LOBSTER FISHING EXPERIMENTS.—Dr. A. P. Knight, chairman of the Biological Board of Canada, has completed experiments he has been conducting on the south coast of Prince County with a view to ascertaining the advisability of beginning the lobster fishing on the first rather than the 15th of August. The experiments were conducted from Victoria harbor on the east to West Point on the west and necessitated fishing at Victoria, Borden, Summerside, Cape Egmont, Higgins' Wharf and West Point. The result of his observations will be laid before the Department of Fisheries as soon as they can be tabulated and studied. The Minister of Fisheries will in due time announce the results, and the decision which he reaches from the facts submitted to him.

NEWS FROM N. B.—In eastern New Brunswick, lobster fishing has been fairly good. Large shipments of live lobsters are made every day (except Sunday) to the Boston markets. These lobsters bring a higher price as they are all "picked". The harvest of hay and grain is abundant. Much marsh hay is not yet gathered. A great deal of the heavy grain was so badly tangled and broken down by rains and winds that the only way to get it was by using the hay mower, and then raking it up like hay. To the east for two miles and west two miles from the village of Port Elgin, there is what you may call a permanent road. Let the members of the Bell road-making government take notice of it if they pass that way! It is no whit the worse for last winter's snow and frost and is at present as good (even better) than the day it was finished. —Rev. P. McLeod, a native of Georgetown, closed his pastorate at Port Elgin last Sunday 10th. He may go to Ontario in the near future.

REV. W. G. READ OF BOSTON DEAD.—The death is announced in Gloucester Mass., of Rev. Walter George Read, rector of St. Margaret's Episcopal Church, Brighton, Father Read was a graduate of Harvard and was fifty-six years of age. He was a member of the Clerical Union for the maintenance of and defence of Catholic Principles and of the Confraternity of the Blessed Sacrament of the Body and Blood of Christ, two national organizations, and of the Massachusetts Catholic Club. Rev. W. G. Read his curate, by the request of Rev. Father Augustus Prime, long rector of St. Margaret's Church made on his death bed, succeeded that priest. Father Prime was formerly the rector of Newcastle Harland (N.B.) and Summerside (P.E.I.) and his church in Boston was largely attended by former residents of England and the maritime provinces. Mr. Hal (Hogarth) Swain, secretary of the Victorian Club of Boston, formerly of the Mission Church, St. John, is an official of St. Margaret's and a former warden of the latter parish is a resident of St. John.

HAMPTON AND VICINITY.—The farmers of Hampton and surrounding districts have about finished harvesting their bountiful crop of grain which was the best for some years.—The Rev. Wm. Orr Mulligan delivered a splendid

of Organists, who have been holding their annual convention in the city, says the Montreal Gazette. Eight works some of them of great difficulty, requiring profound knowledge of the organ and finished with ease and beauty of execution. Old compositions and new figured in the programme and interest was added by the fact that some of the organists played works from their own pen. One of the deans of Canadian organists, Mr. B. P. Poirier, of Notre Dame Church formerly of Charlottetown played an appealing melody of his own composition. Au Pays d'Evangeline. Brief and delightful it proved easily one of the most pleasing numbers of the programme. Another exchange came in on the beauty of "Au Pays d'Evangeline" says that the fact that Mr. Poirier was born in the land of Evangeline explains the special atmosphere in which he deans of Canadian organists.
