

LAW SCHOOL TO CELEBRATE ANNIVERSARY

Many Noted Graduates to Take Part in 50th Anniversary of Dalhousie Law School.

(Canadian Press) HALIFAX, Oct. 29.—Dalhousie Law School, pioneer legal institution in the British Empire, will celebrate its 50th anniversary tomorrow when distinguished graduates from several provinces of Canada attend a dinner presided over by County Court Judge R. H. Murray, K. C.

Outstanding among the speakers will be Hon. Benjamin Russell, former Justice of the Supreme Court of Nova Scotia and last surviving member of the original faculty.

Other speakers will include Premier Angus L. Macdonald of Nova Scotia, a former professor of the school; Premier L. P. D. Tilley of New Brunswick, who graduated with the 1893 class, and Judge Walter Crowe of Sydney, one of three survivors of the second graduating class, 1886.

Two former Deans, Dr. D. A. MacRae of Osprey Hall, Toronto, and John E. Read, legal adviser of the Department of External Affairs, Ottawa, have been invited to attend.

Pioneer Law School Referring to Dalhousie Law School as the pioneer in the British Empire, the present Dean, Sidney Earle Smith, substantiated the claim as follows:

"The founding of the school was an ambitious undertaking; it was a pioneer step not only in Canada but in the British Empire. In the eighties the conception of a university school of law was new; it was then an untried idea. It is true that in the eighteenth century the Vinetum Chair of English Law was established at Oxford with Sir William Blackstone as the first incumbent. Blackstone's contribution to English law was great, but Oxford did not under him establish a school of law.

Long History "There was given in 1883 legal instruction in both of the older universities in England but the idea that the university should undertake to train men for the public profession of the law was even less acceptable in England than in Canada. In the United States, however, the university law school as an institution had a history extending back for nearly three-quarters of a century."

Dalhousie Law School was opened for students on October 30, 1883. Of the first graduating class in 1885, three out of 11 survive: Dr. Charles Morse, Ottawa, editor of the Canadian Bar Review and for many years Registrar of the Exchequer Court of Canada; J. A. Sedgewick of Musquodoboit, N. S., and Judge Bennett of Sackville, N. B.

Rt. Hon. R. B. Bennett is the second Prime Minister of Canada from Dalhousie Law School, the first being the late Sir John S. D. Thompson.

The school has graduated 722 students with the degree of Bachelor of Laws.

Plan Maritime "Petewawa"

(Canadian Press) SAINT JOHN, N. B., Oct. 29.—Establishment of a Maritime "Petewawa" will be included in the Forestry Experimental Station project announced tonight at Ottawa.

Hon. L. P. D. Tilley, Premier and Minister of Lands and Mines, stated that a large portion of the 78-mile tract involved, most of which is situated in the Parish of Maugerville, Sunbury County, will be set aside for use by Maritime artillery units.

An artillery range approximately nine miles in length is to be built, he said, and in the future this will be used during their camping periods by artillery units of New Brunswick, Nova Scotia and Prince Edward Island. These units now go to Petewawa west of Ottawa.

Fifty acres of Stormont gossamer fibre flax and fifty acres of Stormont cirrus fibre flax were grown at Forest, Ont. under the direction of the Dominion Department of Agriculture. The seed from these areas was sold at a premium on the Irish market.

BRITISH POLICE

(Continued from Page 1)

was in this clash that two Moslems were killed. Another disturbance occurred on a principal street this morning when Arabs compelled Jewish shops to close. An Englishman also was forced to close his store. The crowd dispersed, however, after one Jewish shop was smashed up.

LONDON, Oct. 29.—(A.P.)—The view taken in official quarters in London is that the Arab disorders in Palestine cannot be ascribed to increased Jewish immigration arising from the anti-Jewish agitation in Germany.

It was stated that 6,730 Jewish immigrants were admitted to Palestine in 1932, while in the six months, April to September, 1933, 5,500 Jewish immigrants were admitted, and another 5,500 will be absorbed between October and March.

These numbers, it was said, are determined purely by economic conditions in Palestine, immigration into which is watched closely. No Jews are allowed to enter unless it is reasonably certain they will properly be provided for and have occupations awaiting them.

A meeting of the Arab executive body passed a resolution protesting the firing by police at Jaffa Friday and demanding release of Arab prisoners. Appeals were directed to the League of Nations and to Arab rulers.

Meanwhile the British magistrate of the jail at Acre remanded all prisoners for 15 days.

Newspapers Suppressed It was reported that all Arab newspapers in Deir ez Zor had been suppressed. Haifa was quiet, but new outbreaks were feared in view of the late clashes at Jerusalem.

An official statement late tonight said the police fired two shots during the trouble at the Damascus gate.

In the Jaffa gate riot striking, veiled Arab women rallied the fighters. Some Moslems hurled homemade bombs, but they exploded with out doing any damage.

FORESTRY STATION FOR N. B.

(Canadian Press) OTTAWA, Oct. 29.—Establishment of a Forestry Experimental Station, 78 miles square, near Coulter's siding, about 15 miles north-east of Fredericton, N. B., has been agreed upon between the Dominion and New Brunswick.

Announcement of the arrangement under the unemployment relief scheme was made tonight by Hon. W. A. Gordon, Minister of Labor.

The project will be organized to absorb, as and if necessary indicates, some 600 single homeless men in the Province of New Brunswick with a proportionate number from Nova Scotia and Prince Edward Island. Under the agreement, a tract of land, 78 miles square, will be transferred by the Province to the Dominion. The proposal adds another unit to the reforestation programme of the Dominion under the National Defence Department to give useful work to single homeless men upon works for the general advance of Canada. The agreement follows conversations between Premier R. B. Bennett, the Minister of Labor and Hon. L. P. D. Tilley, Provincial Premier.

Text Of Statement

The text of the statement by Mr. Gordon is as follows: "Following a survey by the Government of the needs of the situation in respect to the problem of single homeless men in Canada during this fall and winter, authority was given by Order in Council in June last for the organization by the Department of National Defence of additional projects which, with those now under way and which already provide for the care of over 14,000 men, would make provision for 20,500 additional personnel to be absorbed on the projects in accordance with the needs as they developed, making a total of over 34,500 of this class of needy persons who would thus be provided for across the Dominion."

UNITED STATES TO PURCHASE FOREIGN GOLD

(Canadian Press) OTTAWA, Oct. 29.—Plans of the United States to purchase gold in foreign markets will undoubtedly have its reaction in Canada where a large portion of the world's gold supply is produced. No official comment could be secured on the prospects tonight, however, Hon. E. N. Rhodes, Minister of Finance, said he could not make any "off-hand" statement until he had seen and studied the United States plan.

Gold cannot be exported from Canada, under present legislation, without a license from the Minister of Finance. While that regulation exists, the action of the United States could not have any great effect in Canada except in the matter of price.

"There has been no change in the Canadian regulations," Mr. Rhodes said, "and I would not venture any comment until I know exactly what is proposed in the United States."

(Associated Press) WASHINGTON, Oct. 29.—President Roosevelt arranged today to set up machinery for purchase by the government of gold in foreign markets.

This action was taken at a conference with government financial experts and was expected to result in immediate purchase of gold in other countries.

The announcement was of first importance to Canada, because of her many gold mines and large production.

Second Move This is the second move of a new monetary programme outlined a week ago by the President. Foreign gold purchases will be made through the Reconstruction Finance Corporation.

At the conclusion of the conference, which lasted for almost three hours, the following statement was issued by Stephen Early, a secretary to the President: "At an informal meeting in the White House the following gentlemen conferred with the President: Dean Acheson, Under-Secretary of the Treasury; Eugene Black, Governor of the Federal Reserve Board; Jesse Jones, Chairman of the Reconstruction Finance Corporation; Henry Morgenthau, Jr., Governor of the Farm Credit Administration; George Harrison, Governor of the Federal Reserve Bank of New York; Henry Bruere, of New York; J. E. Crane and Fred Kent, members of the New York Federal Reserve Bank; Professor George Warren and James H. Rogers.

"The subject under discussion was the immediate setting up of machinery under which the Government through the Reconstruction Finance Corporation will be enabled to buy gold in the foreign markets."

Statement "At an informal meeting in the White House the following gentlemen conferred with the President: Dean Acheson, Under-Secretary of the Treasury; Eugene Black, Governor of the Federal Reserve Board; Jesse Jones, Chairman of the Reconstruction Finance Corporation; Henry Morgenthau, Jr., Governor of the Farm Credit Administration; George Harrison, Governor of the Federal Reserve Bank of New York; Henry Bruere, of New York; J. E. Crane and Fred Kent, members of the New York Federal Reserve Bank; Professor George Warren and James H. Rogers.

IN HOSPITAL Injured presumably by being struck by an automobile about 8.15 Saturday evening, Mr. Herbert Connolly, city clerk in the City Hospital, received injuries to his shoulder and some minor abrasions. He is reported to be resting comfortably.

EXPRESSES SATISFACTION

A leading representative of the Laborers' Union expressed great satisfaction with the work accomplished by our provincial and federal representatives in the presentation made at Ottawa on behalf of the unemployed. He also stated that the scale of work starting this week, compared with the wages of other provinces, was most favorably similar work in cases where the rate is from five to ten cents an hour lower.

There are 6,358 fully accredited herds of cattle in Canada. One thousand and ninety-eight other herds are under process of being accredited free from tuberculosis and 237 herds are waiting to be tested. Supervised herds total 15,779.

THE REXALL One Cent Sale will continue until Tuesday night, also special cut prices on patent medicines and toiletries. ROSS DRUG CO.

NOVA SCOTIA (Continued from Page 1)

offshore. Only one of the vessels two boilers was in operation, and she was capable of making only three knots in calm weather. The Lady Laurier towed the lightsail into Halifax Harbor. Before she returns to her position, the 1 1/2 inch chain will be replaced. The 1 1/2 inch chain snapped cleanly as the ship tugged at her moorings.

In Bedford Basin the storm tore the Imperial Oil Company's tanker Talaraitie from her berth and drove her aground. Mooring lines of the 2,361 ton motorvessel parted as she tossed at the dock, and the wind swung her away from the wharf and into shallow water.

Fail to Hold Anchors were dropped overboard, but they failed to hold. The Talaraitie had completed discharging cargo, and the lighted vessel was stranded high on the shore. The tug Coalopolis and Ocean Osprey tried to refloat her today, but efforts were unsuccessful and the tanker remained hard and fast tonight.

Further attempts to refloat her will be made tomorrow. Capt. George Findlay, Maritime Superintendent of the Company, said tonight the ship had escaped with little damage.

Digby On the other side of the coast, Digby, a fishing vessel owned by Sidney Small broke from its berth and was swept out into the Bay of Fundy. Tides carried it back into Petite Passage, and it was brought ashore. In Halifax harbor, the yacht Pinions, owned by Paul Doyle, was torn from its anchorage and sunk. The craft was the racing schooner Bluenose of Lunenburg.

Wires Down Land, roads and communication lines bore the brunt of the storm. Wires went down before the raging gale, and telephone and telegraph service to many centres was disrupted. Tonight, however, work of restoration was well underway.

The storm raged from midnight to dawn, and daylight revealed long stretches of highway throughout the province covered with water that made them impassable. The highway at Half-way River Valley, near Hantsport, was submerged beneath six feet of water when the swollen river overflowed its banks.

The heavy rain flooded the roadbed near Windsor also, and it remained impassable tonight. The Cornwallis River flooded Somerset Road, near Berwick in the Annapolis Valley. Fruitgrowers of the Valley, however, reported only slight damage to the apple crop, nearly a third of which remains unpickerd.

Amherst Small bridges around Amherst were swept away by rising streams, while deep water covered the neighboring marshes. At Windsor, power lines from St. Margaret's Bay went down, but service to Halifax was continued almost immediately over an alternate transmission line.

In many other sections, fallen trees blocked highways and offered a menace to travel. In Halifax alone, scores of shade trees were felled. Windows were shattered and roofing ripped away. Schooners of the Lunenburg fishing fleet escaped undamaged as the storm raced past the south shore, but roadways and scores of cellars in the town were flooded.

Unavailing Protest Sandy was learning to play the bagpipes. One night, while he was strutting about the room, skirling for all he was worth, his wife at length a mild protest. "That's an awful noise yer making," she said. Sandy sat down and took off his boots; then got up and resumed his piping in his stocking feet.

Pigs are particularly liable to suffer from a deficiency of minerals. In proportion to body weight a pig's mineral requirements are perhaps exceeded only by those of a hen.

TUBER EXPORT TRADE BRIGHT

(Canadian Press) FREDERICTON, N. B., Oct. 28.—The New Brunswick potato trade, while not enjoying at this stage of the season as high price as had been hoped, is in a definitely better position this year than in 1932, in regard to both certified seed and table stock. There had already been some shipping to Montreal and Toronto, Cuba and the State of Maine, and with the arrival of winter and the law of supply and demand operations, further improvement is expected to take place.

Shipments Made Growers of the province have already shipped to Cuba three steamersloads of tubers, aggregating some 10,000 barrels and made up largely of table stock, with some seed of the Bliss Triumph variety. Business conditions still being upset in the island republic, maintenance of the export trade with that country will depend on the progress made in recovery in Cuba and further activity along this line is expected by the trade here.

Orders Expected The State of Maine is in the market for New Brunswick seed stock at the present time. Some fifteen carloads made up by growers in the counties of Carleton, York and Restigouche have already gone over the border for planting in the spring. Due to the general shortage this year in the United States the southern states are expected to place orders for New Brunswick seed by January or February.

Certified seed prices range from 50 to 75 cents per barrel higher than a year ago, the quotations from \$1.75 to \$2 this season compared with \$1.25 last year. Ordinary stocks are being sold by the growers at \$1.25 for shipment by car.

Inspection Conducted An inspection of the certified seed belt of the Saint John Valley is now being conducted by C. H. Godwin, of this city, inspector under the Federal Department of Agriculture. Mr. Godwin today made his headquarters at Florenceville in Carleton County and before his return home expected to visit Victoria County. York county fields have been inspected, some of the best plantings in the Keswick Valley turning out this year as many as 175 barrels per acre. In Carleton a yield of about 125 barrels per acre are noted, a vast improvement over last year. Restigouche County will be visited by Mr. Godwin later in the season.

MARRIAGES

RANKIN-MYERS—At Charlottetown on October 27, 1933, by Rev. Ewen MacDougall, Lester Aubrey Rankin, of Mount Herbert to Miss Margaret Ethel Myers, of Hazelbrook.

JAY-WOOD—At Charlottetown, Oct. 25, 1933, by Rev. C. N. Brown, Charles Lard Jay of Charlottetown to Areta Jane Wood of Mt. Herbert.

DEATHS

MINCHIN—At New Perth, Oct. 28, 1933, John Minchin aged 86. Funeral service 1 o'clock Monday, Interment Cardigan Cemetery.

CAMPBELL—Departed this life at Searletown Oct. 29, 1933, Mrs. Letitia Campbell, widow of the late Captain Gelelan Campbell, in the 93rd year of her age. Funeral from the residence of her son-in-law, Hugh MacLean, Thursday, 31st, at 2 o'clock.

MACDONALD—At the Provincial Sanatorium Saturday, Oct. 28, 1933, Mrs. Mary MacDonald aged 64 years. Funeral this Monday afternoon from her late residence Rice Point Service starting at 2 o'clock. Interment Canoe Cove cemetery.

MACNEILL—At 28 Upper Queen Street on Oct. 29, 1933, Mrs. A. A. MacNeill aged 76 years. Funeral from her late residence on Tuesday Oct. 31. Service starting at 2 o'clock funeral leaving at 2.30. Interment New Dominion Cemetery.

UNDERTAKER EMBLAMEL Charlottetown and North Wiltshire Phone 149

RAILWAYMEN

(Continued from Page 1)

25,000 and 30,000 men, had placed in the hands of their leaders power to call a strike.

With the possibility of 65,000 miles of railway tracks being tied up, Premier R. B. Bennett intervened. After hearing both sides of the case he recommended further discussion between the disputants. Behind closed doors representatives of the railroads and the men sought to mediate their differences, but it was only after further conferences with the Prime Minister that an agreement was reached.

GRATIFIED OTTAWA, Oct. 29.—(C. P.)—Prime Minister R. B. Bennett expressed gratification in the announcement Saturday of the settlement of the wage dispute between the Canadian Railways and their employees in the Running Trades. "It is creditable alike to the railways and the men that they have been able to reach an agreement that is mutually satisfactory," Mr. Bennett said.

The agreement affects the engineers, firemen, conductors, trainmen and telegraphers. In the meantime parallel disputes between the railways and their clerks and freight handlers are being dealt with by conciliation boards.

J. B. Ward, General Chairman, explained the agreement ends all matters of difference with the Running Trades and none of the amounts deducted from pay cheques up to November 1 will be returned to the men.

In representing their case the railroad companies contended falling revenues made it impossible to maintain the wage schedules of a few years ago. They argued wages were too high considering lower cost of living and reduced hours of work.

Running Trades leaders, on the other hand, claimed wage standards on Canadian Railroads were not high compared with the United States where they said conditions were similar. There was no assurance, the leaders maintained, wages would be advanced with economic improvement in Canada.

Contrasting views have now been reconciled and both parties expressed themselves pleased at having reached common ground.

Islander Elected Vice-Pres. Canned Fish Association

AMHERST, N. S., Oct. 28.—Hon. Fred Magee of Port Elgin, N. B., was today re-elected chairman of the Maritime Canned Fish Section of the Canadian Manufacturers' Association at Friday's annual meeting of the organizations. W. F. Tidmarsh of Charlottetown was named vice-president for the coming year, with R. H. Williams of Halifax, P. A. Kelley of Shediac, N. B., was appointed a director.

BIG LABOUR

(Continued from Page 1)

ed owing to their bogginess, and they constitute a menace to health as a breeding ground for mosquitoes. Built in clay, however, they will provide yardage for extra tracks or they can be used as building sites. Just recently a small building site in that vicinity was sold for \$800. It is estimated there are upwards of 100 similar sites comprised within the boundaries of the work which is about to be improved, so that in addition to affording a wonderful measure of relief to needy citizens, the work will also prove a profitable investment to the Federal Government.

The greatest point in connection with the work is the fact that it is all pure labor. Practically nothing will be paid out for materials except for stakes for marking the cuttings, and for picks and shovels for the laborers. The entire cost of this particular work will be borne by the Federal Government up to the extent of the \$20,000 grant; but the administration will be in the hands of the Provincial Government.

Preparations for the work will commence tomorrow and on Tuesday morning the project will be in full swing.

Due credit for this work must be given to Hon. Dr. MacMillan, Premier of the Province, Mr. W. Chester S. McLaure, M. P., Hon. J. A. MacDonald, M. P., and Hon. G. Shelton Sharp, who comprised the delegation which secured this and the other grants totalling \$113,650 to be spent in this Province for unemployment relief.

RELIGIOUS SERVICES

THE BAPTIST CHURCH TRINITY UNITED CHURCH

At the morning service, broadcast by station C. H. C. K., the speaker was the Rev. Phillips Jones, Secretary of the Social Service Council of Canada, who gave a thoughtful and interesting address.

The Rev. A. C. Vincent, D. D., at the evening service, speaking on "The Social Leper" delivered one of the most interesting and impressive sermons in his series on "Men whom Christ changed."

The music of the day included "They that trust in the Lord" (Fry), and "We would see Jesus" (Brackett).

The short organ recital from 6.45 to 7 o'clock each Sunday evening by Mrs. Full, has been meeting with an increased interest and appreciation.

St. Dunstan's Basilica Masses at St. Dunstan's Basilica yesterday morning were held at the usual hours.

In the afternoon at 3 o'clock the Procession of the Children's Mission Crusade was held. The singing of the hymns was directed by Rev. Dr. Gillis. An appropriate sermon was preached by Rev. Father Knox, S. J.

In the evening at 7 o'clock the Solemn Closing of the Novena, conducted in preparation for the Feast of Christ, the King, took place. The Basilica was filled to capacity, and all available standing room was occupied. The sermon was preached by Father Knox.

During the service the congregation renewed baptismal vows, and all renewed consecration to the Sacred Heart. Devotions closed with Pontifical Benediction of the Most Blessed Sacrament by His Excellency Bishop O'Sullivan, assisted by Rev. Dr. Gillis as deacon, and Rev. Leonard McDonald as sub-deacon.

HOLY REDEEMER CHURCH

Yesterday at the Church of the Most Holy Redeemer, the feast of Christ the King was celebrated with all pomp and splendor. The main altar was beautifully illuminated, and presented a magnificent spectacle throughout the entire day.

The Masses in the morning were at the usual hours, 7.30, 9.00 and 10.30. Rev. Father Fleming, C.S.S.R. preached very appropriate and forceful sermons at all the Masses.

In the evening at 7 o'clock, an evening service of the Rosary, Vespers were chanted and an eloquent sermon was preached by Rev. Father Connelly, C.S.S.R. This was followed by Benediction of the Most Blessed Sacrament, given by Rev. Father Fleming.

SACRED SONG SERVICE

The Sacred Song Service, which is the fifth of a series conducted by the Student's Christian Movement of Prince of Wales College and the Young Men's Christian Association was held last night in St. Paul's Church, and was attended by a large number of students and young people of the city.

A varied and interesting program was carried out. Mr. Richard Matheson acted as chairman and Mr. Charles Reilly read the Scripture lesson. The address was given by Rev. W. J. Bradford, B. A., Eastern Field Secretary of the General Board of Religious Education of the Church of England. He stressed the importance of Christian ideals in the life of the young people of this generation.

A beautiful selection was rendered during the taking of the offering. The Lord's prayer was then repeated, followed by the general thanksgiving and one or two of the beautiful prayers from the prayer book of the Church of England. The meeting was dismissed with the Benediction which was pronounced by Rev. H. D. Raymond.

A novel feature which added greatly to the effect of the service was the use of lantern slides for the hymns and prayers.

THE SALVATION ARMY

Adj. Stevens and Capt. Hammond were the speakers at the holiness meeting and gave powerful addresses. One young man came to the Mercy Seat.

At the evening service two young men came forward and gave their lives to Christ. One who had come to the city a stranger looking for work, and failing to find it had been given one month in jail. He is now free and has found friends and the best friend of all, Jesus Christ. Adj. Stevens took as his text "We all shall fade as a leaf," and preached a sermon which carried conviction with it. The service closed by singing "Praise God from Whom All Blessings Flow."

Two beautiful baskets of "Mums" adorned the pulpit platform and whilst the storm raged without there was peace and beauty within nor were we unmindful of those who were in danger at sea, as one of the hymns sung was a prayer "for those in peril on the sea."

Rev. Dr. Ramsay preached from the text John 18-38 and 39 "I find in him no fault at all, but ye have a custom." Pilate was a consenting party to the death of Christ by recognizing a custom of the Jews. The customs of men still crucify Christ. If we follow Jesus instead of following Pilate and our age old customs, we will enjoy peace and prosperity, joy and love.

"But however, we may feel, we cannot get rid of Jesus by rejecting Him. Jerusalem did that, and it is He alone of that time who survives."

In the evening Rev. Dr. Phillips Jones the General Secretary of the Social Service Council of Canada occupied the pulpit and preached from the text as found in Matthew 7-16 and 17. "Ye shall know them by their fruits." There was a good congregation with a large representation of young people. Dr. Jones previous to his sermon paid a very gracious compliment to Trinity Church and congregation and his pleasure in again occupying the pulpit. After listening to the announcements for the week he said he did not know of any church which had a better program of activities.

The musical program as usual included an Anthem by the choir and a splendidly rendered solo "The Lord is my Shepherd" by Miss Berna M. Huestis.

The Sacrament of the Lord's Supper will be dispensed next Lord's Day at the morning worship. The preparatory service to be held on Wednesday evening next. The Ministers will be justified in looking forward to a large attendance.

Central Christian Church

The sermon preached yesterday morning at Central Christian Church was a tribute to the Bible and the work of the British and Foreign Bible Society in translating and circulating the Word of God. The Scripture lesson upon which the theme was based is found in the last two sections of the one hundred and nineteenth Psalm. Mr. Quiggin showed in his discourse how meditation upon the Word of God becomes with the years an increasing delight. In these days meditation is almost a lost art. When meditation becomes sweet, it passes into song. The Christian religion is the only religion that is accompanied by songs. It has produced volumes of hymns and sacred songs. Holy Scripture is not only a source of meditation and song; it is a mine of wealth. As the mining of gold involves labor, skill and capital, so to appropriate the wealth of God's Word we must invest time, labor and interest. The Word of God is a light: "Thy Word is a lamp unto my feet and a light unto my path." The Word of God brings peace: "Great peace have those who love Thy law."

A large congregation heard Mr. Quiggin's sermon: "Where are the Dead?" last evening. The speaker disclaimed any prophetic, clairvoyant or occult powers, and he added that he had no knowledge on the subject that is extraordinary, or out of reach of any of his hearers. The speaker chose as his text John 14:2, "In my Father's house there are many mansions." Men of all ages and climes have had longings for immortality. Job asked the question: "If a man die, shall he live again?" One poet speaks of eternal life as "that immortal bourne from which no traveller ever returns." Jesus accused the skeptical Sadducees of not knowing the Scriptures, or the power of God. In the other world there is a great gulf fixed between the evil and the righteous. This present life is the time to fix your future state. There is no miracle in death. A man is the same in character five minutes after death as he was five minutes before death. The blessed inheritors of the Kingdom from the foundation of the world are those who have lived by the law of Christian kindness. "Inasmuch as ye did it unto one of the least of these my brethren ye did it unto me." Where are the dead? Heaven is where Christ is and to be where Christ is, is to be where sorrow is turned into joy.

The flowers on the rostrum were given by Mrs. Daniel Stewart in memory of her husband, daughter and son.

The choir sang Woodward's "The Splendours of Thy Glory," and "Steadfast and Tenderly."
