LARGE CLEAN ASH-PAN.

"In most furnaces the ash-pan is considered a minor detail—in the "Sunshine" it is given as much care as the most important feature.

And the ash-pit is constructed so that all the ashes must fall into the ash-pan which is large and roomy—no scraping, shovelling and sweeping up ashes in taking care of this heater.

In no other furnaces are the unseen, but really important little features given so much thought and care.

"Sunshine" furnaces make house-warming easy, cheap and sure.

Burns Coal, Coke or Wood. Booklet Free.

Sold by all enterprising dealers.

### RECORD TIME BY RELIANCE

Shows Her Superiority to Constitution.

She Went Over the Cup's Course in Three Hours Four Minutes and Twenty Seven Seconds. Sir Thomas Lipton Watches.

Newport, R. I., July 1.—The three America Cup yachts raced again today over a thirty mile windward and leeward course and once more the Reliance demonstrated her superiority over the Constitution and the Columbia. The 1903 boat defeated the Constitution by 5 minutes and 30 seconds and the Columbia by 5 minutes and 49 seconds. The latter was beaten 19 seconds by Mr. Belmont's craft but is an easy winner over her on time allowance. The time of 3 hours 4 minutes, 27 seconds made by the Reliance better the new cup course record of 3 hours, 9 minutes, and 53 seconds, made on Monday by the new boat. The Constitution today came within four seconds of the time made Monday by the new boat and the old defender was but 18 seconds behind it. Not only was the boat to windward made in remarkably fast time by all the contestants, but on the run home with spinnakers and ball-owners pulling like mad the three sloops fairly flew. The Reliance again exceeded the Constitution at this kind covering the 15 miles in 1 hour 45 minutes and 4 seconds, better most steamboats can make. The situation outcan the Columbia very little. Sir Thomas Lipton watched the race from the Erin.

## E. F. PURDY,

Kent Street, Charlottetown.

St. Martin, Que., May 16, 1895. CC. RICHARDS & CO. Gentlemen,—Last November my child struck a nail in his knee causing inflammation so severe that I was advised to take him to Montreal and have the limb amputated to save his life.

A neighbor advised us to try MINARD'S LINIMENT, which we did, and within three days my child was all right, and I feel so grateful that I send you this testimonial, that my experience may be of benefit to others.

### THE BEST YET!

This wheel has held the pivot position in Bicycledom for many years, it's still the only thing. For it's a wheel that is made from the very finest of material by skilled workmen. It has kept step with the march of improvements and with the last it has accented its triumph. This last step, the Hygienic.

### CUSHION FRAME

An invention that makes all roads smooth roads, that is to wheeling what the "Pullman" is to railroading, that does away with every bit of vibration, and saves the tires and the whole machine generally.

## "CLEVELAND"

Bicycles have this frame, don't accept any substitute, for this is the only proved solution of the good road problem.

Remember that a bicycle is the only practical vehicle for exercise we have to-day, and it affords economical transportation in the city, while in the country replaces a tired horse and puts your neighbor at the turn of a pleasant spin.
