"TO ERR IS HUMAN."

People like to talk about attractive things in advertising. In a company recently the proverb above quoted, and which appeared at the head of one of a well constructed series of advertisements of Hood's Sarsaparilla, was so much discussed that we doubt if any one there will ever forget the source whence it came. Messrs. Hood & Co. are using these proverb advertisements on a very broad scale, and they are attracting discussion and favorable comment everywhere.

THE lecture on Popular Aspects of the Evolutional doctrine of Man by Rev. W. H. Smith in Market Hall Tuesday evening was listened to, and thoroughly enjoyed by a large and intelligent audience. Mr. Richard Hunt presided and with one of his happiest speeches introduced the lecturer. Mr. Smith is a very pleasing speaker, and throughout the hour's discourse held the attention of his hearers. After referring to the importance of the subject the lecturer gave a definition of Evolution, the history of the idea before Darwin, the prominence given to the thought by the publication of Darwin's "Origin of Species." He then gave an exposition of Darwin's theory, confiding his attention to Biological Evolution. The evidence in favor of Biological Evolution from Embryology, Morphology, and "The scaffolding left in the Body" was stated and the criticism of the theory proceeded with, from the standpoint of metaphysics, science, ethics, and religion. Viewed in relation to these demands, biological evolution was regarded as an inadequate account of man. Evolution as a Divine Method of operation was then considered and viewed as a more satisfactory history of man. The relation of this view to the interpretation of Scripture was unfolded. The purpose of Scripture, necessarily implying its limitation to the spiritual life, was presented somewhat in detail, and what was regarded as the best interpretation of the opening chapters of Genesis was given. Even with the present imperfect conceptions of both science and theology he declared there is ample ground for believing that both departments of thought are rapidly converging and that any apparent conflict will disappear in the fuller light. A vote of thanks was moved in very complimentary terms by Stipendiary Magistrate McQuarrie, and seconded by Rev. E. J. Grant.

S. S. LESSON.

APRIL 16. — JESUS TEACHING HUMILITY.

John 13: 1-17.

GOLDEN TEXT.

I have given you an example.—John 13: 15.

OUTLINE

1. A Friend, v. 1-3.

2. A Servant, v. 4-6.

3. A Master, v. 7-13.

4. An Example, v. 14-17.

Time.—Thursday evening, April 6, A. D. 30.

Place.—An upper room in Jerusalem

LESSON HELPS.

1. "When Jesus knew that his hour was come"—The hour when he should depart unto the Father. Till then his enemies could only plot, but not carry out the plot. "Having loved his own"—Those disciples whom God had given him (John 17: 11), children of the light. "Un'to the end"—some interpret, "unto the end of life;" better, "up to the limit;" that is, in the fullest degree.

2. "The devil"—A personal evil spirit who wrought on the covetous nature of Judas and prompted him to an act of treason. "To betray"—By an act of pretended friendship.

3. "Given all things"—(Phil 2: 9-11.) This explains the act of humility which follows. Conscious of his divine origin, and of his future divine glory, he took upon him "the form of a servant."

4. "His garments"—The loose outer garments which would impede him in his work.

5. "To wash the disciples' feet"—An act of respect from a servant to a master or guest, and an object lesson in humility and in charity which served as an example to the disciples.

EXAMPLE IS BETTER THAN PRECEPT.

Those sententious proverbs, or old saws, which are used as prefixes to all of the Hood Sarsaparilla advertising in thousands of papers throughout the country, are evidence of a new and original style of display advertising both pleasing and effective. The Hood firm is to be congratulated on so cleverly adapting such wisdom as has filtered down through centuries. Another charming thing about this Hood advertising is the unique type they are using.

GENERAL DEBILITY.

From the Advertiser, Hartland, N.B.

Ralph Giberson, postmaster at Monquart, N.B., is also known as a prosperous agriculturist. Now stalwart and rugged, he scarce would be recognized as the man who six months ago was the picture of one suffering the terrible symptoms of general debility. He was run down in health, suffered much from dizziness, almost blindness, general dullness and depression of spirits. He had a poor appetite and such food as he ate gave him great distress. He was incapacitated for the work that fell upon him and was well nigh utterly discouraged. The symptoms bordered on to the by which hypochondria is manifested. Through reading the Advertiser he learned of the benefit that several of his friends received by the use of Dr. Williams' Pink Pills, and by the hope held out by their testimonials he secured a supply and took them according to directions. The result was almost magical; immediately his symptoms became less disagreeable, and he steadily gained until now he is perfectly free from his old troubles. He gladly gives his testimonial, that all who read it may know the remedy if ever they are troubled with general debility.

From the Advertiser, Hartland, N.B. (repeated text from above)

SPRING MEDICINE.

In the springtime the blood needs attention. The change of the year produces in every one, whether conscious of it or not, some heating of the blood.

Some people have pimples, a little eczema, or irritation of the skin; others feel easily tired and have a poor appetite. A tonic is needed.

The best tonic—the best of all spring medicines for man, woman or child is

DR. WILLIAMS' PINK PILLS

These Pills do not purge and weaken like other medicines. They make rich red blood, build up the nerves, and make weak, depressed and easily tired people cheerful, active and strong.

Pink colored pills in glass jars, or in any loose form, or in boxes that do not bear the full name "Dr. Williams' Pink Pills for Pale People, are NOT Dr. Williams'.

The genuine are put up in packages, with wrapper printed in red.

Sold by all dealers or direct from the Dr. Williams' Medicine Co., Brockville, Ont., at 50 cents a box or six boxes for \$2.50.

No other medicine in the world has offered such undoubted proof of merit. What Dr. Williams' Pink Pills have done for others they will do for you, if given a fair trial.

Political Cartoons.

6. "Dost thou wash my feet?"—The word "thou," not "my," is the emphatic word. A proper emphasis often makes clear the meaning of a sentence. That the Master should do this humble work amazed Peter.

7. "Know hereafter"—That is, presently, in the explanation of the act which is given in verses 13-17.

8. "Thou hast no part with me"—Peter must cast aside his pride and self-seeking, and have the spirit of humanity and devotion to the service of others, which Jesus now illustrated, or he could not be a true disciple. "Follow me" is the teaching of Christ to us all.

10. This verse shows that a Christian may be clean morally, yet may contract some stain which needs the divine cleansing. Peter's life illustrates this. He loved the master, yet impulsively denied him.

11. "Ye are not all clean"—For Judas was present. Jesus knew who should betray him.

13. "Master and Lord"—"Master" in his influence as a teacher, and "Lord" as the opposite of a servant.

14. Not an act to be performed literally, but the spirit of the act is to be ever present in the church.

If Christ was thoughtful of those beneath him, how much more should we be.

15. "An example"—The example is in the principle, and not in the particular act.

16. "Verily"—Give emphasis to the statement.

17. "If ye know"—As you certainly do. "Happy are ye if ye do them"—To know is the first thing; to live up to what we know of duty is the second thing, but of equal importance with the first.

THE TERRIBLE PENALTY OF CARELESSNESS

Is Perpetual Suffering and an Early Grave. Don't Neglect the Earliest Signs of Dyspepsia or Indigestion—They Develop Quickly if not Banished by the Use of Dodd's Dyspepsia Tablets. It is a strange commentary on the inconsistency of human nature, that a man is infinitely more careful of his horse, or his dog, than of himself. Let the horse or the dog manifest symptoms of illness, and the best medicine is immediately obtained and administered. But, how different it all is, when the man himself is ill! For instance: A man is hard at work in his office, a couple of hours after lunch. He is attacked by a sensation of dizziness—fainting; everything is plunged in darkness; there is a dull, heavy
