SHOCKING CRIME IN NEW YORK

Horrible Death Of Little Girl At Hands Of Unknown Fiends—Was Only Eight Years Old—Enticed Away And Killed

[SPECIAL BY CABLE.] New York, June 27—Eight-year-old Viola Boylan, who has been missing from her home since last Monday, was the victim of a revolting assault. The body, horribly mutilated, was found in a coal bin in the cellar of her home today. No arrests have yet been made but the police are searching for two young Italian boys, who, they have been informed, were seen trying to entice the child to enter the cellar with them several days ago.

FATAL FIRE AT ARNPRIOR, ONT.

[SPECIAL BY CABLE.] ARNPRIOR, Ont., June 27.—Five lives were lost here in a fire this morning when the Arnprior Steam Laundry was burned. The family of Manager Armstrong lived above the laundry and his wife and four children were cremated. Armstrong himself barely escaped with his life.

SPAIN AND FRANCE FOR MUTUAL AID

PARIS, June 26.—The official text of the French-Spanish understanding was published yesterday. It declares that each government is firmly resolved to maintain intact its insular and maritime possessions in the Mediterranean and Atlantic and binds each country in the event of circumstances arising which threaten to modify the status quo to consult the other with the view of common action. The latter is the most important provision, amounting practically to a military convention for the mutual guarantee of their possessions to the power and each country distinctly points out that agreement was made in the interest of peace, as the status quo cannot be modified without prejudicing the vital interests of the signatories. The declarations contained in the agreement were exchanged May 16.

COAL AND TIN IN P.E.I. ISLAND

St. JOHN, June 27.—Dr. Ellis, of Ottawa, Dominion geologist, who is here making a geological map, has returned from Prince Edward Island where he spent a few days looking into the possibility of developing the coal industry in the Island province. He says a company has been formed to open up the industry. The Dominion government has agreed to subsidize the operations to a certain extent and the provincial government now have under consideration the giving of assistance. Dr. Ellis was down on Friday to look over the matter for the Dominion government. He advised the P. E. Island government to purchase a drill and to loan it to any company desiring its use, the company to pay the boring expenses, assisted by the Dominion government subsidy. The Island government has not yet decided upon its course and until it does so no action can be taken. Dr. Ellis expects to plan in a day or so from them. The plan is to bore in different parts of the Island, the holes going down some 2,000 or 2,500 feet, if necessary. Each boring will take some time and the outlook for striking coal is considered as very bright. Operations will probably be started as soon as the provincial government reaches a decision in the matter.

MUST TELL WHERE THEY GET LIQUOR

SYDNEY, June 26.—Cameron at the Police Court has made the statement that bodies ill for liquor sellers. He announced his determination hereafter to put into full operation the section of the Act passed at the last session of the Legislature, reading: "It shall be the duty of the presiding stipendiary to examine all parties arrested for being drunk as to where they purchased liquor. Failing in this manner to elicit the name of the dealer, the prisoner can be put on oath and, if he refuses to divulge, he may be held for contempt of Court. Any evidence he may give can be used against the man who sold liquor." On Saturday three prominent hotel-keepers in the city were arraigned on evidence gathered in this manner and convictions secured.

CHICAGO MARKETS.

Table with columns for Chicago and June 27, 1907, listing various market items and prices.

SOLD ICE CREAM AND WAS FINED

Because The Day Was Sunday—Enforcing Law At Hamilton Ont.

[SPECIAL BY CABLE.] HAMILTON, Ont., June 27.—Charles Knowles was tried at the Police Court here for selling ice cream, and ice cream sodas on Sunday. The defence was that the place was a restaurant and under Judge Morsee's decision it was legal to sell ice cream, which was food, but Constable Tack swore that when he ordered meals there the waitress told him no meals were served. The Magistrate did not consider that it was a bona fide restaurant and imposed a fine of \$10.

S.S. A. W. PERRY ARRIVES IN PORT

The S. S. A. W. Perry of the Plant Line arrived in port shortly after midnight on her first trip to Charlottetown this year. Hereafter the Halifax and the A. W. Perry will both call here weekly. The Perry brought a quantity of general freight and the following passengers: Bessie McLean, J. Killan and wife, Mrs. M. Glover, Eva Beeson, G. Lewis, Mrs. C. Mahony, G. M. King, Jr., J. Munnahan and wife, Mrs. J. A. Brown and child, Mrs. F. C. Bolner, J. Bowen, G. Byers, A. Hammond, J. A. Stetson and wife, Miss B. Grant, Mrs. A. McCallum, Miss Kelly, Mrs. S. Kelly E. W. Reynolds and wife, L. B. Hay and wife, J. D. Hutcheson and wife.

STEAMER SINKS AND GOES DOWN

SANTIAGO, Chile, June 26.—The Santiago, a Pacific line steamship was wrecked on Sunday. She left Corral with her engines out of order as a result of a storm and instead of returning to Anod she started to return to Valparaiso, a much greater distance. She carried local passengers and 87 of a crew. It is feared that all except two persons perished. The steamer was on the Pacific Steam Navigation Company that only one passenger was aboard the Santiago, wrecked fifty miles north of Corral, and he was drowned. The survivor was fourth officer: All the rest of the crew numbering ninety persons and including twelve English officers perished as far as can be ascertained. Only one boat was launched and it was dashed to pieces after drifting for several days.

KING EDWARD'S LAST LEVEE

LONDON, June 26.—King Edward held the last levee of the season at St. James Palace at noon. Indian war veterans again supplying the most striking feature. The second group of survivors of the mutiny, including seventy officers, of whom no fewer than thirty three were generals and several civilians, were presented by field marshal Sir Evelyn Wood.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when administered through the mucous surfaces, causing through the pores to enter the blood, it is never to be used except on prescriptions from reliable physicians, as the damage they will do to the system is too great to be possibly derived from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Retailers everywhere. Total by druggists. Price 75c per bottle. Use Hall's Family Pills for Catarrh.

THE ROYAL SLAVE AT OPERA HOUSE

The announcement of the Royal Slave served to fill the Opera House last evening and the play as it progressed won hearty plaudits from all present. It will be repeated tonight and it is safe to say that those who were present last evening will recommend it to those who were not fortunate enough to witness the first performance. There is in the play enough of plot, a rich variety of character, an abundance of dramatic situations and thrilling incidents while the story is told in clearcut and sparkling lines. Miss Helen Harrington is an emotional actress of real merit. Martin Tache as the Captain is a typically daring and desperate adventurer, John Arthur as the Eagle, the last of the Montezumas, is a thoroughly original and striking innovation, while Humboldt Jones the newspaper correspondent is at various times too funny for anything. Special scenery gives a fine setting for this strong, clear, stirring drama which all theatre goers will heartily enjoy.

RIOT LEADERS ARE PUNISHED

Reports More Reassuring—Peasants Returning To Work In Vineyards

PARIS, June 26.—A delegation from Nimes interviewed Premier Clemenceau to day and pleaded for the release of M. Ferroul, ex-mayor of Narbonne, and the improved members of the committee of Argeliers and the quashing of the proceedings against the resigned mayors and other members of municipalities. M. Clemenceau replied that the government would show clemency at the proper time, but that nothing could be done until the mayors and municipalities had an example of respect for the law by resuming their functions. The peasants of Argeliers district are returning to work in the vineyard. The reports received from all parts of the districts to the parliament are uniformly reassuring there has been no further violence anywhere, but soldiers in many places are still patrolling the alleys.

REVOLUTIONARY LEADER WEEPS

Gains Audience With Clemenceau And Breaks Down Reproached

PARIS, June 26.—The most interesting event in connection with the winegrowers' revolt was the visit of Marcelin Albert the leader of the disturbing element in the South of France, to Premier Clemenceau. The man for whom the police and troops vainly sought and have been scouring the country for, for a fortnight appeared without warning at the ministry of the interior. He wore the simple garb of a southern peasant, and Albert was admitted to the presence of Clemenceau, with whom he had a fifteen minute talk. Albert was reproached by the premier as the cause of the bloodshed. He broke down and wept pent-up tears.

ADVERTISING IS BROAD.

Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadcast declaration, and the broader the scope of the announcement the better the advertising. No occupied space that directs attention along given and desired lines can be reasonably regarded as wasted; nor can any funds expended to this end be advised extravagance.—American Medical Journal

GREAT INCREASE OF CAPITAL

Employed In Manufactures In Canada An Increase In Five Years Of Ninety Per Cent, Production Also Largely Increased

[SPECIAL BY CABLE.] OTTAWA, Ont., June 27.—The Census and Statistics Department has issued a bulletin today on the capital employed in the manufacturing establishments in Canada in 1905. The amount of capital in manufacturing industries was \$843,811,173, as compared with \$446,916,487 in 1900. This shows an increase for the five years of \$397,000,000 or about 90 per cent, while production increased by \$231,000,000 or about 50 per cent. The disparity in the ratios of increase is due to the inability of recent establishments to produce to full capacity.

Georgetown Man Was Under Fire

Government Fishery Officers Fired on at Dalhousie—Flying Bullets Splintered Wood on Fishery Patrol No. 1. Narrow Escape.

DALHOUSIE, N. B., June 26.—The officers of the little government fishery steamer patrol No. 1, had a narrow escape from death at the hands of a man who fired at them on Sunday forenoon while they were examining salmon nets. The facts are as follows: The steamer, having on board Captain Charles McDonald, of Georgetown (P. E. I.), Daniel Smith, of Halifax, Chief-engineer; George Miller, of Dalhousie, fishery overseer, and two Dalhousie boys named Gauthier and Connors, left Campbellton at 9 a. m. Coming down the north channel, the fishery patrol No. 1, standing in a line, used a small boat for the purpose. After visiting a stand of nets at Point Lennox, a short distance from Dalhousie, and as the steamer was about moving away, several shots were heard. The second shot struck the wheel house, the bullet passing through the window frame on one side and lodging in the frame on the opposite side. SAWS SPLINTERS FLY. Gauthier, who was at the wheel seeing the splinters fly, left and the captain quickly took charge to change the position of the steamer and have the bullets strike in the stern instead of broadside, as he claims that a bullet passed through the wheel house doors that were open on both sides. This incident happened between 10 and 11 o'clock in the forenoon. Although armed, Captain McDonald did not think of retaliating, as he saw a woman in the vicinity of where the shots were fired. It is supposed that a Snider rifle was used, and that the distance between the man who fired and the steamer was about 800 yards. Many people visited the steamer besides your correspondent, and saw the marks of the bullets. The unfortunate affair has been reported to Commander Spain, of the fisheries department Ottawa.

MISS TRUEMAN WON TENNIS CUP

St. JOHN, June 26.—In the third round of the ladies' handicap singles Miss M. Barnaby defeated Miss N. Barnaby; Miss C. Schofield defeated Miss Trueman, and Miss J. Trueman defeated Miss Frances Hazen. In the semi-finals Miss J. Trueman won the cup by defeating Miss M. Barnaby in the finals. Arrangements have been made for a match with the Fredericton Tennis Club at Fredericton on July 6th. The St. John club will send a team consisting of six ladies and eight men. The first round in the doubles tournament will begin this afternoon.

TEN YEARS OF EFFICIENT WORK

TRURO, June 25.—Professor F. C. Sears, B. Sc., whose resignation from the staff of the agricultural college was announced in The Herald on Friday, has been ten years in Nova Scotia, having come here from Kansas. His appointment as director of the horticultural school at Wolfville occurred at that time, and for seven years he served the interests of the fruit growers of the Annapolis Valley, and he has attained a high place in the estimation of all connected with horticultural pursuits. His work has been marked by important improvements. For instance, he was an ardent advocate of spraying for the extermination of insect pests and fungi on fruit trees, and success has followed by a large increase in the quantity and amount of fruit produced. He also conceived, in response to a suggestion from the late secretary of agriculture B. W. Chipman, the system of model orchards, of which they are now thirty-three. Ask for Minard's and take no other.

MARK TWAIN IN HOUSE COMMONS

LONDON, June 26.—Mark Twain spent yesterday in the House of Commons and listened to the debate from the ambassador's gallery. From there he made his way to the lobbies, where he held an informal reception, meeting numerous members of the House, including the President of the Board of Trade and Winston Churchill. Premier Campbell-Bannerman invited Mark Twain to his private rooms, where they conversed together for some time.

THE WEATHER
