to the official address of welcome by the Lieutenant-Governor, there will be addresses by Mayor Stephens, of Niagara Falls, by Hon. G. S. Henry, Minister of Highways for Ontario, in his capacity as president of the association, and by other provincial cabinet ministers who occupy places on the association's directorate.

Representation from every province has been promised, while road experts from the states of New York, Michigan, Ohio and Maine, have also accepted invitations to attend and take part in the programme.

Special plays and cinema scenarios of a true Bolshevik ideological character are being compiled by prominent Soviet authors and playwrights for presentation in the numerous theatres, movies and workers' clubs. Excursions are to be organized for workers and peasants from the country.

Moscow workers, employees and Red troops are to open the celebration with a parade through the city and to the Red Square. Leading artists on motor lorries will enact revolutionary scenes in the streets.

Numerous factories, workers' clubs new buildings, wireless installation and hydraulic stations are to be opened all over the Union.

Booklets and posters of a revolutionary character and postcards with likenesses of Bolshevik leaders are being issued by the state publishers to be sold or distributed free of charge to the population. Hundreds of thousands of brass and silver signs bearing the Soviet emblem, Hammer and Sickle, and the dates 1917 and 1927, are being stamped, and red banners embellished in gold and silver manufactured.

HON. P. C. BLACK.

Keen competition for the convention of 1928 is expected, as invitations are to be extended from St. John, N. B., Regina, Montreal, Toronto, Hamilton and Windsor. Should the Regina invitation be accepted, Saskatchewan will be the eighth of the nine provinces of Canada to be the host to the association in its annual deliberations, as one or more conventions have been held in each of the other provinces with the exception of Prince Edward Island. Montreal, Toronto, and Hamilton have each been chosen twice for previous conventions, but Windsor, Regina and St. John are new aspirants. The scene of the 1924 New Brunswick convention was St. Andrews-by-the-Sea.

A comprehensive programme dealing with all phases of highway planning, financing, construction, maintenance and use has been prepared, with a knowledgeable authority presenting papers embodying their theories and experiences. In order to make the proceedings as interesting as possible to all the delegates, the time allotted to discussion of each address is twice as long as that allowed the speaker who delivers it. Safety on the highways will be one of the subjects which will be given a foremost place, although great interest has been created by the announcement that for the first time in any national convention in Canada the topic of airports will be given consideration.

Business sessions will be held Tuesday morning and afternoon Wednesday morning and afternoon

and Thursday morning. The annual dinner on Wednesday evening, visits to scenic points, inspection of hydroelectric plants and the new Welland canal, a trip over typical examples of Ontario's highway system and other outings combining recreational and educational features will take up the remainder of the three-day gathering.

CHIEF JUSTICE OF QUEBEC WILL TRY MRS. GALLOP

QUEBEC, Sept. 23.—Emily Sprague Gallop, widow of Abraham Gallop, a native of Kingsclear, N. B., who died on the morning of August 6, 1925, will stand her third trial for the murder of her husband at the next term of the criminal assizes here. Sir Francois LeMieux, Chief Justice of the Superior court, will preside. The date on the opening of the assizes has not yet been announced.

Mrs. Gallop has already been tried twice, each time at Roberval, Que. On the first occasion she was found guilty, and sentenced to hang; a new trial was ordered, the jury disagreed.

A change of venue was sought by counsel for the prosecution on the ground that it would be impossible to obtain a jury whose opinions were not already formed in a small place like Roberval.

Emily Sprague Gallop was committed for trial following an examination of the body of Abraham Gallop and the discovery that an autopsy conducted by Dr. Wil-

HON. J. S. HENRY

and Thursday morning. The annual dinner on Wednesday evening, visits to scenic points, inspection of hydroelectric plants and the new Welland canal, a trip over typical examples of Ontario's highway system and other outings combining recreational and educational features will take up the remainder of the three-day gathering.

Preached 22,000 Sermons.

Who holds the world's sermon record? With the exception of John Wesley, no other British clergyman, it is claimed, has preached so many sermons as Canon Hay Aitken, the 86-year-old Vice-Dean of Norwich Cathedral. He has preached 22,000 sermons, which is 5,000 short of Wesley's record.

fred Derome, provincial medicolegal specialist, of traces of strychnine in the viscera.

After a drawing by V. C. Andrews in "Life"

The Little Breadwinner

THIS little chap of twelve, hawking papers in the midst of the city's maelstrom, his clothes in tatters, his eyes eager and shifty, his voice hoarse with shouting—can you see the tragedy of his life? He left school at ten to help earn bread for his mother and brothers.

That was eleven years ago. Daddy had not counted on dying, you see. But he did die—died at the wrong time before his plans had worked out. Are you willing to take a chance like that with your wife and little ones? An Imperial Monthly Income Policy will safeguard them from a danger you dare not ignore.

Yet, Daddy had great hopes for him. Looking down at the wee baby face he had said: 'I'll give the lad a good start in life—a lift on to the first rung of the ladder.'

Just write your name and address on the coupon and mail it to us. Then we'll send you our booklet which tells all about it.

55,000,000 CLEARANCE OF SLUMS IN LONDON

TORONTO, Sept. 22.—A sweeping offensive against London slum areas is to be launched by the London county council, and schemes for rehousing 25,000 people will cost £1,000,000.

Twenty-two areas are to be cleared. The scheme deals with notorious spots in 13 boroughs, and 18,000 tenants will be provided with new flats on the cleared sites.

The new flats will be mostly five-storey buildings, let out in self-contained tenements of two, three or four rooms at 10s 6d to 15s a week, excluding rates. In some cases where displaced tenants cannot afford the L.C.C. rents the flat will be let to a family living near the cleared area and the vacant house taken for the slum dwellers.

Dickens lovers will be interested in the announcement that on the site of the traditional fair of Bill Sikes blocks of flats are to be erected. One will be named Pickwick house, and another Oliver house.

Among the areas to be transformed are 8 1/2 acres in Ware street, Shoreditch; Bakers alley, Poplar; George's road and Brand street, Islington; Watergate street, Deptford; Prusom street, Stepney; and part of Bethnal Green.—London Daily News.

IS SUCCESSOR TO DR. G. C. MACLEAN

SAINT JOHN, Sept. 25.—The appointment of Dr. J. W. MacMillan at present on the staff of the Saint John county hospital, as the successor to the late Dr. G. C. MacLean, traveling tuberculosis diagnostician, and the appointment of a committee, with Dr. J. Clarence Webster of Shediac, as chairman, to inquire into the matters of the establishment of archives for the province and better accommodation for the library of the University of New Brunswick were the main items of business considered at a meeting of the provincial government here yesterday.

The Early Saxon Way. In early Saxon marriages the father of the bride delivered one of her shoes to the bridegroom, who touched her head with it as a symbol of his authority.

Thousands of Homes Now Heated this NEW WAY

McCLARY'S Furnacette has transformed thousands of cold, badly heated Canadian homes into homes of genial warmth and comfort—at 30 to 50 per cent. less cost than was formerly required to heat them by old-fashioned methods.

This remarkable performance is due to a new and revolutionary heating principle. Instead of radiating heat as a stove does, the Furnacette circulates heat. Moist, warm air goes all over the house, filling every corner and crevice. Result—a snug, healthful home that is never too hot or too cold, but always just right.

A Beautiful Cabinet

McClary's Furnacette requires no basement. You place it in your living or dining room as you would a fine piece of furniture. It's all steel, porcelain enameled finish is easy to clean. It creates no dust or soot. It lifts air in through openings at the bottom, heats and moistens it and circulates it evenly into every room.

Clip and mail attached coupon for complete information and Furnacette testimonials.
