

For all kinds of Baking

—for Bread, Biscuits and Pan Cakes—for Pies, Cakes and Fancy Pastry—no flour, milled of a single kind of wheat, compares with a **BLENDED FLOUR**.

It bakes whiter and lighter—it contains more nutriment—and it yields **MORE** bread etc. to the barrel.

"Made in Ontario"

Use A Blended Flour
(of Ontario and Manitoba Wheat)

and you use the perfect flour.

BLENDED FLOUR combines the splendid food properties of Manitoba wheat—with the lightness and nutty flavor of Ontario wheat.

TRY A BLENDED FLOUR—the result of your first baking will PROVE its superiority.

This trademark is on all fine BLENDED FLOURS. It is the sign of quality.

Look for it on every bag and barrel you buy.

THE GUARDIAN COVERS THE FIELD

The Guardian covers the City and Province within which it is published more fully and completely than any other newspaper printed in Canada.

With a daily circulation of its morning and evening editions now about 2,000 and growing from day to day, it has broken all records for a daily publication in a small community.

Charlottetown has a population of 12,000 and Prince Edward Island has 100,000. The Guardian's daily circulation is therefore as 1 to 14 of population in the city in which it is published, or 1 to 13 of the population of the Province. This is the management believes unequalled by any daily newspaper published in Canada.

Take one or two comparisons with other leading newspapers in other cities and Provinces.

St. John has a population of 40,000 and the Province of New Brunswick 200,000. St. John has five newspapers and among these The Telegraph and The Sun are perhaps the foremost. Each claims a circulation of about 2,000 or say 1 to 20 of the population of that city and 1 to 40 of the population of the Province.

Or again—Toronto has a population of about 200,000 and the Province of Ontario 2,000,000. Toronto Globe is a great Canadian newspaper, known all over the world as one of the best.

The Globe's published daily circulation is slightly under 20,000. That is as 1 to 5 of the population of Toronto, and 1 to 44 of the population of Ontario.

The point is this: that The Guardian covers the field of its circulation three and a half times as well, compared with population of city, and over three times as well, compared with population of Province, as does New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.

These facts are printed in no spirit of boasting, but for the satisfaction of British readers and advertising patrons alike. They have a right to know how completely their favorite Journal is endorsed by the reading public among whom it circulates and how completely it covers the field as an advertising medium in this City and Province.

Another Stock Pattern

We have just opened another stock pattern of tea and dinner ware. You can buy just what you want in this from one cup and saucer up to a full dinner set. Matchings can be had later as we will keep this pattern in stock as long as it is manufactured. To those who want a good strong serviceable and yet attractive ware we would recommend this. It is not expensive—for instance \$2.50 buys a tea set. See our window.
