Vapo-Cresolene

Established 1879

Whooping Cough, Croup, Bronchitis Cough, Grip, Asthma, Diphtheria

Cresolene is a boon to Asthmatics

Does it not seem more effective to breathe in a remedy to cure disease of the breathing organ than to take the remedy into the stomach?

It cures because the air rendered strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children.

Those of a consumptive tendency find immediate relief from coughs or inflamed conditions of the throat.

If We Could Look at the Heart of a Pale-Faced Person!

Few people ever stop to consider what pallor to the countenance means. In the first place it indicates an absence from the blood of the rich, red, life-giving elements so requisite to health; and in the second place it indicates a weakened heart action. These two things act and re-act. If we could look at the heart of one of these pale-faced people, we would see it flabby, weak and palid. No wonder they are easily tired, get out of breath quickly, have palpitation, are nervous and downhearted. Their muscles are poor, their stomach disordered, and their lives are seldom free from misery.

Let them take Milburn's Heart and Nerve Pills; there is no remedy to equal them for making pale faces rosy, weak hearts and shaky nerves strong, flabby muscles firm, and infusing new hope and ambition into life.

Mr. W. J. Churchill, Lombardy, Ont., writes: "I was troubled for three years with a weak heart and nervousness. I could not sleep and ever so little food would distress me. I also had faint and dizzy spells, and doctored with three doctors but was growing worse. After taking three boxes of Milburn's Heart and Nerve Pills I feel as well as ever I did. They are the best pills on earth."

Price 50 cents per box, or 3 for $1.25 at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

must win upon their merits. The International Dictionary has won a greater distinction upon its merits and is in more general use than any other work of its kind in the English language.

A. H. Sayce, LL.D., D.D., of Oxford University, England, has recently said of it: It is indeed a marvelous work; it is difficult to conceive of a dictionary more exhaustive and complete. Everything is in it—not only what we might expect to find in such a work, but also what few of us would ever have thought of looking for. A supplement to the new edition has brought it fully up to date. I have been looking through the latter with a feeling of astonishment at its completeness, and the amount of labor that has been put into it.
