### BANK ROBBERS FAIL TO MAKE THEIR GETAWAY

Steal \$12,000 From  
Michigan Bank, But  
Are Soon Appre-  
hended.

(Special to the Guardian)  
TORONTO, Ont., May 24.—Early  
yesterday morning two armed young  
men unlocked the door of a bank in  
Pontiac, Mich., with a stolen key,  
forced the bank staff to lie face  
downward on the floor and scooped  
\$12,000 in cash into a club bag.  
Jumping into a motor car which  
they stole from its owner at the  
point of a gun they dashed for an  
airfield and into an airplane the  
couple tossed their loot. Then they  
stole the plane. One who had just  
recently taken a few lessons in fly-  
ing, took the controls. Taking off,  
he headed the machine towards Can-  
ada. Out of gas, they landed their  
plane near Chatham, abandoned it  
and slipped into the western Ontario  
city. After stopping a while at a hot-  
el there they boarded a train for  
Toronto. At the Union Station here  
the bandits stepped out of the train  
to transfer to the Montreal flier and  
walked into the arms of the Toron-  
to police.  
They were caught because they  
carelessly left one package of their  
stolen bills in the hotel at Chatham  
which was spotted by an observant  
chambermaid who was instrumental  
in tipping off the police. The pair  
under arrest gave their names as  
Louis Kisch, 21, of Detroit, and Ad-  
am Morgan, 20, of Pontiac. Toronto  
police recovered most of the money  
stolen from the Commercial and  
Savings Bank at Pontiac when they  
made their capture. Burdened with  
a bag full of money, which was so  
heavy they could hardly carry it, the  
two men were met by police as they  
stepped from the train. They were  
taken without a struggle to No. 3  
police station where it was stated  
last night they had confessed the  
robbery and waived extradition.

(Canadian Press)  
OTTAWA, Ont., May 24.—Grow-  
ing confidence in industrial and fi-  
nancial circles that the economic  
trend in Canada is on the up-  
grade, is reflected to a certain extent  
by Canadian Government statistics  
issued during the past week. While  
the basic industry of iron and steel

### CHARGED WITH THE WHEAT THE MURDER OF CONFERENCE VIVIAN GORDON

(By George Hambleton, Canadian  
Press Staff Correspondent)  
LONDON, May 24.—The wheat  
conference has adjourned. After five  
days deliberation, representatives of  
the wheat exporting nations of the  
world concluded their sessions yester-  
day and the result of the confer-  
ence, according to Hon. G. Howard  
Ferguson, Canadian High Commis-  
sioner to Great Britain, and chair-  
man at the conference, was:  
It has established the principle of  
international cooperation amongst  
the wheat growing and food produc-  
ing countries of the world. Recom-  
mendation will be made to the var-  
ious governments that a central or-  
ganization, somewhat in the nature  
of a clearing house for information  
and advice should be established,  
that all the exporting countries  
should be members in it and parties  
to it. This will enable those interest-  
ed in wheat trading to secure accu-  
rate information that is open to all  
the exporting countries and will en-  
able an exchange of views and thus  
do a great deal towards stabilizing  
the position and towards preventing  
undue market oscillation and uncer-  
tainty.

production from the preceding  
month, an increased demand was  
reported for structure steel, for  
bridge building and for iron for the  
railway rolling stock industry. Pro-  
duction of automobiles showed a de-  
cided increase in April and for the  
first time since last June, financing  
of new automobiles exceeded that of  
used cars.

### Solution Of Problem Of Unemployment

Is Urged By Pontiff In His New  
Chart Of Labor Given To The  
World Yesterday.

(Canadian Press)  
VATICAN CITY, May 24.—The Catholic Church's new  
chart of labor was given to the world yesterday by Pope Pius  
XI, who based it on the promise of plain, simple justice and  
of man's right to earn enough to keep his family happy  
Championing this right, the Pope emphatically condemned  
"economic dictatorship," degradation of the state by morbid  
interests, the present economic life which he described as  
"hard, cruel and relentless in its measure," and Social-  
ism and Communism. The Pontiff said two evils rise from  
modern industrialism. One is an economic abasement of the  
workman, the other is moral degradation of both employees  
and employers.

His mind shudders, he set out, at  
"the frightful peril to which the  
morals of workers and the virtue of  
girls and women are exposed in mod-  
ern factories."  
For the first evil the Pope recom-  
mended:—1. A living wage which  
enables a man to keep his family  
and save a portion of his income.  
2. Better distribution of wealth.  
3. Limiting free competition and still  
more economic domination. Four-  
A partnership arrangement whereby  
workers share in business profits.  
5. Determination of mutual arrange-  
ments between capital and labor,  
according to the laws of strictest  
justice supported by christian char-  
ity.

your imaginations to work upon the

who live within them." This was  
the counsel given today by very Rev.  
J. P. Llwyd, Dean of Nova Scotia,  
to members of the National Chapter

Empire, at the intercessory service

over a very muddy track in one min-
