

### Does Your Fur Coat Look Like this ---

A few months have achieved drastic changes in fur fashions. Coats now are flared, they have added inches to their length, smart little capes make them strikingly feminine, collars and cuffs are unusual.

Our initial display of new Fur Coat Modes will give you an opportunity of examining the new silhouettes, and of selecting a style for the remodelling of your last season's coat. And this work can be done at a more moderate price now than later in the busy season.

Maritime Women Want the Best

The women of the Maritime Provinces who bake their own bread, insist on having the best quality of flour the world produces.

This insistence on highest quality is a challenge to the Canadian miller, for it compels him to realize that the flour which would satisfy other places, might easily fail to satisfy here.

No milling company in Canada is better equipped to supply a flour of the above standard than the St. Lawrence Flour Mills Co., Limited, of Montreal, and they do supply it in

### ST. PATRICK'S ROAD WOMEN'S INSTITUTE

The members of St. Patrick's Road Women's Institute met at the home of Mrs. Charles Rogerson, for the May meeting which opened with a song "The Wreck of Number Nine," by Mirzes Doris and Muriel Stewart, and Miss McQuaid. Roll call was answered by housecleaning hints. Minutes of previous meeting were read and adopted. General business was discussed. Two delegates were appointed to attend the annual convention, Mrs. John Birt and Mrs. Anthony Hughes. After the meeting a delicious lunch was served by the hostess in her usual good manner, after which a social hour was spent. Next meeting will be at the home

### For Thine Own Safety

In recent advertisements that have appeared in the press, the Company has explained its reasons for refusing, in future, to give information concerning outbreaks of fire.

Much as it wishes to help the Public by supplying information whenever possible, the time has come, when, in this direction at least, the practice has become an actual menace, not only to property but to life itself.

It is not from perversity that the Company has been led to make this step; it is solely for the purpose of maintaining efficient service; a necessity in the safeguarding of life and property.

The Policy of the Company is to serve the Public and to be constantly prepared for every emergency.

It is in order to uphold this Policy, and for no other reason, that it has been compelled to make this decision.
