## LEAKING ROOFS

I am unloading now, a car of United Builders Liquid Asbestos Roof Coating Cement and Asbestos Plastic Cement in Cans, Pails and Barrels. Would suggest you book your requirements now for Spring delivery and avoid being disappointed later.

I cannot get any guarantee from the factory of another car, when the warm weather comes there will be a shortage of supply again.

I expect to have men available to do city jobs the same as last year.

Write or Phone for your U. B. Roof coating circular, you will get it by return mail.

J. J. STEWART

### VICTORIAN FIGURE

The Dowager Marchioness of Zetland, who died recently at her home in North Yorkshire, England, was 20 when she married the late Marquess 72 years ago. She was Lady Lilian Lumley, daughter of the ninth Earl of Scarborough. Few, are left whose lives stretch so far back into Queen Victoria's reign. Lady Zetland was a lady-in-waiting to the queen, and when her husband was Lord Lieutenant of Ireland in 1889-92 she was a most attractive and popular vicereine. Widowed in 1929, she kept up to the end of her life a lively and most sympathetic interest in the welfare of the people on the Zetland estates.

### NAMES OF SHIPS

Names of men and women celebrated in English literature are now being given to new ships of Britain's expanding merchant fleet. Authors honoured in this fashion include Barrie, Conrad, Chaucer, Scott, Tennyson—and one authoress, Austen. Names of characters from well-known works have also been drawn upon generously, says "Britain." Among these are Miranda, Portia, Rosalind, Brutus, Capulet, and Falstaff, of Shakespearian fame; and Copperfield, Dorrit, Chuzzlewit, Peggotty and Pickwick, from the novels of Dickens. The Arthurian legends have proven another rich source. Knights whose names have been used are Galahad, Garetah, Launcelot and Mordred. Feminine names derived from the same source are Elaine, Guinevere and Isoult.

### WOMEN USE UP SHOES FASTER THAN SOLDIERS

Of all the footwear sold in Canada in wartime, women used 47 per cent. and men 31 per cent. In the children's section, boys scuffed out only 4 per cent. of the total output, against 12 per cent. used up by girls. (The remaining 6 per cent. were specialties that have no part in the comparison.)

In 1942, the most recent year for which there are complete figures, about 33,000,000 pairs of shoes were distributed in Canada. All the soldiers and all the men civilians together used about two pairs to a woman's three pairs. Boys used about one pair to their sisters' three pairs.

Are men and boys more addicted to old shoes? Are they more cowardly than the gentler sex about breaking in new ones? Is it merely an outgrowth of the tradition which begins in childhood, when girl children use up (by actual statistics) three pairs to a boy's one pair? And how many boys still go barefoot in summer

A combination of all these factors may be the answer to the riddle.

### BAN HORROR FILMS

SYDNEY, Australia — (CP) — Under legislation prepared in New South Wales children will not be allowed to see horror films and others which may be censored as unsuitable' A research bureau is to be established to record effect of films on children

# BANKING IS ADAPTABLE

## ...it changes constantly to meet this country's changing needs

**FOR INSTANCE...**

Ever wonder where your ration coupons go? The answer is that your grocer takes your sugar, butter and other coupons to his bank, which acts as the government's agent in identifying and accounting for millions of spent coupons. This vast bookkeeping job—known as "Ration Coupon Banking"—is just one of the new, additional assignments which the banks have assumed as part of their wartime service.

Another is the payment, on behalf of the government, of certain subsidies arising out of wartime price control. Still another is the handling of exchange transactions as agents of the Foreign Exchange Control Board.

At the same time the banks have arranged facilities to serve military establishments and new war-industry centres alike.

Through loans to industry and agriculture, they have helped to increase the supply of raw materials, weapons and food.

They have acted as issuing agents for approximately $5,700,000,000 worth of Victory Bonds and War Savings Certificates, as well as lending direct financial aid to the government through short-term loans.

...All this in the face of widespread staff changes resulting from enlistments of 8,360 trained bank employees.

**The war emergency has proved the readiness and ability of Canada's banks to adapt their services to new conditions. It has proved, once again, the strength of your banking system, which is providing a firm base of financial service for the greatest economic effort in the nation's history, and will with equal resourcefulness meet the challenge of the years ahead.**
