"One of my cousins advised me to take Lydia E. Pinkham's Vegetable Compound as it had cured her.

"I did so and now I have no pain and am entirely cured. Your remedy is deserving of great praise."

PROVINCIAL LEGISLATURE

(Continued from page 7.)

The Ottawa conference were subsidies and legislative grants. Our other claims had been considered and passed upon by unanimous vote of this House. The claims had not lately been pressed, election time making it inopportune. The subsidy settlement had nothing to do with other claims. He thought in proportion to population the Island fared better than other Provinces. Premier McBride said so. The fisheries claim is in fair way to settlement. Premier Hazen was moving and this Province could not be left out. The Dominion should give us a through freight and passenger rate. It was too big a leap to ask for the Tunnel. It would be a mistake to press all our claims at once. Grasping at too much we would lose all.

MR. MORSON characterized Mr. Hughes' speech as an annual offering. The Government need never go to Ottawa again; their months are closed. If only one question was before the conference, why did British Columbia get more. He failed to find that Mr. Hughes had opened his mouth to press out claims. The Liberals had increased the debt to nearly a million and the interest has to be paid. They were paying six and seven per cent to the banks. Mr. Hughes had boasted of his election in Charlottetown, where with open voting, an election is a mere farce.

MR. LAIRD said the money question is the question of the day. The land had been taxed for years. Proceeding he reviewed political events for many years past and made a strong party speech.

MR. MCLEAN replied to Mr. Laird and Mr. Hughes at some length. He said every tax act had been passed

by the Liberals. If Charlottetown had the ballot Mr. Hughes would have another tune to whistle.

HON. MR. GALLANT argued that the claims were talked of by the Opposition for political purposes. No one could be a success if built. We were talking Tunnel too much. He endorsed Mr. Hughes in that matter. A ferry at the Capes might remedy the whole grievance.

MR. MATHIESON declared that every speaker on the Government side minimized our claims and made excuses for the Ottawa Government. That was not what the Legislature is for. Our foes are those of our own household. Why had the Government not pressed these claims during the past two years? The Opposition stood ready to help and urge them on. He thought it a mistake to let it go with New Brunswick. We did that in regard to representation, and lost our case. Our fisheries claim was better than that of any other Province. Money due us before the union. What are they doing about transportation? The rates are higher than ever. As to the Tunnel the members of the Government party were alternately for and against it. One says it is too great a leap, another is doubtful if it would pay when built. A man with a brief from the Navigation Company might talk that way.

HON. MR. HUGHES explained, seven per cent to the banks. Mr. Hughes had boasted of his election in Charlottetown, where with open voting, an election is a mere farce.

MR. MATHIESON resuming reviewed the inaction of the Government in regard to compensation for the vast areas of public lands given to Ontario, Quebec and Manitoba and for non-fulfillment of the terms as to continuous communication. He moved the adjournment of the debate. Carried. House adjourned till 10 o'clock tomorrow.
