

Foster's Laxative Cold Cure

Here is something that will cure your cold in a day and a night. Our laxative cold cure works on a new principle—drives the cold out of the system—doesn't merely smother it temporarily to have it reappear a day or so later.

ROME, March 3.—Italy is using all her influence with the Balkan states to induce them to observe moderation in their demands on Turkey, and thus bring about a settlement at an early date. Italian officials have pointed out to the Balkan administrations that such an attitude would strengthen the sympathy of Europe towards their cause.

The appointment of General Boyovitch, one of the Serbian delegates to London conference, as commander of the forces besieging Scutari, is consistent with an indication of the firm determination of the Serbians and Montenegrins to take Scutari at any cost. Boyovitch is one of the most daring of the Serbian commanders. It was the force under him which captured Monastir at the point of the bayonet.

LONDON, March 5.—A Belgrade despatch to the Daily Mail says that peace terms with Turkey and Allies have already been secretly settled and a formal announcement is coming on Thursday. Other reports are directly contrary to this.

COTTON OIL, USED IN BREAD, CAUSED SMALL EPIDEMIC. ATLANTIC CITY, March 3.—When William Grossmuller, a banker, was notified today that one of his patrons had become violently ill from eating bread delivered early this morning, he started an investigation and learned that the cottonseed used in making 200 loaves of bread and 1,000 pieces, was contaminated. He immediately dispatched his drivers over their routes to recover the goods. On reports of the drivers thirty of the baker's patrons were found to require the services of physicians. Tonight it was reported that all of those affected would recover. Upon investigation Grossmuller learned that the cotton oil, used instead of butter and lard, had been shipped here in barrels previously used for storing kerosene.

A FIREMAN'S PERIL How Zam-Buk Delivered Him At 215 Fraser Ave., Edmonton, Alta., lives W. P. Mahy, a former member of the local fire brigade, who has wonderful cause to be thankful for the curative powers of Zam-Buk. He says: "A serious skin disease broke out on my face, and spread until I was in a terrible state. The spots and little ulcers were frightfully irritating, and when scratched or rubbed they bled, and smarted, shaving caused me agony, and sometimes I would have to go two weeks without a shave. I tried home-made remedies, herb salves, and various other preparations, but the sores got no better. When Zam-Buk was mentioned I had little faith that it would be able to do me any good. My case seemed such an obstinate one. I gave it a fair trial, however, and the first box made such a wonderful change for the better that it gave me encouragement to continue. I did so, and to cut a long story short, Zam-Buk, in the end, quite cured me. My face is now clear of all traces of the terrible disease, which troubled me for so long."

Thousands of sufferers from eczema, blood poisons, chronic sores, piles, ringworm, cold sores, cuts, burns and skin injuries, have been relieved and cured, as was Mr. Mahy by Zam-Buk. As a balm for all skin injuries and diseases it is without equal. All druggists and stores at 50c box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful substitutes.

PETER PAIRD.—Death entered the residence of John and Mrs. Hebert, at Government Terrace, Dorchester, N. S., on Wednesday morning at 3 o'clock, and claimed for his victim Peter Paired, the beloved brother of Mrs. Hebert, says a Sackville exchange. Deceased was a native of Fort Augustus, P. E. I., and was spending the winter months with his sister. He has been in uncertain health for many months, the cause of his indisposition being Bright's disease. He was 28 years old, and a devout adherent of the Roman Catholic Church. The funeral took place Friday morning at nine o'clock.

Persons suffering from serious chronic disorders of the kidneys such as bright's disease, diabetes, etc., should use Rexall Kidney Pills for they make the one right remedy that is equally efficient in all cases. EJECTED ALL WOMEN FROM HIS MEETING. LONDON, March 3.—After several suffragettes had been ejected to-night from a meeting at Battersea at which John Burns, president of the local government board, was speaking, he requested all the women to leave the hall. Mr. Burns announced several days ago that he would present a campaign in behalf of the progressive candidates for the London county council he was going to do his best to break down what "tyranny of organized backwardness."

He explained tonight that in the present state of the hostile feeling against militant disturbers of meetings they were apt to get badly hurt, and he did not propose to allow extremists to play their game at the possible cost of life and limb. Therefore to prevent anything serious happening it was best for all the women to retire. After they had done so, Mr. Burns finished his speech without interruption, except on the part of one male suffragist who was removed from the building.

SWEARS THAW STILL UNFIT FOR RELEASE FROM CONFINEMENT ALBANY, N. Y., Mar. 3.—Harry K. Thaw, slayer of Stanford White, is still of unsound mind and his release from the Massachusetts State hospital for the criminal insane, would be dangerous to the public peace and safety, according to a sworn affidavit made to-day to Attorney-General Carmody by Dr. Roy L. Leak, acting superintendent of the hospital.

The affidavit will be used as the state's return to the writ of habeas corpus obtained last Saturday.

CONGRATULATE NEW PRESIDENT. LONDON, March 4.—The London morning papers congratulate the United States on the new president. The Morning Post, discussing at considerable length the problems facing America, says: "Woodrow Wilson comes to the presidency when the old days are over and a new era is approaching. Few American presidents have entered office so well equipped; few have faced so many difficulties."

The Daily Graphic says: "Woodrow Wilson has impressed the Anglo-Saxon race of both new and old worlds with his sterling honesty. That is the quality above all others which democracies need and Americans must be congratulated upon having found such a man for chief magistrate."

The Chronicle says that Mr. Wilson represents the "new spirit" visible in more than one country, but nowhere so clearly as in America. "The progressive world looks for much from him," the paper adds.

PARDON FOR CANADIAN WHOSE NAME IS NOT KNOWN. WASHINGTON, March 3.—Thomas Ewing Steele, a mysterious Canadian, who returned to Columbus, Ohio, after being ten years a fugitive from the law to receive sentence for blackmail, was granted a full pardon by President Taft today.

Steele, who escaped while awaiting sentence, made a fortune in Canada, in the newspaper business, and high cabinet officials, learning his history, sought a pardon for him from President Taft. The president, it is said, decided that while he was a fugitive from justice he could take no action, but that if Steele, who now bears another name, would return to face his sentence, he would pardon him.

The rich fugitive, now old and blind came back to Ohio, and a few days ago was sentenced to thirteen months in Leavenworth prison. Immediately upon the signing of the court decree the president extended executive clemency and Steele is now at liberty to go back to Canada.

Steele's present name is not disclosed.

YESTERDAY'S FIRE AT KENSINGTON

(Continued from page one) summoned from Summerside, owing to the Kensington engine becoming disabled and the water supply giving out.

The fire started about 8.45 from the flue in J. E. Gamble's store and rapidly spread burning the building to the ground also J. E. Profit's office. For a time things looked blue and it was thought the Bank of Nova Scotia would be destroyed. It was saved by hard and diligent watching and only caught fire at one time. The firemen from Summerside, who came by train, did valiant work and with the hustling citizens of Kensington soon got the fire under control and at time of going to press the danger was apparently over.

LATER

It is learned that J. T. Proffitt's office was in the Gamble building and was situated in the corner where the fire started thus preventing Mr. Proffitt, who was at his home when the alarm was given and who hastened down to his office, no chance to save his valuable papers and documents which were kept therein. Notwithstanding the flames and intense smoke and heat Mr. Proffitt made two valiant attempts to rescue his books which belonged to the Grand Lodge I. O. G. T. and the Kensington Dairy Association but he saved nothing except the following simple home prescription for baldness, and is also unequalled for restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not make the hair greasy, and can be put up by any druggist: Bay Rum, 6 ounces; Lavona de Composee, 2 ounces; Menthol Crystals, one-half dram. If you wish it perfumed, add half to one teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. This preparation is highly recommended by physicians and specialists, and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in hair tonics. Do not apply to the face or where hair is not desired.

CORNWALL ENTERTAINMENT.

McCannel; "Mrs. Rutledge," Mrs. B. C. Webster; "Isabel Carney," Mrs. W. W. Crosby; "Hetty Holcomb," Mrs. G. McMillan; "Alvira Holcomb," Miss McMullan; "Lissy Ann Tucker," Miss B. To Grow Hair On A Bald Head

BY A SPECIALIST.

Thousands of people suffer from baldness and falling hair who, having tried nearly every advertised hair tonic and hair-grower without results, have resigned themselves to baldness and its attendant discomfort. Yet their case is not hopeless; the following simple home prescription has made hair grow after years of baldness, and is also unequalled for restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not make the hair greasy, and can be put up by any druggist: Bay Rum, 6 ounces; Lavona de Composee, 2 ounces; Menthol Crystals, one-half dram. If you wish it perfumed, add half to one teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. This preparation is highly recommended by physicians and specialists, and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in hair tonics. ECONOMICAL WHOLESOME RELIABLE PURE MAGIC BAKING POWDER

The rendition was splendidly carried through and was listened to throughout with breathless interest, and hearty applause. Between the acts pleasing and most enjoyable variety was given by that prince of entertainers, Austin Trainor of Charlottetown who, dressed in the picturesque make-up of a colored gentleman, gave a stump speech which in its happy local hits elicited applause which literally brought down the house. He also gave a number of selections on the flute and trombone in both of which he excels. He was repeatedly encored. Miss Jennie Hood, Charlottetown, delighted the audience with a very pretty ballad, "A foghail little maiden." John Campbell, whose skill in handling the bow is well known, gave some excellent selections on the violin. The hall was packed to the doors, special seats placed in the aisles and many being obliged to stand. Quite a number drove out from Charlottetown and they expressed themselves as delighted with the entertainment in which there was not a dull minute from start to finish. So favorably was the entertainment received that, by request, it will be repeated to-night when Mr. Trainor will again appear with entirely new specialties. The people of Cornwall are to be commended on the excellent example they have set in local entertainment, an example which, if more generally followed, would remove the cause of complaint so frequently and unnecessarily heard about the dullness of country life. The province needs more of such organizations.
