**SHEEP BREEDERS.**—A meeting of all interested in the breeding of sheep is to be held in the Agricultural hall on Wednesday, July 8th. At the last session of the Legislature the Sheep Breeders' Association was incorporated and provision was made for the insurance of sheep. Already quite a number of farmers have taken advantage of this opportunity, and part of the business of this meeting will be to determine what should be done with any funds that may accumulate and not be required to pay for sheep killed by dogs. As in the shortage of sheep is becoming greater throughout the world Canada as well as United States is feeling this shortage in the way of increased prices for mutton and lan. Even wool has advanced rapidly in price within the last few years, and the breeding of sheep is now more profitable than it was in the past. For this reason every farmer who possibly can should make a special effort to be present.
