THE PROPER TREATMENT FOR CATARRH

Is a remedy that reaches all the affected parts. That remedy is Catarrhoxone, which is inhaled along with the air you breathe and permeates the most minute air cells in the lungs, throat, nasal passages and bronchial tubes, cleansing as if by fire. It is the pleasant volatile effect of pure, healing, essential oils, and by virtue of its aniseptic properties, kills the germs that cause the disease, allays any portion or congestion of the mucous membrane, heals raw, sore spots, and never fails to affect a cure. It is clean, convenient and pleasant to use, and contains no injurious ingredients that could harm even the weakest infant. The complete outfit, price \$1.00, is guaranteed to cure, or your money back. Small size, 50c., at druggists or by mail. A trial sent for 10c. by N. C. Polson & Co., Kingston, Canada, or Hartford, Conn., U. S.

ONCE A NEWSPAPER SELLER

Henry H. Rogers, the New York millionaire and copper king, was 50 years ago selling newspapers on the streets of New Bedford, Mass. He then went into a grocery store, getting \$3 a week and board.

YOU CAN MAKE THIS TEST.

You can find out if the kidneys are clogged, deranged and diseased. Have you backache or a weak, lame back? Do you have pain or difficulty in urinating or a too frequent desire to urinate? Are there deposits like brick dust in the urine after it has stood for 24 hours? If you have any of these symptoms not a moment should be lost in obtaining Dr. Chase's Kidney-Liver Pills, the world's greatest kidney cure. One pill a dose, 25 cents a box.

GETTING RID OF TRAMPS.

A Missouri judge has hit upon an effective plan for getting tramps to leave town. He sentences all brought before him to 30 days work on the streets and gives them an hour to get their tools. That half hour sees them well on their way.

DISEASES OF CHILDREN.

Measles, Scarlet Fever and the many exhausting diseases of childhood, frequently leaves the little sufferers in a weakened and debilitated condition of health from which it is difficult to rescue them except by the regular use of Dr. Chase's Nerve Food. This preparation is admirably suited to the requirements of children, and has such an invigorating and restorative influence on the system as to make weak, puny children healthy, plump and active.

GREYHOUNDS NOT PAYING.

It is a well-known fact that not a single one of the "greyhounds" of the Atlantic fleet is paying and the great English companies have abandoned the race for supremacy in speed. This is demonstrated in the Oceanic, of the White Star line, and other great "lines" now building.

KENDRICK'S LINIMENT never disappoints—Beware of cheap imitations at cheap prices.

DON'TS FOR FATHERS

Don't be noisy or rough with the child even in play. It is hard on their nerves when they are tiny and it is apt to make them unpleasantly boisterous when they grow older.
Don't make either a promise or a threat which you do not keep. So be wary of making either.
Don't spoil a child's behalf in goodness and truth by preaching one thing and doing the opposite. Childish eyes are keen and searching, and they do a great deal more thinking than one imagines.

OPPOSED TO TIPPING.

Tom L. Johnson, the noted capitalist and single tax advocate of Cleveland, is a most charitable man, but has a great aversion to professional beggars. He returned recently from a trip abroad and reports that he could not become accustomed to the universal European custom of "tipping."

GOSSIPING NEIGHBORS.

People who talk, and when neighbors get together there is very likely to be something said about Dr. Chase's Ointment, and the surprising cures it is effecting among sufferers with piles and itching skin diseases. It is by word of mouth, from friend to friend, that the fame of this great ointment has grided the globe. It stands to-day as the only actual and guaranteed cure for every form of itching bleeding and protruding piles.

INDICATORS OF APPROACHING ICE.

It may be urged that science would find some way of overcoming the ice difficulty but it should be remembered that science is ever on the rack in this endeavor and the latest outcome of its efforts is the "sea thermometer" for indicating the approach of ships to ice.
