EXPLODING SOAP-BUBBLES.

This is a novelty, and will be found to produce a very good effect. The bubbles are blown in the usual way with an ordinary clay pipe, the only preparation necessary being that the bowl of the pipe must be filled with cotton wool soaked in gasoline. Bubbles blown with a pipe thus prepared will be found to explode a flame when approached with a light.

COUGHS WASTE ENERGY

Careful physicians always point out that every cough wears human strength and tears down the body's resistive powers. The reason

SCOTT'S EMULSION is always best for coughs is that it peculiarly soothes the tender membranes while its rich, creamy food rebuilds the tissues to avert bronchitis and lung trouble. Scott's is medicinal food. Scott & Bowne, Toronto, Ont. 17-36
