

Right Sponges

When you want a sponge you may think that the nearest store will do. But it may not if you want a wide choice, or if you care to save on the cost. We have a splendid assortment here and the price is right. We make a specialty of high grade bleached and unbleached sponges. Large ones for buggy or auto use. Cheap coarse ones for boats etc.

Synopsis of Canadian Northwest Land Regulations

THE sole head of family of any male over eighteen years old, who has in his possession of available Dominion land in Manitoba Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency, but not Sub-Agency on certain conditions.

1. One—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, or on certain conditions, a habitable house is required except where residence is performed in the vicinity.

2. One—Six months residence in good standing may pre-empt a quarter-section along side his homestead. Price \$3.00 per acre.

3. One—Six months residence in each of three years after extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years cultivate 20 acres and erect a house worth \$500. The area of cultivation is subject to reduction in case of rough scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

NATIONAL THRIFT AND SAVING

The following letter has been received by Prof. H. H. Shaw, acting Superintendent of Education, and is fully explanatory regarding the awarding of the Heaney prizes. Through a slight mix-up Miss Johnston's essay, which won third prize, was published in yesterday's Guardian over the name of Miss Peters, the second prize winner, and whose essay is given herewith:

Prof. H. H. Shaw,
Acting Supt. of Education,
City:
Dear Sir,—I beg to notify you that the Examining Board of the Heaney Competition for Prince Edward Island having examined the essays submitted by you to them to be judged, has awarded the prizes as follows:
Mary Frances, Theresa Martin, aged 14 years, 1st.
"Hope," aged 16 years, 2nd.
"Theresa Avila," aged 17, 3rd.
In connection with the third award, the examiners cannot associate themselves with the following clause:
"Even England's position among the Allies when the division of the spoils has begun can be maintained supreme by means of the Almighty Dollar."
The false note here struck detracts from the merits of an otherwise excellent paper.
The examiners also consider the following worthy of honorable mention, not in order of merit, and advise that they should be published:
"Patriot," Marguerite Bourgois; "A Shut-in Student," "Country Girl."

Yours truly,
FRANK R. HEARTZ, Chairman,
P. C. GAUTHIER,
W. F. TIDMARSH,
PERCY POPE,
J. A. McDONALD, Judges.

A Minister's Evidence

Toronto, Ont., April 24.—There has come to us recently these two letters from prominent men who bear unimpeachable testimony in regard to Dr. Chase's Ointment as a prompt and lasting cure for piles, or hemorrhoids. These men give their evidences freely because they know what it means to suffer from the tortures of piles and then be cured. They feel it a duty and a pleasure to let others know how they too may be cured.

Rev. Frank N. Bowes, Methodist Minister, Pricewille, Ont., writes: "In the winter of 1912, I was stationed in Cobalt. I went for a snowshoe tramp one day, and sat for only a few minutes on a cold stump waiting for some comrades to catch up to me. From sitting on the damp stump I contracted piles, and suffered so severely that it caused me great pain to walk. A friend recommended Dr. Chase's Ointment, and I immediately purchased a small box which very rapidly effected a cure. I always keep a box on hand and find it excellent for any kind of wound or sore."

Mr. W. B. Thorne, J. P., Alderside, Alta., writes: "It was twenty-eight years ago that I became acquainted with the merits of Dr. Chase's Ointment and would not be without it on any account as I never fail to do its work. I was first induced to try it for piles. Less than one box cured me and I have never been troubled since. That was twenty-eight years ago, so I think the cure is permanent. It is good for sore lips and hands, chafing, and in fact, all sorts of sores. You are at liberty to use this statement for the benefit of others."

You can put Dr. Chase's Ointment to the test in any case of piles with the utmost assurance that you will obtain relief from suffering and ultimately lasting cure. 60 cents a box at all dealers, or Edmanston, Bates & Co., Limited, Toronto.

Ruff Orpington Eggs from Prize Stock

Your Wife's "Allowance" may not expand to meet the increasing cost of foods, but it will buy a sufficient quantity of Shredded Wheat to nourish every member of the family. Two Shredded Wheat Biscuits with milk make a good, nourishing breakfast at a cost of a few cents. All the body-building material in the whole wheat grain. For breakfast or dinner with berries or other fruits.

Made in Canada

A PEACE PREPARATION FOR CANADA

In these days of awful stress our country, engaged in this tremendous war, is putting forth its utmost energies to carry itself through this terrible crisis. Everyone ought to try to help in this work. And the way in which most Canadians can best serve the state is by being thrifty—by wisely using all their mental, physical, and material resources so that this country will be able now, during the war to bring all its powers to bear on the side of Great Britain and her Allies and afterwards, when peace is declared, to cope successfully with the economic problems which will then arise.

The most important reason why Canadians should now be thrifty and saving is because money is next to wealth, the most important agent in deciding the outcome of the war. The leading statesmen of the warring countries have repeatedly emphasized the importance of money as a determining factor. As all the greatest money-leading nations are now fighting, our government will find it necessary to raise more and more money at home. The more money that can be obtained here, the easier it will be for the government to borrow and the more readily will foreign investors supply funds to a nation that is both wealthy and successfully striving to increase its wealth. Therefore by being economical and thrifty we can aid the Entente Allies very much to win the war.

Another motive for practising thrift is that hard times are almost certain to follow immediately after the war. That, at least, has been the experience of other nations when their wars were ended either victoriously or otherwise. But if we save up now and put by every possible cent, we will be able to pass through a period of depression in trade and industry. Thus Canada could continue uninterrupted the development of her immense resources and so escape many of the hardships and setbacks of poor times. That is another reason why we should make the most of our pennies now and so have them should the proverbial rainy day overtake us.

Again there is most of the cost of the war to be repaid. As soon as the struggle is won, we will be called upon to pay taxes and still greater taxes to pay off some of the many millions of dollars that the country

Pale Delicate, Girls

Does your daughter inherit a delicate organization from you? The anemia of young girls may be inherited, or it may be caused by bad air, unsuitable food, hasty and irregular eating, insufficient out-of-door exercise and not enough rest and sleep.

It comes on gradually, beginning with languor, indisposition to mental or bodily exertion, irritability and a feeling of fatigue. Later comes palpitation of the heart, headache, dizziness following a stooping position, frequent headaches, and breathlessness. In a majority of cases constipation is present. They may be no great loss of flesh, but usually the complexion takes on a greenish-yellow pallor.

Cases of this kind, if neglected, become serious, but if taken in time there is no need to worry. The treatment is quite easy and simple. Dr. Williams' Pink Pills, which are free from any harmful or habit-forming drug, are just the tonic needed to remedy this wretched state of health. Though it is not noticeable, improvement actually begins with the first dose. As the blood is made rich and red the pallor leaves the face, strength and activity gradually return and if the treatment is continued until the last symptoms disappear the danger of a relapse is very slight.

If any symptom of anemia appears, prudence suggests that Dr. Williams' Pink Pills should be given at once, and the sooner they are taken the more speedily will the trouble be overcome. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Colonel Waltz

Standard Bred Trotting Stallion.
American No. 61581
Canadian No. 1561.

Colonel Waltz is a handsome bay stallion three years' old; can step in 2:40; sired by Waltz 12533; by Anderson Weeks 4197, dam Princess Virginia B. 1560, by Colonel Cochran 26514.

Colonel will make the season at owner's stable except on Saturdays, he will stand at Adrian McDonald's, Souris, for the season. Mares at owners' risk. Fee ten dollars for the season.

GEORGE McDONALD,
Farmington,
R. R. No. 2,
P. E. I.
657-5, 29M31pd.

has already borrowed, and to provide pensions and other expenses incident to war. That such a burden will fall as lightly as possible is a consideration which should make us try to be as economical and saving as our circumstances permit.

Economists have always been teaching that extravagance was our national sin. People coming from older countries have unfavorably remarked upon the waste which is going on in both our public and private affairs. If now we stop these wasteful habits and become thrifty, it would very probably be one of the greatest benefits we could get from the war. We could in a very short time gain up the total financial cost of this conflict and so soon be in money at least as well off as when there had been no war. Thus it is evident that by becoming more saving we gain twofold—we will rid ourselves of one of our worst vices and we will acquire a virtue, the practice of which will greatly benefit us in the years to come.

For after the war when economic conditions shall be so greatly changed from what they were formerly, when almost all the European countries shall be groaning under the most burdensome taxation, and when their inhabitants shall be looking about them for some land wherein they may find life more tolerable, Canada will very probably be the country to which they will go. For this country's achievements have given it a world-wide prestige and reputation. The Dominion is now regarded with respect by both friends and foes. It is the most talked-of of the younger nations. Such being the case, this country will attract large numbers of immigrants when peace is declared. It is our duty now to make ready for these settlers. And by being economical now, we are doing the most to provide an attractive country for them. If the nation is rich it can soon recommence its internal improvement work that was interrupted by the war and soon have all the natural resources of this land being developed and put to the best advantage. That is another reason why we should be thrifty and saving.

The habits of thrift once firmly established would have many beneficial effects. It would make our people more sober and less inclined now to follow passing fads. Many of the vices of life—the consumption of which is copied from the wealthy world—would soon pass into disuse. Similarly the great attention paid to style

in dress, particularly women's, would be much lessened to the enrichment of many families. And thus the people would be more careful of their money—they would not be so prone to spend it in uncertain speculation and habits of style which are popular for the moment alone.

From that it would follow that the most of those who today just barely live within their incomes would be able to save up some money year by year. Similarly those now able to save a little would then be able to save more and those who are now always running in debt would be able at least to live within their means. And so soon the great majority of the people would become independent and even prosperous while the number of poor families would be much lessened. The wealth of the nation would be more equally divided than now. There would be less likelihood of the country's money being all in the hands of a few successful financiers, less poverty, and so less cause for discontent and anarchistic tendencies among the poorer classes.

When conditions would be such, the country would be better able to meet a period of hard times. As there would be less poor, so then there would be less misery. Those who would have
