MARKET GOSSIP

NEW YORK, N. Y., March 28.—The market opened irregularly yesterday, but soon began a slow steady advance. Gains in most instances were nominal, however, in some cases they were not exceeded. Allied Chemical and Dyestuffs called 4 points in this market while U. S. Smelting declined over 7 points on a poor earnings report for March. The main features of the day, Rail bonds were generally soft and the rally in Rail stocks was but very meagre. Wheat closed about 1/4 cents higher. Yesterday's rally was about in accordance with normal technical sequence and so far the action of the market continues favorable. If activity had been greater, however, the recovery would have been more convincing. To complete the picture, the Rail and Industrial averages will have to penetrate last Thursday's level which would give a Dow Theory by indication. Laidlaw and Company.
