NEURALGIA SETTLED IN HER LUNGS

No Relief From The Pain Until She Took "Fruit-a-tives"

CAMPBELLVILLE, ONT., MAY 25th, 1913. "I cannot speak too highly of "Fruit-a-tives". For over thirty years, I have suffered from chronic Neuralgia and Constipation, experiencing untold agony. The Neuralgia settled in my lungs and I took bottles of medicine without relief. The doctor told me I would not get better but "Fruit-a-tives" proved that the doctor was wrong by giving me quick relief and finally and completely curing me. "I would not have my present health if it were not for "Fruit-a-tives" and I am glad of this opportunity of giving you this letter about such a splendid remedy as "Fruit-a-tives".

WEDDING BELLS.—A company of friends and acquaintances assembled in St. John's Church this morning, says a Vancouver exchange, to witness the marriage of Alderman Sanford J. Crowe and Miss Laura McLeod, which was celebrated at 9.30 o'clock. The ceremony was performed by Rev. E. Leslie Pidgeon, pastor of St. John's Church, assisted by Rev. George D. Ireland. Alderman Crowe is well known throughout the city as one of the early residents of Vancouver, having lived here for the past twenty-six years. The bride, who was formerly of Charlottetown, Prince Edward Island, is the daughter of the late Captain James McLeod and Mrs. Mary McLeod, now residing at 1060 Barclay St. and a sister of Mrs. John MacEwen, of New London, P. E. I. Mr. and Mrs. Crowe left on the 10.30 boat for Seattle, from which point they will go east, and in the course of their tour will visit Chicago, Boston, other United States cities. They will make the return journey by way of the southern states and expect to be back in Vancouver in about two months.

THE WAR AND LIVE STOCK.—The Department of Agriculture has received an enquiry regarding the live stock situation. The belligerent countries in the present war are calling for large quantities of meat and Europe is not in a position to supply a fragment of what is needed. During the last few years the meat supply has been gradually on the decline and the war has now intensified the scarcity. On this account it would seem advisable that farmers in Prince Edward Island should at once arrange to put on the market more poultry, more hogs and more sheep. For all of these classes of live stock there is a certainty of an abundance market. The Live Stock Branch of the Dominion Department of Agriculture is pointing out the opportunities in sheep-raising for Canadian farmers, and they have issued a pamphlet entitled "Some facts worth serious thought by Canadian farmers" in which they enumerate the advantages of sheep raising as follows: "The sheep is a dual purpose animal producing both wool and mutton. The initial expenditure is small. Every farmer can well afford the investment of the necessary capital in a few sheep. Rapid monetary returns are received, the wool clip and the lamb crop being saleable annually. Expensive buildings are by no means necessary. A warm lambing pen is required, but for the aged sheep, a sheltered shed to protect them from the winter wind is alone sufficient. Wed destruction represents another asset. Sheep will eat and relish almost every class of weed. Sheep admittedly improve soil fertility. Their manure is rich and uniformly distributed. Except at certain seasons of the year, less time and attention need be bestowed upon the care of sheep than in the case of almost any other animals without thereby endangering successful results.

Both Branches of the Drug Business Have Due Attention Here

The drug business has two distinct branches—one professional, the other commercial. In our relations with the public we endeavor to draw a well-defined line between the two phases of the business. In our prescription department or in the sale and dispensing of drugs we give careful, scientific attention. In the Mercantile side—the sale of drug sundries, toilet articles, etc—we also give the best service. We feel justified in pushing this branch of our business, for we believe that it is impossible to give suitable service in either branch unless we do it in both.
