

**Regulate Kidneys AND Relieve Constipation**

Gin Pills are acknowledged to have the largest sale of any proprietary medicine in Canada—an achievement solely due to their remarkable virtue as a Kidney and Bladder remedy.

But users of Gin Pills have discovered that this invaluable remedy also acts as a mild cathartic. The evidence of hundreds of letters we have received establishes the very logical fact that in compounding a medicine to heal and tune up the Kidneys and Bladder certain of the ingredients have a stimulating effect upon the other organs, especially the bowels.

It is important to know, in the case of constipated patients, that Gin Pills do not act harshly on the bowels; there is no gripping, but a gradual and gentle restoration of the function. Try Gin Pills for constipation. In thus relieving the bowels, you safeguard yourself against possible Kidney trouble.

Gin Pills are 50c. a box, or 6 boxes for \$2.50 at your dealers. A trial treatment will be sent upon request.

Coy., 55th Overseas Battalion, who left Valcartier with his regiment last October and has since been training in England, will regret to learn that he has met with a serious accident which might very easily have proved fatal. On January 3rd he was knocked down and run over by a motor ambulance and is now in the Western Heights Hospital, Dover, recovering from his injuries, which are not now thought to be dangerous. His worst hurt is a broken leg, the fracture being just above the knee. He is, however, making a good recovery and hopes soon to be fit for active service again.

**KENSINGTON EGG CIRCLE.**—The annual meeting of the Kensington Egg and Poultry Association was held in the Temperance Hall on Thursday evening, February 10th, 1916, with a good attendance. The minutes of the last general meeting were read and adopted, after which the manager gave a report showing a fairly good year's work which was discussed at some length. A wagon was started on the road to collect eggs toward the end of the season, but on account of its lateness in starting it was not as profitable for the manager as it would have been earlier. But high hopes are held for a good season upon which a good board of directors have anything to do with success, then success is bound to come to the Kensington Egg Circle. Owing to the Auditor not being able to have the books for a sufficient length of time before the date of meeting he was unable to give a very full report at the present. It was decided to allow him a little more time, and to bring a report in later. The management of the circle for the coming year was brought up for discussion, and it was decided to endeavor to get a man to go on the road and collect eggs, the securing of which was left in the hands of the directors. The following is a list of officers and directors for the coming year:—President—C. M. Howatt, Robert Douglas, Harry Brown, Joseph McLellan, P. S. McIntyre, I. Lowther, Wm. Caseley, J. J. Walker. Auditors—J. F. Proffitt, Wm. Johnson. The president and secretary were appointed as delegates to Central Association at Charlottetown. Mr. Wm. Kerr, Maritime Poultry representative, gave a very inspiring talk on the co-operative and wholesale side of the business and in speaking of the financial part spoke very encouragingly. Every part of his excellent address was listened to with good attention and one would readily decide that Mr. Kerr was the right man in the right place. A vote of thanks was tendered to Mr. Kerr for his able and instructive address, to which he appropriately replied. T. W. Bentley, Secretary.

The island members of the Minto crew arrived in Charlottetown Saturday by the S.S. Prince Edward Island. Captain Read and his crew of forty-eight men arrived in New York on Monday, 14th, the crew proceeding to Halifax, and Capt. Read following on Thursday. In an interview with a Guardian representative while en route to Halifax on Thursday Captain Read stated that the Minto's voyage to Russia was an exceedingly rough one, with a return trip by the S.S. Bergeford of the Norwegian-American Line was little better. The Minto, under command of Capt. Read, left Sydney on November 27. On December 2nd she ran into a gale which necessitated laying the ship to rest for twelve hours with oil bags trailing to windward. Notwithstanding the seas broke over the steamer, breaking three of the pilot house windows and flooding the wheel house and the Captain's quarters, carrying away the forecastle companionway, flooding the forecastle and necessitating the crew taking up their quarters in the saloon. Later the steamer shipped a wave which badly damaged one of the boats and carrying away several of the teakwood doors, completely gutting the chief engineer's cabin and causing him considerable loss, among other things his certificate. After this storm had cleared away temporary repairs were effected, but shortly afterwards another storm was encountered. This time a wave was shipped which started the front of the saloon to such an extent that the woodwork inside was cracked and a number of deadlights broken. It was not until the ship got north of Iceland that fair weather was encountered. The ship's first call was at Alexandrovich, Russia, the only ice-free port within the Arctic Circle. Here she coaled and took on a supply of provisions, after which she proceeded to Yankanka, Russia, and thence to Archangel. The White Sea was full of ice and all traffic was held up. The Minto here went to work to assist the shipping that had been tied up and succeeded in releasing nine or ten vessels. The Minto then proceeded to Archangel, which was also full of ice. The ship was delivered at Archangel Bar, and the officers and crew drove from there to the city by road with the mercury 35 below. Some of the men had fingers frozen, but none of them suffered seriously.

On arrival at Archangel, the captain and officers were given a great reception by the port officials, a banquet being given in their honour. The speeches by the Russian officials, which were translated by an interpreter for the benefit of the Canadians, were eulogistic of Canada and Canadian and most interesting. The men were made of the excellent work done by the Minto in liberating the ships frozen in the White Sea, while the Canadian Government came in for a large share of praise in placing the ice-breakers at the service of the Russians.

**SOUTH AFRICAN VETERANS.**—A meeting of the South African Veterans was held Saturday evening in the Magistrates Court. Out of about 150 men from this province who took part in the South African campaign it was found there were only fifteen now residing here. It was agreed that the most fitting celebration of Paardeburg Day (27th February) would be a memorial service in St. James Church and the usual decoration of the monument after the service. Col. Campbell has agreed to allow his men to participate in the services at the church and at the monument.

**SOMEWHERE IN FRANCE.**—The following extracts are from a letter received by Miss Margaret McEachern, Souris East from her brother Lieut. J. N. McEachern who is now at the firing line in France:—"Just a line to let you know that I am well, hoping you are all the same. Crossing the Channel to France was not a pleasant time. It took us nine hours. Eight of us were on deck with life belts all ready for a plunge, but we got over all right. It is kind of quiet here at present, not much heavy fighting but getting ready for a big drive soon. We are relieving the 1st Division Artillery who are resting for a month. After that we'll have our own share of the line to watch. The shells make quite a noise, but like everything, you get used to it and can tell where they are going. For every shell the Germans send, you can send ten back. Fine weather here, farming all over but ground very soft. I received your Xmas box also a box of all kinds of good stuff from the Red Cross. I'm writing in a dug out under difficulties, shells etc. So will say Good Bye, Love to all. JACK."

**A Most Extraordinary Cure of Epileptic Fits**

MOTHER HAD APPEALED TO THREE DOCTORS IN VAIN—CURED FOUR MONTHS AGO BY USE OF DR. CHASE'S NERVE FOOD

This letter from Mrs. Noxel is endorsed by Mr. H. J. Mahaffy, druggist, Port Colborne, Ont., as being true and correct. While it reports a most remarkable cure of epileptic fits by use of Dr. Chase's Nerve Food, it only goes to corroborate similar cures reported by others.

Mrs. Henrietta M. Noxel, R. R. No. 1, Hamabrook, Ont., writes: "I cannot help writing to you, as I want you to know what a blessing Dr. Chase's Nerve Food and Kidney-Liver Pills have been to my boy. He was taken with very violent fits, would twitch all over, his eyes would turn towards his nose, his jaws set and his lips turn almost purple. He would clench his fists tightly, become unconscious, and then go into a long sleep. After several hours he would wake up sighing and so weak he could not stand. I was afraid he would die and took him to the doctor, who pronounced his case epilepsy. As his medicine was not effective and the fits continued, I took him to another doctor at Port Hill, but his medicine seemed to make him worse."

"As the boy's nerves were in such a state that he could not sit down or lie down, and the fits continued, I took him to a third doctor, who said that he would not undertake to cure epilepsy, as no doctor could cure it. That night I went home very much discouraged, and when I took my dose of Dr. Chase's Nerve Food and Kidney-Liver Pills, it was the first night in weeks that he slept well. I kept on giving him the Nerve Food three times a day and occasionally a Kidney-Liver Pill to keep the kidneys and bowels active. I can, with a clear conscience, say that he has not had even one fit since beginning this treatment. I give him no other medicine. He looks and feels well, and as there have been no returns of the old trouble for four months, I believe he has been cured. I can never cease to be grateful to the manufacturers of these medicines, for I am sure I would have lost my boy if it had not been for Dr. Chase's Nerve Food."

Mr. H. J. Mahaffy, druggist, Port Colborne, Ont., writes: "This is to certify that I am acquainted with Mrs. Henrietta M. Noxel, and believe that the statement she has made in regard to Dr. Chase's Nerve Food is true and correct."
