MURRAY HARBOR CIRCUIT—Services April 10th, Harbour at 10.30, Cape Bear at 2.30, White Sands at 6.30. Abney, Wednesday 13th at 7.30.

NOTICE TO ADVERTISERS—Advertisers are reminded that all display advertisements must be in the Guardian Office before noon of the day previous to publication and before 10 a. m. on Saturdays.

MURRAY HARBOR CIRCUIT—reports all subscription, to the Methodist National Campaign fully paid in by April 1st. The total amount was \$1,250 or \$150 over the objective set for the circuit.

ADD TO THE RICHNESS of your cream soups and gravies by using Borden's St. Charles Jersey Milk "with the cream left in" Canada's National Milk. The very best but costs no more.

SUCCESSFUL TEACHER—Miss Clara Murdoch of Charlottetown who took charge of White Sands school about two months ago (her school) has been winning golden opinions for the way she is handling what was not the easiest situation.

FIRST FRESH HERRING—"Rory, Rory, get the dory, there's herrin' in the bay." The herring have arrived and have struck in at Summerside the first of the season being caught in the harbor there yesterday by Mr. Gallant, who landed a nice feed.

SUCCESSFUL FISHERMEN—Messrs Robert Morrison, Charles Mountain and Leo Wood of Holman's Hardware staff Summerside spent last evening on a fishing trip and brought home a fine catch which was passed around to their staff friends for luncheon, and was much appreciated.

HALL IMPROVEMENTS—Murray Harbor Hall has been remodelled inside during the past few weeks. The ceiling has been lowered so as to provide for a room upstairs (the full length of the building). The platform has been raised and extended, the floor raised about three feet at the entrance end of the building. It is now one of the most up-to-date halls in the country. The directors are to be commended for their enterprise.

ENJOYABLE GATHERING—A very enjoyable social function was held at the parsonage, Murray Harbour last Wednesday evening when about thirty (30) young people representing the Teacher Training class, the Tuxis Group and the girls organized S. S. class, gathered at the invitation of the parsonage occupants. There was abundance of good music, an orchestra of no mean ability being brought into communion. This with numerous games etc., and dainty refreshments made up one of those occasions that are all valued among our young people in rural communities.

TEACHERS TRAINING CLASS—The Teachers Training Class of the Murray Harbour Circuit conducted by the pastor Rev. E. S. Weeks completed winter's study a few days ago and several word examination papers sent to them from the Department of Religious Education in connection with the Maritime S. S. Association. During the past four winters, Mr. Weeks has conducted classes in Teachers Training and over forty of the young folks of the circuit, (Methodist, Presbyterian, Baptist and Christian) have received some help in their Sunday School work. It is hoped that the next pastor will continue the good work carried on here for the past 10 years by Mr. Weeks and the two previous pastors, Mr. Brown and Mr. Jewett.

HOLSTEIN'S ASSOCIATION—A meeting for the organization of a provincial Holstein association will be held in the Agricultural Hall on Tuesday, April 12th 1 p. m., rather than on the 13th as formerly advertised.

INTERESTING DEBATE—At the regular weekly debate of the Debating Society of Prince of Wales College on Tuesday last the subject was, "Resolved that Capital Punishment should be Abolished." Those taking part were Prof. Mac Ross, David Matheson, James Fullerton, Conn. Reg. Bell, David Keir and Cambridge Owen. The debate after a very interesting discussion in which excellent points were made by speakers on both sides resulted in a decision in favor of the Cons.

PURCHASED PERCHERONS—It will be of interest to the farmers of this island, especially Cardigan district, to learn that Mr. Allen Shaw of Cardigan and Mr. Grath Bros., of Lorne Valley have purchased the dark grey Percheron stallion, Prince Baron (163827) from Mr. J. F. McLean. It is a perfect type of the Percheron horse which is proven by him winning three first prizes at Illinois Fairs. The farmer, of the district should be congratulated on securing such a sire and no doubt the breeders will show their appreciation.

STOCK NOTES—Mr. David Reid, the veteran horseman of Victoria Cross, has recently moved his stud of horses to his new stables situated on Queen's Road one quarter mile from Montague viz. "The imported Percheron stallion 'Georges' a horse whose stock has always commanded the highest price on the market, also the two year old Percheron stallion 'March' a full brother of Vomeaux, the champion Percheron stallion at Charlottetown 1918-20 also champion draft stallion of King's County 1919-20. Mr. Reid has always proved to have the interests of the horse breeders of King's County at heart and his friends bespeak for him a liberal share of their patronage.

EX-RAILMAN GETS JOB—Mr. Anthony Flynn, retired locomotive engineer of the P. E. I. R., has been appointed to a position on the attendant's staff of Falconwood Hospital. Mr. Flynn served the railway faithfully and well for a number of years and as he is yet a comparatively young man, his friends hope he may long enjoy his new position.

Le Memoriam

In Loving Memory of ALMA GURNEY Died, Jan. 1st, 1921

One less at home—The charmed circle broken—a dear friend missed by day—from its usual place But sacred—cleansed—perfected by grace One more in Heaven. One less on earth—It's pains, its sorrows, and its tolls to share One more the pilgrim's cross to bear One more the crown of the blest to wear At home in Heaven.

In loving memory of James M. McKay Killed in action at Vimy Ridge April 9th, 1917 "Greater love hath no man than this, that a man lay down his life for his friend."

Anti-Tuberculosis Society

(Continued from page two.)

course a great deal of the fault lies in the people themselves. Very often you find that in the home where the mother is smart and clean and out working every day she will usually have a smart child who will take care of the home, but the lazy mother usually has lazy children, and the little they have coming in goes for food for the children. I do think that where you find a home clean and tidy some credit could be given to the Dispensary too. It is like children in school, some are bright and can learn quickly and others cannot and you find the same in the homes.

We have many come to the Dispensary this winter who have never asked for charity before, but have had to come down to it. I really don't think many citizens realize how some do get along. For an instance, we had a call in the winter where a poor man told me the last thing he wanted was charity and he had never had it before. He had a large family and all had been sick. I investigated the case and found it all too true. He had been out of employment all winter. We got a good character of him, but I think there are some who will say they should not be in need.

Another case was of a man who had been laid up with Asthma for several weeks at a time, a good worker, but when he is laid up his wages stop, whereas with a person in better circumstances the salary goes on without worry. Citizens please continue to say they are not deriving. I have been among these people for a good many years now and have a pretty good idea of the deserving and undeserving and the doctors, charitable societies and lady visitors will tell you the same. There are many children in this town who are not able to have a cup of milk all winter. You have a splendid nurse now who is seeing that every child is weighed and examined and I know she is finding many

children under normal weight is it any wonder when you think how many families find it hard to get the daily necessities of life through the winter for their children. I know this winter many pale-faced children ranging from two years to fifteen came to me with notes from their mothers wanting extra help. The churches help, but when a man is out of employment takes a good many dollars to provide for them. Most of the Churches claim they have very few poor, but even for a few families it requires a certain amount to help and especially when sickness comes. Very often a patient will call at the Dispensary to see if we will make up a prescription. The husband, wife or children are sick as the case may be and in conversation I find they are short of nourishment and it is only when you visit among them every day or so that you can see where the daily wants are. Only the other day I was told "as long as you feed families they work." Now you must see reason. I do hope you have more confidence in me than that. Only the other day a case came up to contradict that statement. I was telephoned for two women to work. We had been helping a certain family quite a lot so I thought it would be a good chance to give the two women the work. I called on them they hesitated. The first question asked was: "how much will you give a day." My answer was if you are only going to get one dollar isn't that better than depending on charity. So they went and did their day's work. So you see we have a kind of a work to do with and we try not to encourage laziness, if possible.

I will give you a few cases which we have come in contact with which needed help on account of the lack of employment. One instance, I was called to a home not long ago where several children were sick with measles, one threatened with pneumonia. The man was out of work. There was not much fuel and very little nourishment in the house. It was a pretty cold day. Could you just sit down and say they were not deserving. The church had supplied them with coal and nourishment and we also came and helped out with coal, nourishment and medicines. Picture ourselves with one child sick having plenty to buy all medicines and have a nurse if necessary. In that family I speak of the mother had been trying to go out by the day working, but the children got sick. Also another instance a widow with three children. The day I called she had bought \$3.00 worth of coal and paid five truckloads. She was taking in sewing as her children were too small to leave, but while the children were sick she had very little time for sewing and so the church and Dispensary helped again. Take another case, there is hardly a bottle that you can get under the sun when we can come forward and help it cheers many a home. A woman called at the Dispensary one day not long ago on her way from work. She had had gripe

all the week, but could not stay at home as her husband was out of work. She had several children and she hated to be dependent on the Church or Dispensary, but I persuaded her to go home and we would look after her and supply her with medicines and nourishment. Why I bring these cases up is to show that many are willing to work, but have not the strength. Now going on to the tubercular cases we are glad to be able to say that we have not had as many as other years, but what we want is somewhere to put the patients as we feel that so many families are being infested by a father or mother who is ill. If the children do not get better nourishment and nursing, there will be many that will succumb to the disease. Rent is being raised on the poor, but very little improvement is being made in the houses.

Only the other day I was in a house where there was a delicate baby breathing the air of harness drying by the stove and the smoke from two pipes. It cannot be helped as there is only the one stove going, but how can children in that atmosphere thrive. It is impossible to try to carry out all precautions in a tubercular home for the patient by using the sputum cup. The hard problem is keeping the rest of the family away especially in the winter. It is not altogether the parents fault, but the poor little children suffer by the high cost of living. Several private citizens have supplied milk through the Dispensary. It has been greatly appreciated by the children who have had it; you can see an improvement in them already. The question also has come up that many men out of employment that have been offered work and won't take it as the wage is not high enough, but we have had a great many call at the Dispensary looking for work and through the winter there does not seem to be much for the laboring man.

Now, I just bring out these practicable points to show what our work is and how nearly every case has to be differently dealt with. As I said in former reports, put yourselves in the position of some of these poor that are sick. I am now speaking of the deserving. One woman said to me the other day "I never want to see another winter like this, my husband out of work and the children sick." "What would I have done without the charitable Society of the Church and the Dispensary." This woman has worked out when she could and still found it hard to keep things going. I could bring up numbers of other cases. Only the other day a woman came to the Dispensary and told me ten cents was all they own and the man was out of work and there was a family of small children. I ran up eight places to see if I could get her work for the next day, but no one wanted a woman. Then I gave her an order of groceries. The tears came to her eyes when she thanked us. She was

Industry of the Soil

The resources of this Bank are an essential element in the Dominion's fundamental industry—exploitation of the soil. For 55 years we have been promoting the interests of agriculturists. Today, our co-operation is being welcomed from coast to coast in an endeavor to increase the output of the field.

no beggar I can tell you. There are three classes of poor. First, those willing to work, clean and tidy. Second, those who are lazy and don't want to work. Third, those who are willing but who have not the strength. We come in contact with all three. We feel very grateful to the citizens who generously responded to the late Dr. J. T. Jenkins' Coal Fund, which was doubled this year; and to the Rotary Club who boosted it and also to the citizens for their great help at Christmas time, and for the way they supported the Dispensary through the envelope collection last year. We certainly could not have done the work with out this money and when the envelope collection comes round again we sincerely hope you will make your contributions even larger, so that we shall be able to give more comfort to the poor and sick. In reference to the Coal Fund, we would like to thank the family of the late Dr. J. T. Jenkins who started this year, in his memory and in the paper free of charge, and also to Mr. Herbert Van derstine who collected over \$100 from the railroad employees. Thanks are also ready help to many due to C. Lyons & Co., and A. Pickard & Co. for supplying coal and wood free for the heating of the Dispensary. At Christmas time we had a tree for the children loaded with candy and toys, which we distributed. We also gave out orders of groceries and meat to the mothers. The Cornwall & York Institute have been a great help to the Dispensary in the way of making clothes and quilts. Also in giving us money at different times, and the G. W. V. A. and Caledonia Society have helped in many cases. The Dorcas Society of the Methodist Church and the St. Vincent de Paul Society have done a wonderful work in supplying clothes to their poor this winter and have helped the Dispensary in many ways. We wish to thank the Doctors for their gratuitous work they have done in the past year. It is only those who visit the sick who know how much is done in the poor homes by the Doctors. Thanks are due to the Clergy, Doctors, the Press, the Caledonia Society, Cornwall & York Institute, Y. W. C. A., Church Societies and the officers of this Society for their ready help at any time to many kind friends out of town.

A Start in the Right Direction

The temptation to spend money in your pocket is greater than in a savings account in the bank. That margin of temptation may mark the difference between an opportunity to go into business later on or of working for wages with nothing saved and nothing ahead, at the end of your working years.

Why not open a savings account in The Bank of Nova Scotia today? Your account will be welcomed and you will have made a start in the right direction.

Abbies Won Basket Ball Game Last Night By Very Close Margin

The second basketball game of the City League series attracted a bumper audience to the "Y" gymnasium last evening. The contestants were the Abbeys and the League of the Cross and it was one of the most closely contested contests in the history of local basketball.

The Abbeys won out by the narrow margin of 21 to 20. At the close of the first half the score stood 11 to 8 for the Abbeys.

The League of the Cross in the first part of the second half forced themselves into the lead and maintained it for about ten minutes. The Abbeys by strenuous efforts came up with them and the balance of the game was a see-saw battle for first honors. Only in the last ten seconds did the Abbeys win and this was from a free throw.

Saunders for the Abbeys, was their best scorer making ten free throws on fouls and two on baskets. The L of C's best scoring was done by Sinnott who made 6, Francis who made 5 and McMahon, who made seven points on three throws.

The line up was as follows: Abbeys—Forwards, McMahon and Saunders; centre, Ings; guards Gordon, Dewar and Hooper.

League of the Cross—Forwards McMahon and Sinnott; centre, McDonald; guards, F. Coyle and W. Coyle. Spares, Francis, Ready and Connolly.

Referee—Harry Miller. Timers—A. Joy and T. Corrigan. Score-keeper—G. H. Gorbell. Next game, Tuesday, April 12th in Y. M. C. A.

1/2 Mile Track Win Race Record. This great trotting and sound high class carriage stallion will make the season of 1921 to a limited number of mares at "Tara Hall" Farm, Orwell. JOHN ROONEY, Managing Owner.

Plays all makes of records better

Make Us Prove It!

The leading magazines contain an intensely interesting interview with Mr. Edison, which you should read. He says:

"I am very glad that the records of all the principal talking machine companies can be played on the Edison with the best possible results."

We shall be glad to prove Mr. Edison's statement. Lateral cut (needle machine) records sound better on the new Edison than they do on the talking machines for which they were made. Don't forget we are anxious to prove this to you.

Understand, please, they will not sound like Edison RE-CREATIONS, but they will sound better than you ever heard them sound before.

The NEW EDISON

"THE PHONOGRAPH WITH A SOUL"

Would you like to know Mr. Edison's favorite tunes? Ask us for a copy of "What Edison Likes in Music." Would you be interested in the favorite music of other great American men and women? We are running a straw ballot to determine the men and women in whose tastes the people are most interested. Will you vote? If so we will give you a Portrait Etching of Thomas A. Edison drawn by Franklin Booth, the celebrated American artist, who has also made famous etchings of Lincoln and Roosevelt. Size 12 1/2 x 19. Suited to framing.

A. E. Toombs 167 Queen Street, Charlottetown
