Gold Shares Featured On Toronto Exchange; New Declines At N.Y.

TORONTO, Feb. 10—(CP)—Gold shares held the spotlight on the Toronto Stock Exchange today advancing strongly in mid-session following strength in golds on the New York Exchange. McIntyre Mines led the senior producres upwards on a point advance at 55 1-2 and juniors showed gains ranging up to 10 cents. Losses more than doubled gains.

Trading continued at yesterday's moderate pace and failed to increase when golds turned upwards. Base metals showed a majority of gains for most of the session but slipped slightly in the last hour. Western oils moved quietly on a firmer tone following improved news from the western oil fields.

Early gains in base metals were wiped out in late trading and a majority of losses showed. Smelters dipped a point at 108 1-2 and Hudson Bay was down to a new low at 48, a loss of 1 3-8. Waite Amulet added 7-8 at 13 1-4, pending expected drill results, and attracted moderate trading.

Western oils fluctuated through most of the session but closed firmer. Anglo-Canadian added 20 cents at $4.75 and Okalta and Central Leduc were ahead 10 cents. Pacific Petroleum and Roxana also tightened while Royalite and Calgary and Edmonton weakened.

At New York

NEW YORK, Feb. 10—(AP)—The stock market dropped today to the lowest average level since March 19.

Key stocks lost fractions to more than 2 points. Seventy-one issues rang up new lows for the past year or longer.

Volume picked up a bit as prices declined and turnover expanded to 980,000 shares from 880,000 Wednesday.

For a short time in early trading enough buying orders came in to lift numerous issues fractions to around a point. Demand soon faded away, though, and the price level started a slow slide.

Offerings of stock became more insistent during the final hour and at the closing Bell prices were still being marked down.

Gold shares ran against the trend with substantial gains.

Wall Street's mood in a word, was bearish—possibly a harbinger of a turn toward higher price levels. The street is notorious for guessing wrong.

At Montreal

MONTREAL, Feb. 10—(CP)—Trends were about mixed at the close of trading following earlier firmness on the Montreal stock exchange and curb market today. Turnover was light.

Caution was shown here following a sudden general down-turn on the New York exchange and a flow of early fractional gains slowly receded in the second half of the session.

Price was a feature, up two points at 52. Consolidated Paper and Donacona both were 1-4 ahead.

In utilities, Brazilian rose a shade to 18 3-4. Bell and Winnipeg Electric closed unchanged from Wednesday, but Power Corporation dipped 1-4 and Bell Rights lost a cent.

Consolidated Smelters dropped 1 1-2 to 108 points in metals while Hudson Bay Mining lost close to a point at a new low of 48. International Nickel was unchanged. Noranda was up 1-2 at 57 1-2.

C. P. R. slipped 1-4 to a new low of 14 7-8 and Canadian Locomotive lost 1-2 to a new low of 28 1-2.

Penny gainers in mines were Wiltsey-Coghlan, Waite Amulet, Sullivan, Sherritt-Gordon, Sigma, Quebec Manganese, Normetal, Nechi, Louvicourt and Dome.

Losers included United Asbestos, Trebor—at a new low of 28 cents—Siscoe, Santiago, Quebec Labrador, Goldora, Formaque, Cortez, Bouzan and Base Metals.

There was also a noticeable decrease in selling in rye which attracted buying by commission houses and outside interests. There was some selling attributed to American account.

Battle Of Long-playing Record Shaping-up

(By Bill Becker)

HOLLYWOOD, Feb. 10 — (AP)—The long-playing record battle lines are shaping up. In this corner, Columbia at 33 1-3 revolutions-per-minute; and over there, Victor and Capitol, 45.

And in the middle, spinning like a dervish, is the public.

Capitol took its stand alongside Victor with a communique yesterday announcing that starting in April it will issue seven-inch vinylite records playable only in the new 45 r.p.m. player-changer made by Victor. The records are practically identical to the Victor disc also slated for April unveiling.

That left Decca the only one of the "big four" on the sidelines in record row's revolutionary war.

The situation facing the record buyer is this:

He will soon have the choice of records at three speeds, 33 1-3, 45 or the standard 78 r.m. but so far there is no player on the market which can take more than two of these speeds—33 1-3 and 78. Columbia has a 33 1-3 player; Victor's will play only 45, although probably a 45-78 combine is in the works.

Columbia is now producing its "LP" disks in seven, 10 and 12 inch sizes. Victor and Capitol apparently intend to stick to the seven inches in the 45 r.p.m. groove.

The new Capitol record was demonstrated yesterday. Seven inches in diameter, it has a 1 1-2-inch hole to fit the radically new Victor player.

Each side contains 5 1-2 minutes of music—more than the normal 12-inch, 78 r.p.m. side.
