NEW GOVERNOR GENERAL POPULAR APPOINTMENT

Sir Arthur Currie Thinks He Will Appreciate Canadian Difficulties and Canadians Ability and Resourcefulness to Handle Them.

(Special to The Guardian)
OTTAWA, June 4.—At the opening of the House of Commons this morning, Hon. Charles Murphy, (Russell), asked the Prime Minister if Lord Byng had been appointed Governor General of Canada, and if so, if the Canadian Government had been officially advised before the announcement was made in the press. "If Lord Byng has been appointed he has had any political and parliamentary experience apart from his military experience," Mr. Murphy questioned. Right Hon. A. Meighen replied that the Government had been notified in the usual manner that His Majesty was pleased to appoint Lord Byng and that there was every reason to believe that he possessed a sound knowledge of political matters and was in every way qualified for the office. When informed today at the Royal Military College of the ap-

pointment of General Byng as Governor General of Canada, Sir Arthur Currie, late general officer commanding the Canadian Corps in France said: "His selection is a very happy choice, and will be welcomed by all Canadians, particularly by those who know him. He knew thousands of Canadians and learned to form a high appreciation of Canadian character and ability. He was one who was held in high esteem because he possessed these qualities of mind and heart that awaken the strongest devotion. He is a man of high intellectual attainments, high ideas, and will honor Canada, while his deep sympathy and appreciation of the ability of Canadians to solve difficulties successfully, make his selection, and I know that I am voicing personally it is a great satisfaction, and I know that I am voicing the feelings of thousands of Canadians who entertain toward him the most affectionate regards,

Eithel Friedrich Reviews Guards

BERLIN, June 4.—The ghost of Kaiserian militarism stalking in the heart of Berlin in broad daylight has caused a political and military scandal. More than 2,000 ex-soldiers and 200 ex-officers of the ex-Kaiser's disbanded crack fourth guard infantry regiment, held a rendezvous Sunday afternoon on the Reichswehr exercising grounds in the Moabit section of the city, wearing field gray uniforms, sporting war decorations and rallying around the old Imperial colors.

The officially "dead" guard regiment was instantly reconstructed at the command of their old officers and the 2,000 guard veterans fell into line in their old companies. The resurrected regiment then formed a hollow square, and a chaplain held a regulation field service, ostensibly in memoriam of the guard's war dead.

Then its last regimental commander, the notorious Colonel Reinhardt, delivered an old-time pan-German exhortation to the troops, after which the front was paced off and the soldiers inspected by half a dozen ex-generals, including Prince Eitel Friedrich, the Kaiser's second son, who once commanded the regiment and received a sprig of oak-leaf from the ex-guardsmen.

Poles Truculent, Allies Persevering

(Special to The Guardian)
OPPEL, Silesia, June 4.—Fighting between Germany and the Poles continues in the vicinity of Schmeibitz, about 50 miles northwest of Opatowitz. The castle, owned by Count Stahwitz, has been burned. The British are gradually reinforcing their troops in the plebiscite area, bringing in fresh soldiers and many tanks. The Inter Allied Commission for Silesia is reported to be considering the disposition of allied troops here so that clashes between the Poles and British may if possible be avoided.

KATTOWITZ, Silesia, June 4.—Drastic steps have been taken by the leaders of Polish insurgents near this city to prevent plundering. Fighting squads are busy every morning and several times recently six men have been executed at one time for various crimes.

In spite of the severest discipline the Poles continue rioting and are reported to have robbed food convoys. The number of Poles has noticeably increased during the last ten days. Every cross road is occupied by them and the insurgents are streaming across the country in large numbers. They are all armed and have planted machine guns along the roads. The Poles assert they will not fire upon the British as they do not intend to fight the Allies but they declare they will not surrender their guns unless the Germans disarm first. Efforts to establish a neutral zone between the Germans and Poles are considered futile in some authoritative sources here, which point out that local clashes are bound to continue until the population is actually disarmed.

British Envoy Hanged by Turks

CONSTANTINOPLE, June 4.—With Moscow dominating the Turkish Nationalist policy, as appears from recent developments, the whole Near Eastern political situation has again been thrown into confusion, with the possibility appearing that France and Great Britain may decide to stand back to some extent, of the Greek campaign against Mustapha Kemal Pasha's forces.
The crisis has been accentuated by the execution in Ankara, the Turkish Nationalist capital of the British Indian subject, Mustapha Sachir, hanged as a spy. Before the execution the Turks were warned that in addition to arousing the British, the carrying out of the death sentence upon this British Indian would injuriously affect the Turkish Nationalist cause in India.
Mustapha Sachir was sent to Ankara by the British with the idea of improving relations between Great Britain and the Turks. It is asserted here that he was tortured into a false confession, with the promise that his wife would be spared, but that Russian Bolshevik influences were successfully exerted to secure his being hanged.
As for the French, who have objected decidedly to the recent Turkish Nationalist proposals for revision of the Franco-Turkish agreement, the army of some 80,000 which the French have in Syria, is causing alarm to the Nationalists, in view of the recent developments and they have instructed Munir Bey, who is now in Beirut, to try to gain time in the negotiations and it is reported in this connection to make a new offer of Alexandretta to the French.

MR. MCISAAC, M.P., URGES RAILWAY MATTERS

In the Dying Minutes of the Session the Inter-colonial and Island Railway Questions Were Discussed in the House.

(Special to The Guardian)
OTTAWA, June 4.—Mr. A. B. Copp of Westmoreland this afternoon urged upon the Government favorable consideration of the demands of the Maritime Provinces for preferential rates on the inter-colonial railway which he declared had been built as one of the conditions of the Confederation. The railroad had been constructed, he said, not to make money but to give a good service at a reasonable rate to the provinces which would otherwise have been reluctant to enter Confederation. Today, he said, the freight rates placed on the commodities of the provinces had absolutely paralyzed trade and bade fair to ruin manufacturing industries. Unless redress was given industry would be entirely stopped. It would be in the interests of the whole dominion if the old inter-colonial were handled as a separate unit with headquarters at Moncton, to which point Maritime Province's citizens could go and seek redress instead of having to go to Toronto. There is not a man in Moncton today, he said, who has authority to accept a carload of ashes without having to consult Toronto. Men are being laid off every day and yet private cars are being hooked on to trains in the face of the men who

are destitute and out of work. I am not jealous of a man who has a private car, Lords knows he can have one if he is willing to pay for it; but I object to every direct or, foreman, or assistant being provided with a private car at the public expense. Mr. Copp would up by declaring emphatically that ways in New Brunswick than many other provinces of the dominion per capita of population. That province was therefore entitled to consideration in the matter of rates.
Deputy speaker Bolvin rose at the conclusion of Mr. Copp's speech to remind honorable members that His Excellency the Governor General was expected to arrive at 4.45 to prorogue the session. He therefore suggested that honorable members be brief in their remarks. Mr. James McIsaac of King's rose to urge the consideration of the Minister of Railways for certain small branches in the island which were to be closed down near St. Peter's and Souris. He considered was the standardization of the railways in the province from narrow to broad gauge.
At five o'clock the House having finished business, the Duke of Devonshire, Governor General, entered and prorogued the House.

G. S. Campbell Moves Resolution of Organization at Ottawa Meeting.
