IT PAYS to buy in this province

**RESERVE WEDNESDAY,** March 13th, for Bean Supper in Y. M. C. A., in aid of Great War Veterans' Association. Tickets 35c. 2951-13M31.

**LECTURE.**—Capt. Ulic G. Dawson will lecture on his experiences in the war, in Granville Hall, on Thursday, March 14. Admission 25 and 15 cents. Proceeds in aid of Red Cross. 2975-3-12

**NORTH MILTON.**—The standing of North Milton school for the month of February is as follows: Grade VII.—1. Beatrice Hooper; 2. Horace Coles. Grade VI.—1. Mary Chandler; 2. Elsie Hooper; 3. Robert Carter. Grade IV.—1. Frank McKenzie; 2. Maria MacQuarrie; 3. Eric Coles. Grade III.—1. Fred Younker; 2. Lemuel Neill. Grade II.—1. Margaret Coles; 2. Albert Hooper; 3. Fred Hooper. Grade I.—1. Frances Bolt; 2. Verner Coles; 3. William Neill.

**VALUE OF FARM.**—The average value of farm land for whole of Canada, including land improved and unimproved, together with dwelling houses, barns, stables, and other farm buildings, is approximately \$44 per acre, as compared with \$41 in 1916. The average values by provinces are as follows: Prince Edward Island, \$43.7; Nova Scotia, \$33.6; New Brunswick, \$28.8; Quebec, \$33; Manitoba, \$31; Ontario, \$33; Saskatchewan, \$36; Alberta, \$26.7; British Columbia, \$149. In the last named province the higher average is due to orcharding and fruit growing.

### AERIAL TANKS

The construction of aerial tanks, or, to use the technical term, armored aeroplanes, that will accompany the infantry in the air just as the tanks go forward on the ground, is being considered by the French aviation authorities. The Germans have been using aeroplanes of this type, recognizing the value of this aid to an attack by infantry.

These machines, being necessarily of considerable weight, cannot fly very fast and are useless for scouting or fighting in the air with enemy planes. But the effect on the morale of troops of aeroplanes flying over the heads of the foe, pouring into their ranks volleys from machine guns, was amply demonstrated in the battles in Flanders, when British and French observations and fighting positions and took part in the infantry attacks. Being of the lightest construction and wholly unprotected they were easy marks for rifle and machine gun fire.

To utilize to the utmost the aeroplane in connection with the craft by means of light armor is being considered. This principle may be also applied to other classes of planes. Today French tactical aviation possesses the best multi-plane machines. The Breguets, the Samsons, the Caudron R.H. are of the greatest efficiency. But experience has demonstrated that artillery observation machines are never safe from attacks of the enemy fighting planes, no matter how vigilant are the observers, whose duty it is to defend them. This fact has made it evident that it is necessary to build machines that are able to defend themselves.

The problem of construction is still far from being solved. It is necessary to have specialized planes for reconnaissance, photography and artillery regulation, and there must also be planes for infantry liaison and trench attacks. The first class must be able to fly high and fast; the second, that accompany the infantry, must crawl and go slowly. To crawl at a low altitude they must be armored, otherwise they are quickly doomed to destruction.

Armored planes existed in 1914, and even before the war, but little by little they have disappeared.

On days of attack the French pilots are forced to fly for hours at less than 300 feet from the enemy trenches, filled with machine guns. For several months the Germans have employed an Airship of the Junker type, entirely made of metal, all of whose machinery, motor and guns are protected by a shell proof armored covering. They are thus able in the very face of enemy infantry to attack without much danger to themselves. It is to meet this emergency that the allies are now considering the building of aerial tanks.

### Forethought

"I think we'll take up the collection before the sermon today," decided the minister, "for I'm going to preach on conservation."

We have been using MINARD'S LINIMENT in our home for a number of years and use no other Liniment but MINARD'S, and we can recommend it highly for sprains, bruises, soreness or tightness of the chest, soreness or tightness of the head, ache or anything of that sort. We will not be without it one single day, for we get a new bottle before the other is all used. I can recommend it highly to anyone.

**SOLDIERS OF THE SOIL.**—The St. John Telegraph says: Mr. L. A. Buckley, the maritime boys' secretary for the Y.M.C.A., was in the city yesterday making arrangements for the recruiting of boys in the Soldiers of the Soil movement that is being promoted in the interests of increased production, and of which Mr. Buckley has been appointed the director for the maritime provinces. The movement is under the direction of the Canadian Food Board, and aims to get boys between the ages of fifteen and nineteen to take up work on farms during the summer vacation. A national medal is being given to each boy who works in the summer on his father's farm or is placed on a farm by the provincial director of the work. It is learned that the work will be more carefully supervised than was the case last year and so there will be no room for the differences which occurred in some cases between the boys and the farmers. Mr. Buckley said that the United States are now in such a position that they cannot send over any more food to Europe without either economizing or increasing the production. Canada is in the same position and it is up to the boys of the country who are not old enough to perform military duty in France, to get behind this movement and do their bit for the country during these times. The men are doing their part in France, will the boys over here back them up—Mr. Buckley is expected in this city today to arrange for the work here. He says that the machinery of the Y.M.C.A. will be utilized to get the boys to go in for the work on the farms.

## TRYON DAIRYING HOLD ANNUAL MEETING

The annual meeting of the Tryon Dairying Company was held in the recreation on Tuesday, March 5th. There was a very good attendance of both the shareholders and patrons. Messrs. Walter Lea and Chas. Cooke were present. Mr. Lea gave a splendid address on the dairy industry, showing the many advantages obtained from same. Mr. Cooke gave a report of his work and emphasized the importance of every patron taking up his work.

The statement of the company was the highest in its history. The total pounds of butter manufactured in the year was 110,771 pounds, value \$47,155.23; average price realized for butter was 42.53 cents. The average net value of butter fat to patrons was 65.15 cents. Six settlements were made in the year. Last year the company offered prizes to the amount of \$41.00, divided into eight prizes, to the patron who produced the largest amount of butter fat per cow during the year. In order to compete in this prize the patron had to keep records of his cows. The late Hon. John Richards, Bedford, P.E.I., donated a valuable silver cup to the patron winning first. The cup to be won two years in succession before it became the property of owner. Mr. Fred Woolley was the winner of this trophy making an average of \$139.14 per cow. The winners of the prizes were as follows:

Prize	Name	No. of cows	Average per cow
1st.	Fred Woolley	5	\$139.14
2nd.	Hamilton Leard	4	130.26
3rd.	Fred Leard	8	118.74
4th.	Jas. E. Dawson	8	112.54
5th.	D. J. Thomson	5	110.94
6th.	Luke Wood	9	105.52
7th.	Jas. E. Howatt	9	103.01
8th.	Jas. E. Howatt	6	101.75

In addition to the above prizes Mr. Fred Woolley donated a special \$5.00. This amount was divided into two prizes, \$2.00 and \$3.00, and given to the boy or girl that would write the best Essay on Dairying. The schools in competition for this prize were: North Tryon, Augustine Cove, Cape Traverse and Albany. Thirty essays were received from the different schools, the work was judged by Prof. W. J. Reid, Charlottetown. The first prize was won by Miss Mable McWilliams, North Tryon, score 89; 2nd prize by Albert Calbeck, North Tryon, score 81; the four scoring the next highest were Miss Bessie Dougherty, Cape Traverse, score 75; Margaret Webster, Augustine Cove, score 70; Keith Lord, Cape Traverse, score 65; Lorne Carruthers, Augustine Cove score 62.

The company voted this year \$20.00

## Let the Cold Air Liven Your Pulse and Put Roses in Your Cheeks

Don't deny yourself the pleasure, out door life at this season. Breathe deeply and enjoy yourself. You needn't worry about the exposure harming your skin or complexion if you use

### OUR VELVET SKIN LOTION.

It is soothing and healing, and will prevent chaps. It is daintily perfumed, and is not greasy or sticky. PRICE 35c.

We also have an excellent line of FACE CREAMS, MASSAGE, CREAMS, TOILET SOAPS, VANISHING SOAPS, ETC., which the particular woman needs in caring for her skin and complexion.

# A Pair for a Pair

Each Pair of Shoes should be Fitted with its Own Pair of Rubbers

YOUR shoeman will tell you that a shoe wears better and is more comfortable if fitted with Rubbers made to suit its particular style and shape.

There is no economy or comfort in trying to make one pair of Rubbers do service on several pairs of shoes.

And there's no need of your doing so, because the enormous demand for Rubbers makes it possible for us to offer a most complete line of shapes and styles to fit any and every shoe.

There's a style and shape for every shoe—for men, women and children—in these six brands of staunch, well-fitting Rubbers, carried by the leading shoemen.

"Jacques Cartier" "Dominion" "Merchants" "Maple Leaf" "Daisy" "Granby"

Ask for these brands—they give the best wear

to be given in prizes to the schools, also \$30.00 for the Red Cross Society. The following are a few of the largest patrons: Joseph Noonan \$1132.26; Fred Leard, \$949.95; Luke Wood, \$949.69; Jas. E. Howatt, \$927.08; Jas. E. Dawson, \$906.35; Geo. H. Calbeck, \$751.87; Austin Cameron, \$732.80; Joseph Thomson, \$726.68.

The directors for the incoming year are Messrs. D. J. Thomson, George Wood, Jas. E. Howatt, Geo. Calbeck, Job Inman, J. B. Wood, Joseph Noonan.

### OLIVER C. ORR TELLS OF XMAS AT KEARNEY

The following letter from Private Orr will be of much interest here, as he is a son of Mr. George Orr, of French River, and has been away for two years. He is attached to the 144th Field Artillery:

Camp Kearney, Cal., Dec. 25, 1917. Dear Auntie: Guess I will have to stand up to write, for I am so full of good eats that I'm afraid that if I sit down I will never get up again, but guess I will take a chance.

We certainly had some dinner here today: turkey, shrimp salad, all kinds of fruits, candy, nuts and everything that is good we had. The captain's mother gave us each a mess kit and bag, and it was full of all kinds of things. Also the Red Cross from Richmond gave us each a package of writing paper, cards, lead pencils, two handkerchiefs, two socks of Durham tobacco, cigars, cigarettes and a box of dates, then after we were through with our dinner a couple of ladies came into the mess hall and gave each of us a sweater. Some class to us soldier boys—just see what the fellows miss who went home.

They had a Christmas tree at the Y.M.C.A. last night. It was about thirty feet high. I do not know where it came from, but it sure was dandy. They had all colors of electric lights on it and they had 500 boxes of oranges and 300 boxes of apples, which were passed among us. There is going to be a big dance and supper in town tonight, to which we are all invited.

## A Cry of Distress

In the night—the sudden cramp—the dangerous chill—the aching throat—the throbbing spine—the sudden pain from many other common ills are quickly halted by

**JOHNSON'S ANODYNE LINIMENT**

the "first aid" for human ills for over 100 years. Whether you need it internally or externally, you'll find this soothing, heating, pain destroying anodyne an ever ready Angel of Mercy

Suppose Ira Thomson would have some good time at home, but he don't know what he is missing down here when he returns. I wish you could come down New Years for a visit, as I got four days off, from Saturday noon until Wednesday at midnight. I guess I had better close for this

OLIVER C. ORR.

## Lobster Packers Would Do Well To See Us Before Ordering Their Supplies

This is the proper place to purchase your requirements for your factory, because we stock goods of all the largest manufacturers, and buying direct from them, we are in a position to quote you the lowest prices.

We are headquarters for Lobster Packers' and Fishermen's supplies. Quotations gladly given on any of the articles listed below, and prompt shipment assured.

Make a Note of Your Requirements From This List

- SPARK PLUGS.
- BATTERIES.
