Hawks Impress Winnipeg Fans

(Canadian Press)
WINNIPEG, April 3.—En route to Vancouver where they meet the winners of the Saskatoon-Trail series for the Allan Cup, Moncton Hawks, cream of eastern senior amateur hockey loops, rested here tonight. They will proceed to the coast tomorrow.
Hundreds of local enthusiasts turned up at the amphitheatre rink, and came away impressed. A hefty squad, displaying an abundance of speed, combination and tricky stickhandling, they were voted one of the smartest teams to come out of the east.
"Are they as fit as a fiddle and ready for a game tonight," was the verdict of Coach Percy Nicklin after the work-out. Len Burrage, hefty defence man who was kept out of the Maritime playdowns and first Allan Cup round by an injured shoulder, displayed his usual effectiveness, while "Dud" James, who developed a charley horse in the eastern finals, was out for a light skate.
Tonight the Hawks were entertained at a banquet given by local hockey clubs. Five former Winnipeg boys who performed here three years ago with Elmwood Millionaires, are members of the team that will carry the hopes of Eastern Canada into the cup finals at Vancouver.

pair although practically all these works of art were injured by water. A magnificent collection of Japanese pottery, which numbers 2,000 pieces, was saved from destruction and removed for safe keeping and sailing ship models, scattered throughout the house, were nearly all removed before it was too late.
The world of art, which heard of the fire with dismay, was relieved that damage was comparatively light. Sir William's collection is valued at approximately \$2,000,000 and is one of the most important of private galleries in Canada. It includes works by Rembrandt, Rubens, Romney, Velasquez, Honore Daumier and many other world famous artists.

WASHINGTON, April 3.—(A.P.)—Resolutions authorizing a board inquiry into the conduct of Private Banking and a separate investigation of delay in the prosecution of Joseph W. Harriman, New York banker, today neared approval in the Senate.
A technical objection delayed action there until tomorrow on the Fletcher resolution proposing a sweeping grant of power to the Banking Committee to investigate private bankers, including J. P. Morgan and Company. The proposal was bolstered, however, by a favorable report from the Audit Committee.

Nears Approval Of Authorizing Board Of Enquiry

WASHINGTON, April 3.—(A.P.)—Resolutions authorizing a board inquiry into the conduct of Private Banking and a separate investigation of delay in the prosecution of Joseph W. Harriman, New York banker, today neared approval in the Senate.
A technical objection delayed action there until tomorrow on the Fletcher resolution proposing a sweeping grant of power to the Banking Committee to investigate private bankers, including J. P. Morgan and Company. The proposal was bolstered, however, by a favorable report from the Audit Committee.

M. H. L. Will Hold Meeting Soon In Moncton

(Canadian Press)
AMHERST, N. S., April 3.—(C.P.)—Work of the present season will be finished and plans for next year's activities discussed at a meeting of the Maritime Hockey League to be held soon in Moncton. The meeting will take place at the call of President James A. Hanway, K. C., on the return of the Moncton Hawks from their Allan Cup quest.
Representatives from Halifax, Charlottetown and Moncton will attend the meeting, while it is stated here that two more clubs may be asked to send delegates. Names of these clubs have not been made known.

Organize Baseball Club

On March 23, a meeting was held of all the Station End boys interested in baseball. It was decided to organize a team under the name of the East Hawk Club. A big year is being planned by the members of the club.

SAILED

(Continued from Page 1)

velocity. This was determined by sending up a weather balloon which reached an altitude of 33,000 feet, where it recorded a velocity of 60 m.p.h.

When this date had been obtained the fliers left Purnea, which is about 160 miles from Mt. Everest, and went to Lelbalu, seven miles to the north, where their planes were waiting for them, loaded with full equipment necessary for a flight into the thin air two days of feet above the surface of the earth.

Lord Clydesdale and Barker were the first to leave the field, taking off at 1:15 a.m. A minute later McIntyre followed them. A reserve pilot, flying officer R. C. W. Ellison, went along to escort them to the top of the Everest group, flying in a small ship.

Required Three And A Half Hours

The flight over the tallest peak in the world required three and a half hours. Lord Clydesdale's plane was the first to reappear, followed in a few moments by the ship containing McIntyre and the photographer.

In the eyes of natives living in the Himalayas, the armen who flew over Mt. Everest looked down upon the very gods. The great mountains in this section of the world are the objects of prayer and sacrifice, and religious restrictions have prevented scientific examination of rock formation in order that the deities of these great peaks may not be angered and take their vengeance on the people who daily look up at them.

The funds for the Clydesdale expedition were furnished by Lady Houston.

Object of Expedition

"The objects of the expedition," Lord Clydesdale said before leaving England, "are first and foremost to foster and promote British prestige in the world and especially in India.

"Americans have flown over the North Pole and the South Pole, the Pacific Ocean has been crossed by air and the Atlantic has been frequently flown. There is only one original flight really worth while now. That is the flight over Mt. Everest, which alone stands out as the only significant part of the world which has not been flown over.

"The success of this flight will have a great psychological effect in India. It will do much to dispel the fallacy that this country (Britain) is undergoing a phase of degeneration, but rather instill the truth that Britain is ready to pass through a process of regeneration. It will show India that we are still a virile and active race, and can overcome difficulties with energy and vigor, both for ourselves and India."

It was necessary for the two aeroplanes to reach an altitude almost 6,000 feet higher than the mountain itself in order that they might avoid the terrific winds which sweep across the vast plateau of Tibet, and create a strong "down drift" on the other side of Mt. Everest. The men on the expedition hoped their work would turn out to be a valuable contribu-

Leafs Win From Bruins In Overtime

(Canadian Press)
MAPLE LEAF GARDENS, Toronto, April 3.—Toronto Maple Leafs became champions of the National Hockey League here this morning when Ken Doraty, rookie winger of the Toronto team, shot the puck past "Tiny" Thompson, Bruin netminder, after 1 hour and 45 minutes of overtime play on a pass from Andy Blair.
The Leafs left immediately after the game by special train for New York where they meet the Rangers tonight in the first game of the Stanley Cup finals.

GIVES REASON FOR BANNING OF RUTHERFORD

Hon. Alfred Duranleau, Minister of Marine, Explains Action of Commission Re Broadcasting of Speeches.
(Continued from Page 1)

OTTAWA, April 3.—Why the speeches of Judge Rutherford, a United States resident, sponsored by the International Bible Students, were banned from Canadian Radio Stations was explained in the House of Commons by Hon. Alfred Duranleau, Minister of Marine, here today.

Complaints had been received by the Canadian Radio Broadcasting Commission, he said, that Judge Rutherford's speeches were misleading, but no action was taken until the Commission had secured from a Toronto publication quotations of those addresses. On Jan. 1, said the Minister, the Commission instructed radio stations in Canada that the gramophone records on which those speeches were registered must not be broadcast until they had been submitted to the Commission.

These records had been bought by the organization which sponsored Judge Rutherford for 25 stations in this country. The request of the Commission that the records be submitted to it was not complied with. The only response, said Mr. Duranleau, was the distribution of literature attacking the clergy and characterizing Hector Charlesworth, chairman of the Commission, as a "liar, thief and a Judas, fit only to be associated with the clergy," the Minister said.

Due to popular indignation in the United States and to the nature of his speeches, Judge Rutherford had been denied access to the network of radio stations in that country. The banning of Rutherford from the air in Canada had been widely approved throughout this Dominion, said Mr. Duranleau.

OTTAWA, April 3.—Hon. Alfred Duranleau, acting Minister of Fisheries, will make a statement tomorrow in connection with the licensing of trawlers, he informed the House of Commons this afternoon. He had had a statement already prepared, he said, but at the last minute new facts came to light with regard to existing contracts which the trawler companies had to fulfill on account of the Lenten season. This necessitated his postponing its delivery until tomorrow.

(Canadian Press)
OTTAWA, April 3.—Consideration was given in the House of Commons today to a Government bill to divorce from the Civil Service Commission appointments to penitentiary staffs.

The grading of food commodities by the Canadian Government takes the guesswork out of buying.

tion to geographical exploration. In the region are vast tracts of unknown and unsurveyed territory. An attempt is also being made at the present time to scale Mt. Everest by foot. This expedition is headed by Hugh Rutledge, a retired officer of the Indian Civil Service

Trojans Take Junior Title

(Canadian Press)
SAINT JOHN, N. B., April 3.—Winning their first provincial junior basketball title, Saint John Trojans juniors defeated Woodstock Senators 38-20 tonight, and captured the final round by a 79-48 score.
Trojans plan playing the New Waterford, N. S., team here next Monday and Tuesday for the Maritime title, the winner traveling to the home floor of Sherbrooke, Quebec, junior titlists.

Former Mayor Of New York To Marry Soon

CANNES, France, April 3.—(A.P.)—James J. Walker, former Mayor of New York, and Betty Compton, the actress, formerly Mrs. C. S. Riches of Toronto, got complete information at City Hall today about the regulations that must be observed by people who are married under the French law.

"We were just getting the necessary information," Mr. Walker said in reply to a question concerning a rumor that he and Miss Compton already had been married. "When I get married I'll let you know."
At the bureau officials said Mr. Walker notified them several days ago he would be married soon. He asked them to keep the date secret, they added, and so they were saying nothing about it.

Experiment Is Successful

(Associated Press)
SAVANNAH, Ga., April 3.—(A.P.)—Dr. Charles H. Herty's dream has come to pass—they have printed a newspaper on paper made of Georgia pine pulp.
The Soperton (Ga.) News claims the distinction of being first to issue an edition with the newspaper produced by the Georgia Paper Laboratory in Savannah where Dr. Herty, noted United States scientist, has been making experiments for months.
Printers said the paper "took the ink" as well as other newsprint and some said "it showed up a little better." The pulp was made from slash pine trees only seven years old.
Leading newsprint manufacturers of Canada and the United States are to come here next month to inspect the plant. The United States is an important market for Canada's large newsprint production.

Burned Vessel Is Sighted Near Albemarle Sound

(Associated Press)
NORFOLK, Va., April 3.—An abandoned vessel, which had been gutted by fire and with only her bow left protruding out of the water was observed about 15 miles east of Albemarle Sound this afternoon by the steamship Bald Hill.
No life was visible on or near the derelict and her name could not be seen, according to a message from the master of the Bald Hill to coast guard headquarters here.
The burned vessel was about 110 feet in length and, aside from a bit of her bow showing above the water, had been burned to the water's edge. The Bald Hill message said a small fishing vessel was seen in the vicinity and it was believed this boat had removed the crew from the burned vessel, but nothing definite was available immediately.

No Report On Canal Scheme

(Canadian Press)
OTTAWA, April 3.—The report of the commission which was appointed in 1929 to investigate the possibilities of a canal joining the Gulf of Chignecto with the Bay of Fundy has not yet been received, Hon. R. J. Manion, Minister of Railways, told the House of Commons today. The Minister was answering a question by A. E. MacLean (Lib., France).

MONTREAL, April 3.—(C.P.)—Gross earnings of the Canadian Pacific Railway for the ten days ended March 31 totalled \$2,802,000 as compared with \$3,322,000 in the corresponding period of 1932, a decrease of \$520,000.

PATRICIAS MEET REDMEN FOR TITLE

The Eve Of The Memorial Cup Finals Finds Teams Silent As To Prospects. Both Teams Have Casualties.
(Canadian Press)
TORONTO, April 3.—Regina Patricias, carrying on a great hockey tradition and Newmarket Redmen, who became famous almost overnight as they ground out victory over victory in a sensational conquest of the East this spring, were strangely silent tonight on the eve of the Memorial Cup finals.

The teams meet here tomorrow night in the first game for the junior championship of Canada. The second game is Thursday night and the third, if necessary, will be held on Saturday.
Big Bill Hancock, with thoughts of the injuries that have crippled his Redmen, hoped his band would be "as ready as possible" for the first game.

Lean Al Ritchie, who jumped into the midst of a sen of Newmarket praise singers this morning with his Pats, champions of the West apparently thought Toronto must have good reason for their views commenting briefly:
"We are in good shape, though we had a pretty tough time getting this far. The boys are confident they will give Newmarket a real battle."

Pats, conquerors of Calgary Jimmies and Brandon Native Sons on their way to the western championship, worked out a few hours after their arrival here from Winnipeg. And they promptly suffered a casualty, giant Moose Stinson, defence star, receiving a cut over the eye during a skirmish. Several stitches were required to close the wound, but the Moose will team with Curly Kerr just the same in the first battle of the series.

Fans who watched Regina practice were impressed with the puck-stopping ability of Jimmy Franks in goal and the speed and all-round centre-ice excellence of Alex Motter.
Officials of the Newmarket Club were uncertain whether Preston, second-string winger would be fit to play, but they were sure Horie Peterson, centre, would not be in action.

Sports Writers Select Yankees As 1933 Winners

(By Alan Gould, Associated Press Sports Writer)
NEW YORK, April 3.—The seventh annual Associated Press "pennant poll," with a batting average of 500 to its credit since 1927, points today to the New York Yankees and Pittsburgh Pirates as the probable winners of the 1933 major league baseball races.

With the opening of the season barely a week off, four score experts vote the world champion Yankees a wide margin over all rivals, although noting especially the improvement of such clubs as the Washington Senators and Chicago White Sox. The same critics, however, figure the Pirates have added sufficient strength to overthrow the Chicago Cubs, particularly since the league champions lost Kiki Cuyler.
Exactly 60 out of the 69 American League ballots favor the Yankees to repeat and thereby claim their eighth pennant since 1921. An even dozen name the Senators to spring an upset, at the worst, take second place away from the Athletics. Six others still like the chances of the A's despite the loss of Al Simmons from the Philadelphia firing line but this represents a distinct falling off in support of the Mackmen.

HOLY NAME CLUB

Last night on the Holy Name Alloys Davis and Frasers defeated Tabor's Plumbers by a majority of 276 pins. W. Collins rolled high triple of 267 also high three, 607.

Balloon Gondola Is Landed At Saint John

(Canadian Press)
SAINT JOHN, N. B., April 3.—The big metal ball in which Professor Auguste Piccard explored the stratosphere last fall was landed here tonight from the steamer Beaverford. In contrast with the crowd that watched the famous balloon gondola loaded at Antwerp less than two weeks ago, only a handful of tired longshoremen and a few other spectators witnessed the unloading. Professor Piccard had no representatives here to superintend the operation.

Every precaution was taken to guard against damage to the 1800-pound globe, on the condition of which the Belgium scientist's life may depend if he makes a projected ascension over Chicago, where the Gondola is to be an attraction at the forthcoming World Fair. The aluminum ball, which has eight thick glass windows and can be hermetically sealed, was in a specially constructed case. It will be shipped to Chicago, via Montreal on a flat car.

Never manure ground for evergreens, and never place manure around the roots when planting.

CUSTOM CLOTHES THAT SATISFY

A Tip Top suit or top coat is a constant source of satisfaction in regard to both quality and price.

Hand cut to your own personal measurements, every garment is an achievement of expert craftsmanship. The finest of woollens—a superb fit—with faultless finish and latest styles.

These are a few good reasons Tip Top Clothes are so popular—Another very good reason is the price

Grand Carnival At Cornwall

Carnival at Cornwall on Saturday night not only provided one of the most successful financial evenings of the season, but also a riot of beautiful colors and a variety of costumes particularly pleasing and intensely attractive to a large gallery of visitors. It would be useless to attempt to picture in full the characters which were so faithfully represented, other than to state they ranged in variety from the ultra modern vivacious and daring "flapper," the "Jig Saw" Girl and "Depression" on to "Grandma and Grandpa," down through successive ages to Antiquity, and portrayed many different races and species thus giving a fine opportunity for the study of styles and costumes of "other days" and "other lands." A very fine measure of art, originality and humor was in evidence and in passing special mention must be made regarding the juniors, who added very greatly to the spirit of Carnival, by the attractiveness of their costumes.

The judges, Mrs. Hazen Howard, and Messrs. W. R. Shaw and Clarence Murchison disposed of a very difficult task with entire satisfaction. The committee in charge, Elmer Frizzell and Jack Scott, are deserving of great praise for the success of the evening.

The following is a list of the prizes:
Gentleman's Costume:—1st Bill Ross, Cornwall, "The Army, the Navy and the Air Force"; 2nd, Theo Ling, Cornwall, "A French Count."
Ladies' Costume:—1st, Mrs. Andrew McEachern, York Pt., "Hawthorn"; 2nd, Miss Marjorie Lowther, Cornwall, "A Nurse."
Costume Showing Greatest Originality:—1st, Gordon Roberts, Highfield, "First Prize"; 2nd, Winnifred Best, Clyde River, "Jig Saw Puzzle."
Most Humorous Costume:—1st Lillian Newson and Alma Newson, Kingston, "Grandma and Grandpa"; 2nd, Stuart Drake and Freddie Scott, Meadow Bank, Two Tramps, "Depression and High Taxes."
Best Costume on Ice:—Jack Stockman, Highfield, "Robin Hood."
Best Children's Costume:—1st Eileen Shaw, Cornwall, "Hungarian Gypsy Girl"; 2nd, Grace Crosby, Cornwall, "Hawaiian Girl."
Special mention—Lillian Scott, Hilda Crosby, Buddy Shaw, Hector Scott and Lloyd Scott.

The ox-eye daisy is the most serious impurity in timothy seed.

Practically any wild grass will serve, in one stage or another, as food for stock.

PENNIES
Here's a way to make pennies count! Thousands of thrifty men have discovered that the "BLUE BLADE" gives more perfect shaves per penny than other blades. We state this positive fact and invite your personal proof. Try the "BLUE BLADE" and see if we are not right.
The "BLUE BLADE" is made in addition to the regular Gillette Blade sold in the green package.
