Doctor Brigham Says

MANY PHYSICIANS PRESCRIBE

Lydia E. Pinkham's Vegetable Compound

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant, not because it is a palliative, but simply because it is the most wonderful tonic and reconstructor ever discovered to act directly upon the generative organs, positively curing disease and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience it can be relied upon to effect a cure. The following letter proves it.

Dr. S. C. Brigham, of 4 Brigham Park, Fitchburg, Mass., writes:

"It gives me great pleasure to say that I have found Lydia E. Pinkham's Vegetable Compound very efficacious, and often prescribe it in my practice for female difficulties.

"My oldest daughter found it very beneficial for uterine trouble some time ago, and my youngest daughter is now taking it for a female weakness, and is surely gaining in health and strength.

"I freely advocate it as a most reliable specific in all diseases to which women are subject, and give it honest endorsement."

Women who are troubled with painful or irregular menstruation, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, that bearing-down feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, at Lynn, Mass., for further free advice. No living person has had the benefit of a wider experience in treating female ills. She has guided thousands to health. Every suffering woman should ask for and follow her advice if she wants to be strong and well.

SCIENTISTS SPECULATE ON THE END OF THE WORLD

The Various Ideas Entertained by Men Who Are Considered Eminent in Their Profession—We May All Starve to Death.

Many and varied are the fates which have been forecasted for the world by those who have achieved fame in the realm of science and discovery.

Lord Kelvin believes that in 334 years all human beings remaining in the world will be suffocated by the lack of oxygen to breathe. The great scientist bases his assertion on the ground that, as every ton of fuel burned contained three tons of oxygen, the world's supply of the latter must give out in the years mentioned.

Though this would certainly be an unpleasant end to this planet of ours, a far worse fate is that argued by the famous Russian scientist, Nikola Tesla. It is, of course a well known fact that the earth is surrounded with vast currents of electricity, and the experiments made by balloonists above the clouds prove that these currents are of a density impossible for human beings to fathom. Mr Tesla therefore believes that at some future age this electricity will suddenly burst into flame and so terrible will be the heat that in the space of a few seconds the earth and those who inhabit it will crumble away in dust.

M. Flammarion, the great French astronomer, has calculated that in the twenty-fifth century the earth will be wiped out by a collision with the comet Bella, the proximity of which to the earth a few years ago caused so much uneasiness. The size of the comet in question is such that it would in collision destroy a world several times the size of ours without much damage to itself. In addition to this startling prediction M. Flammarion has taken pains to discover that the shock of the collision would be equal to that between two express trains travelling at the rate of 805 miles an hour, which no living thing on the earth, however small could survive.

The food scare has been more or less a topic of universal comment for some years past, and Sir William Crookes believes that it will be responsible for the end of the human race within thirty years from the present time. During the past 31 years the number of the world's bread eaters have exactly doubled, and if a proportionate increase may be expected during ensuing years some clever people believe that Sir William Crookes' augury may come true. In thirty years he calculates that the amount of bread required will be greater than the world can supply even supposing that it is almost entirely under cultivation. The moral of this would seem to be that we must find a new food—and that quickly.

An even more fearful fate is that prophesied by the Spanish scientist, Senor Rigletto. Fifty-six years from the present time he believes that the world will meet with a tragic fate by collision with two combined constellations, such a combination, in fact, as was noticed early in March of this year. The effect of these planets being so close to the earth would be to destroy the gases which sustain human life and although millions would be killed in the space of a few hours, he argues that the remainder will live for a short time longer in a state of madness caused by the rupture of the earth from its orbit.

SABBATH SCHOOL CONVENTION.

South West Queen's S. S. convention met in the Baptist Church, Kingston, on Tuesday 15 inst.

After Devotional exercises led by H. MacMillan the President A. A. McNeill took the chair.

The first order of business was reading of minutes. The reports of delegates from the several schools were then heard almost all of which were encouraging. The finances of the district elicited a lively discussion in which most of the delegates took part. A paper on "Some things that help our School" was read by H. MacMillan followed by a discussion on helps and difficulties and how to overcome them, then by a blackboard lesson by Field Secretary on "How to interest the scholars" and "How to instruct the scholars". Needless to say all present enjoyed the pointers given by the Secretary.

Session closed with Benediction.

Evening session opened at 7.30 o'clock by devotional exercises led by Jacob Bain. This being annual meeting the nominating committee suggested the following as officers for ensuing year:

George Crewys, Pres.
William Newson, Vice.
Miss Edna Howard, Sec'y Treas.

They were accepted by Convention. The new president having taken the chair the following addresses were delivered. Rev M.H. McIntosh on "Some old fashioned things that help our schools;" Rev William Harrison on the Teacher's opportunities, advantages and rewards;" Rev. David Price on "The Teacher's opportunities from the view point of self interest." Solos by Miss Edna Howard and Rev. David Price added much to the interest of the meeting, followed by an address by Rev. A. D. Archibald illustrated by charts showing the most susceptible age at which men, women and children are influenced for good.

Rev. Mr. Colwill being present spoke a few encouraging words to Sabbath School workers.

After thanks to Kingston friends the closing hymn was sung. Collection $5.21.

SEC.

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere, and nine out of ten will give their customers this preparation when the best is asked for. Mr Obe Witmer, a prominent druggist of Joplin, Mo., in a circular to his customers, says: "There is nothing on the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by all druggists.

—Just one word more before I sit down. I did not come here to speak on any subject, but merely to show my sympathy, and to express my appreciation of the work which Mr. Miller and his assistants are doing. They are doing great and most successful work. Mr. Miller and Mr. Trainor do not come here telling what fine fellows they are, and what excellent students they are turning out, but it is their diploma which they speak of. The diplomas which are granted by an independent body as mentioned by Mr. Trainor—I know that these are indisputable and unquestionable evidences that the work which is done here is of a very high character.—Alexander Anderson L. L. D., Chief Supt. of Education in his address before the students of the Charlottetown Business College, June 1905.

When you go camping see you get a Hercules spring stretcher, cost you from $2.00 to $4.50.—Jas. Paton & Co. 14d and twt.

ALL THIN, PALE WOMEN

Can Learn the Cause of Their Nervous, Used-up Condition.

With women, ill-health is usually traceable to nerve exhaustion. Feeling run-down and tired most of the time is nature's warning that nerve-force is required.

You must build up, nourish the body, vitalize the nerves, get more flesh and blood.

It's the abundant nutriment and building material in Ferrozone that enables it to cure so many sick women. It increases the appetite, adds weight and strength, restores lost color and develops a surplus of energy and nerve force that defies sickness of any kind. There is living proof in Mrs. Daniel Ferguson, Jr., of Prescott, Ont. Read her statement:

"A year ago my health failed. I grew thin and exceedingly pale. At times I was prostrated with nervous and sick headache. All day I was tired. At night it was difficult to obtain restful sleep. My appetite was variable and indigestion bothered me considerably. I became morose and suffered from heart palpitation. You could scarcely believe the benefit I derived in one week from Ferrozone. Color came back to my cheeks. My vitality and appetite increased, renewed nerve force and better spirits came also. Ferrozone did a world of good and made me well."

Remember this: No alcoholic stimulant can nourish and build up like Ferrozone. Fifty cents per box or six boxes for $2.50. At all dealers, or N. C. Polson & Co., Kingston, Ont, and Hartford, Conn., U. S. A.

GOVERNMENT RIFLES STOLEN.

SACKVILLE, August, 22.—Edward White, of Amherst, and Wilson Thompson, Sackville, were before Magistrate Cahill today, charged with having broken into the Sackville Armory and stolen several government rifles. The case is continued.

A Warning to Mothers

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all druggists.

HORSEMAN BADLY INJURED.

AMHERST, Aug. 22.—Fred Ryan, driver for Everil Purdy, was seriously injured at the Amherst Driving Park, today, while driving George Mansfield, Mr. Purdy's pacer. He was speeding at the time when the hobbles became loose, causing the horse to trip. Ryan was thrown violently to the ground, breaking his collar bone in two places, and fracturing his elbow.

Colic and Diarrhoea—A Remedy that is Prompt and Plaesant.

The prompt results produced by Chamberlain's Colic, Cholera and Diarrhoea Remedy together with its pleasant taste have won for it a place in many households. Mr. W. T. Taylor, a merchant of Winslow, Ala., writes: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy myself and also with men on my place, for diarrhoea and colic and it always gives relief promptly and pleasantly." For sale by all druggists.

NOTICE TO THE PUBLIC

The monumental business of the late E. F. Purdy will be carried on as usual under the same firm name, and at the old stand, Kent St. Charlottetown. Mr. E. Ira Purdy, who has for the last twenty years been foreman of the works will still continue in that capacity. While thanking the public for their generous patronage in the past, a continuation of the same is respectfully solicited. The same reliable workmanship and strict attention to business which has always distinguished this firm will be continued under the new management,
