

LABOR CONGRESS OPENS IN QUEBEC

QUEBEC, Sept. 21.—With over 150 delegates from outside points the twenty-fifth annual convention of the Trades and Labor Congress opened this morning in the private bills committee room of the parliament buildings and will continue until Friday evening next during which time many matters of interest to working men will be discussed. The delegates to the Congress arrived in large numbers on Saturday evening and yesterday and when the convention was called to order this morning by the president, A. Verville, M. P., it promised to be one of the largest in its history.

Sir Lomer Gouin urged the delegates to study deeply the educational question so as to know what to ask for and not look for the impossible.

Hon. W. MacKenzie King declared that it was his intention to make of the labor department one of the best organized. He urged the delegates to look at the labor question from a national point of view.

He promised that before the Grand Trunk Pacific was given an opportunity to employ Oriental labor on its western section other interests would be given an opportunity of being heard.

WEDDING BELLS.

THE PRINCE COUNTY GUARDIAN

Office in Summerside, John Dickieson, Agent, and in Alberton Herbert Clark, Agent.

—The latest news, first of all.
—Dr George McDonald returned to New York Tuesday, after a few weeks visit to Summerside.
—There were eighty-five passengers outward from Summerside yesterday by the Empress and seventy-five returning in the evening.
—Mrs J. H. Locke, Summerside, who was so severely hurt by falling into the cellar, at her home, a few days ago, is, it is pleasing to report, doing as well as can be expected.

—There are quite a number of errors in the Prince County Exhibition prize list, as published in The Guardian and other papers, but there is nothing so far to show that The Guardian or the telephone are responsible for any of the errors. The list was copied correctly from the books of the Exhibition.

—E. W. Schurman, Summerside, had an enquiry yesterday, from the Quebec Steamship Co, asking what depth of water is expected to be at the town wharf by the 14th of October, as they have a steamer leaving Montreal on the 11th, and it is their intention to come to Summerside if there is sufficient water at the wharf.

—On Friday morning Lieut Gov. McKinnon and Premier Hazard, with a number of others, visited the Summerside High School. A short address was given by the Lieut Gov., Premier Hazard and Mr Cotton. After the singing of the Island hymn by the pupils, His Honor asked the teacher to dismiss the school for a half holiday. Three cheers were given for the Lieut Gov and three for Premier Hazard.

—The death occurred on Thursday, 16th, at Kensington, of Willis Edward aged four years and four months, the only child of Wm and Mrs Sheen. The little fellow had been suffering for some time but his death was a great shock to his parents and their friends. The funeral took place on Saturday, 18th, from his home at Kensington to the Anglican portion of the Kensington Cemetery, where his remains were laid to rest by the Rector, Rev. Rural Dean Nicholls. A large number of sympathizing friends were present and many floral tributes were sent. To the sorrowing parents is extended heartfelt sympathy. "I shall go to him but he shall not return to me."—Com.

—Bannerman McDougald, W. M. and Austin Ramsay, Chap, have forwarded the following kind expressions to Bro Rev Ernest Weeks, Bideford— It is with feelings of deepest sympathy that we, the officers and members of Kenmare, L. O. L., No. 1463, Ellerslie, sympathize with you in your sore affliction which has brett you of your dear wife. We realize that the sudden removal of such a sweet life from our midst, leaves a vacancy and a shadow that will be keenly realized by all the members and friends of this organization, and will prove a serious loss to the church on earth. But we are assured by his revealed will that it is the ruling of an all wise God who doeth all things well, and we are confident that what has been our loss is her eternal gain. In the years to come may it be a pleasure and thought to reflect on the audience shed in the home, and also a pleasant recollection that she lived to love and to be loved by those who will so tenderly cherish her sweet memory. We commend your infant child, who is left behind to His kind care and keeping, praying that when His wise purposes with you here on earth are ended, you shall again with mingled voices be permitted to chant His praises, and feast on the pleasures of pure joy throughout eternity.

MONTREAL'S BAD METHODS ENDED.

MONTREAL, Sept. 21.—Montreal made an attempt to put an end to the bad methods in vogue at the City Hall as brought out by the Royal Commission by voting in favour of the reduction of Aldermen by one half, from forty-four to twenty-two, and by the creation of a Board of Control which will perform the duties formerly in charge of committees of Aldermen. This decision was not a half heard one.

The Board of Control is to be elected by the people and each member will be paid \$10,000, per year. There are to be four members.

BAD TORANNO IN LOUISVILLE.

LOUISVILLE, Sept. 21.—With New Orleans entirely stripped of wire communication with the world and reports trickling in from points along the Gulf between Pascagon, and Pascascia of high tides and winds of hurricane velocity it is apparent from the meagre information received that the Gulf storm which struck that section has scored heavily in property damage, if not in loss of life.

APPLE CROP OF NOVA SCOTIA

ST. JOHN, Sept. 21.—"I estimate that the apple crop of Nova Scotia will be about 600,000 barrels in 1909," said G. H. Vroom, chief fruit inspector. Mr Vroom arrived on the 5.20 train from his home in Kentville and went through to Fredericton, where he will act as judge of all fruit at the exhibition there. "Some months ago," said Mr Vroom, "I told a reporter in Halifax that the apple crop this year would exceed that of last year, when it amounted to 710,000. I did not then allow for the dry weather, which has caused the crop to be much smaller. However the fruit, tho' small, is in most cases clean and good."

Mr Vroom went on to say that the banner yield of the Nova Scotia apple crop was 750,000 barrels. Previous to this 625,000 barrels was the maximum, while up to that time it had seldom exceeded 450,000 barrels and often went as low as 125,000 barrels. Mr Vroom attributed the greater yield in previous years to the close attention paid to proper fertilization and the scientific system of grafting, which has made hitherto barren trees, profitable yielding ones. Mr Vroom said that apples this year would command a good price in the British market. Last year there was about 615,000 barrels he thought shipped from Halifax. This year's shipments from that port would, he said, amount to 500,000 barrels.

High Class Millinery

As usual with us in the Fall season the space taken up by the immense stock of furs, wintles, ladies' suits, and mens' ready made clothing, stocked on the second floor, precludes the possibility of a formal millinery opening, but nevertheless all are welcome to come at their leisure and view the very latest and best ideas from the world of fashion.

Our head milliner MASS CASSIE REID who has lately arrived spent several weeks in copying from the most approved Paris and New York models, and has ready a showing of superb styles, which can not fail to meet with the approval of all lovers of artistic work.

All are cordially invited, and orders will be attended to in a prompt and efficient manner.

Our showing of high class furs also demands more than passing notice, and visitors to the Exhibition should not fail to call, admire, and, if agreeable, purchase.

We would also call attention to the very desirable range of Ladies' tailored suits at moderate prices. These come in black, navy, myrtle, brown, etc., and are proving extremely popular.

Visitors from the country as well as from abroad are invited to make this store their headquarters during Exhibition.
