OIL IN CANADA

Resources Are to be Conserved For War or Emergency

In the oil regulations of Canada are several clauses of an Imperial nature looking to the question of defense and designed to conserve the oil resources of Canada for the use in time of war or emergency of the British Admiralty.

CLARENCE JAMIESON, M.P. for Digby, N.S. He is particularly interested in any legislation referring to the fishing industry of the Maritime Provinces.

ECZEMA STARTED IN A RASH

Suffered Terribly. From Eyebrows Spread to Neck, Chest and Arms. Completely Cured by Cuticura Soap and Ointment.

Briercrest, Sask. — "When my baby boy was about four months old he suffered terribly from eczema. The trouble started in a rash and was very itchy. It made him very cross and fretful. I noticed the rash first in his eye-brows. From there it spread to his neck, chest and arms. When he would scratch, it would make sores. "I got medicine but it did no good. I tried different remedies without result. At last I got a sample of Cuticura Soap and Ointment and after using them for two days I noticed a change. I then purchased a full-sized cake of Cuticura Soap and Cuticura Ointment. I would give him a hot bath with the Cuticura Soap every night afterward applying the Cuticura Ointment. Before I had used half of the Cuticura Soap and Ointment he was completely cured." (Signed) Mrs. H. L. Stromberg, May 29, 1913.

The regular use of Cuticura Soap for toilet and bath not only tends to preserve, purify and beautify the skin, scalp, hair and hands, but assists in preventing inflammation, irritation and clogging of the pores, the common cause of pimples, blackheads, redness and roughness, yellow, oily, mothy and other unwholesome conditions of the skin. Cuticura Soap and Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 32-p. book, send postcard to Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

Bacchus (8465) Weight 1700 lbs Pure Bred Enrolment No. 18

Grand Clydesdale. Stallion and a son of the world famous Reformer (5880) (13151). Will stand for the season at the owners stable R. H. Wood, Vernon River. As this horse has proved himself to be a sure foal getter and a sire of some of the best colts ever bred around here, intending breeders will do well to call and see him before breeding.

This horse has been registered in the Clydesdale Horse Association of Canada and certificate of registration under the P. E. I. Stallion Enrolment Act, leaving no doubt regarding his breeding. 2257-5-2msw1mpd.

THE MEDICINE CLOSET

Every housekeeper should have a well-stocked medicine closet. It should be out of reach of the children and should be kept locked. Print a list of your supplies and tack on the inside of the door. It should contain these things: Two heavy muslin bandages. Two gauze bandages. Bichloride tablets—plainly labeled. Carbolic acid solution. Strength, 1 to 20. Peroxide of hydrogen. Alcohol. Adhesive plaster. Carbollized vaseline. Iodoform. Boracic acid solution. Clinical thermometer.

GOSPEL OF SCENTED SOAPS

The Eskimos However Preferred to Eat It "The most anxious moment of the year," said Rev. S. M. Stewart, Ungava, "is when the Hudson Bay Company's vessel from England is sighted, and we are waiting to know whether she brings us good news or ill. For the last eighteen months Mr. Stewart has had a colleague to share his solitude, but for twelve years before that he carried on the work single-handed. The missionary's preaching includes the gospel of cleanliness and he backs it up in a practical way with cakes of soap. "Unfortunately," he remarked, "I gave them scented soap to start with, and they ate every cake they could get hold of. Now I have taken to carbolic, and they say they don't like 'medicine soap,' so they use it for the purpose it was meant for."

JOHN C.—This farmer used common manure fertilizer and had an average ordinary crop. NO INCREASE.

JAMES H.—This farmer used Auld's UNMIXED fertilizers and had a net gain per acre of \$54.40.

Don't Follow John's Example---Be Sure Rather than Sorry

If you are one of these farmers who would rather put up with poor success, or common-place returns, than do something different and pay out a few cents to get a bigger and better crop from every field—well, this isn't meant for you. But if you really want to see your farm paying you a mighty big profit each year, we have a message you will like to hear.

Farmers Who Have Used Unmixed Fertilizers Always Have Big Returns

The farmers who have used our Unmixed fertilizers have all had splendid success, have all secured bigger crops, all have more fertile fields. Recently a test was made in different parts of the Island to prove the profit-making powers of unmixed fertilizers. Manure fertilized fields were tested side by side with those treated with our unmixed fertilizers, and the cash sales showed the following in favor of our plant foods—Alberton, hay, \$32.24; Little Harbor, potatoes, \$54.40; Souris, tur nipns, \$41.30; Covehead, mangels, \$84.00; Trilby, potatoes, \$44.75; Dundas, hay \$32.00.

These Fertilizers Mean a Bigger Crop for YOU

Not only will these fertilizers produce a bigger and better crop for you this year, but they will leave the land in better condition for succeeding cultivations, which is a distant and superior advantage offered only by our UNMIXED fertilizers. Don't buy haphazard. Mr Farmer. Investigate. See that our statements are correct. Then use your own judgement.
