Tignish And Palmer Road Dairy Association

A large and enthusiastic meeting of the share holders and patrons of the Tignish and Palmer Road Dairy Association was held at Tignish on Wednesday the 23rd with sixty present. Mr. J. B. Morrissey acted as chairman in the absence of the President, T. M. Nelligan and opened the meeting. The minutes of the last meeting were read and adopted. The Secretary's report was next read and following the auditor's report, and found satisfactory. Remarks were then made by: Messrs W. L. Brenton, F. T. Morrow, Rev. J. A. McDonald, C. F. Morrissey, P. M. Evans, J. B. Morrissey and J. A. Bernard.

SECRETARY'S REPORT

To the patrons and shareholders. We meet here today to look over last year's business and to plan a new for the coming season's work. Our business, like that of others has been affected by the depression in the markets, but while patrons of all factories have had to accept lower prices than for a good many years, still we are not nearly as hard hit as these in some other lines. The annual report shows that we paid an average of 58 1/4 cents per 100 lbs for milk last year while the price in 1930 was 91 cents, a decline of about one third, while the same % of decline is noted in the price of butter fat for the same two years. The receipts of milk declined last year about 100,000 lbs. Some of this decline is attributed to a decrease in the number of milk cows owned by patrons, while more of it can be charged directly to some shareholders who have invested money in the Cheese Factory, but who last season sent cream to the butter factories of other places. Some of these shareholders have recently made enquiries as to whether they would get a dividend on their factory shares for the past year, yet by sending their product elsewhere they have done as much as they could to prevent the paying of a dividend.

Pile Sufferers

Do you know why external remedies do not give quick and permanent relief? Why cutting does not remove the cause? Do you know the cause of Piles internal? LONDON.—Queen Victoria was fired at, at Windsor Railway Station today. She escaped unhurt. The man who fired at the Queen gave the name of Robert MacLean. He is said to be an inhabitant of South sea. General opinion is that the act was the result of lunacy. The miscreant was with difficulty rescued from the crowd. The Queen drove to Windsor Castle immediately after being fired at. MacLean was followed by the police station by a huge crowd of people. The shot was fired as the Queen was about to get into her carriage. LONDON.—If the words of certain women tally with the dictionary definition there is a terrible vengeance hanging over all the members of the House of Commons who oppose Mr. Dickson's women's suffrage bill when it comes up on March 8. "We are going to make it warm for them," says Mrs. Christabel Pankhurst. "We will stump their constituencies and they will be only too glad to get out." The women are holding meetings and preparing for action.

Charles Monaghan

The annual report is before you and brings out the chief points of interest in the workings of the Association. I hope that both patrons and shareholders will profit by the lessons of last year's work, and that the coming season will see a great increase in patrons and a much larger amount of milk sent to the plant and that it will also hold many good things in store for us which will help to alleviate our financial burdens and thus make this country a better place in which to live.

In conclusion I wish to thank the Directors of the past year for their kind and generous assistance at all times and particularly in connection with the replacing of the tubes last spring. All of which is respectfully submitted.

J. A. BERNARD Secy. Treas.

Charles Monaghan

The death of Mr. Charles Monaghan, which occurred at the residence of his son, Amos, North Wiltshire on Holy Thursday, removes one of the Island's oldest and most highly respected citizens and another link connecting the past and the present has been severed. Like many of the pioneers of this province, Mr. Monaghan endured many hardships, but with indomitable perseverance he felled the forest primeval and by his thrift, his industry, his sobriety and strict attention to business, he built up a comfortable home in Kelly's Cross where he spent so many of his happy years. On Monday 28th instant his funeral took place from his old home to St. Joseph's Church, where a solemn High Mass of Requiem was sung by Rev. Dr. Monaghan, Miscouche, son of the de-
