

ON LIFE INSURANCE DAY

(WEDNESDAY, JANUARY 22nd.)

OUR THOUGHTS SHOULD NATURALLY TURN TO PROTECTION OF OUR LOVED ONES—WE SHOULD ASK OURSELVES SUCH QUESTIONS AS:

- (1) What will be my wife's Net Income after I am gone?
- (2) What provision am I making for my children's education and future?
- (3) After doing my best to take care of wife and children will there be anything left for my own old age should I live on?
- (4) How can I best arrange to cover and provide for the above?

The new minimum cost policies, pension policies and children's saving and educational policies will help you with your obligations to self and family. Write us for particulars, or consult the nearest Great-West Life agent.

THE Great-West ASSURANCE Life COMPANY

HEAD OFFICE

- WINNIPEG

"SERVICE TO POLICY HOLDERS"

ON GUARD!

OVER \$500,000,000 OF CANADIAN LIFE INSURANCE IS CARRIED BY THE GREAT WEST LIFE, AND IS GUARDING CANADIAN HOMES.

Great West Life surplus earnings have always been unusually large—with the result that policyholders have continually enjoyed generous profits.

MARKET GOSSIP

Furnished by Mowat and MacGillivray, Stock Brokers. The exceptional strength and activity of the mining market is no doubt a factor in helping sentiment on the Canadian Stock exchanges. The advance of both the mines and oils will release a large amount of money that, up to the present, has been tied up, and there is little doubt but that a part of this will find its way into the stock market. The shares of Winnipeg Electric are in good demand. It is understood

from good sources that the announcement of the financing of Northwestern Power will reflect favorably on Winnipeg as a good advance in Winnipeg Electric would facilitate the financing of Northwestern Power.

The recent placing of equipment orders will benefit Canadian Bronze in no small way. Canadian Bronze holds contracts with both Canadian Pacific and Canadian National for various replacements in equipment and consequently the placing of orders automatically results in business for the company. The tie-up in the movement of grain retarded operations of the company for the last four months of 1929, but the new contracts will give a welcome stimulus to plant activities.

WHY DELAY?

Experience shows us that a great many investments are purchased after a rise in prices has been under way for some time and the benefit of very low prices is largely gone.

During the last few weeks sound income bearing securities have made substantial advances in price. Indications point to still higher prices. Investors who wait will lose both income and an opportunity that is apparent to everyone.

Again we say, "Buy Bonds Now."
