Hitler Ordered To Disband Army

German Socialist Leader's Shock Troops Numbering 400,000 Must Go, Says Hindenburg.

BERLIN, April 13. (A.P.)—The German Government today ordered Adolf Hitler to disband his army of 400,000 Nationalist Socialist shock troops and to put an end to the terrorizing activities for which it held him and his legions responsible.

This sudden blow at the strongest single political organization in the nation came in the form of an emergency decree signed by President Paul von Hindenburg. As soon as it was promulgated police throughout the country proceeded to enforce it by invading the various Nazi headquarters and seizing materials of war and propaganda.

The presidential decree dissolved immediately "all quasi-military organizations of the National Socialist Workers party, especially the storm troops and police formations, with all staffs and other institutions belonging thereto, including observers and reserves, motor, mar-

An intensive search has revealed no clue to her whereabouts or fate, and it was generally believed she had been drowned in the Saint John river, possibly falling from the railway bridge here.

MINIATURE BLIZZARD HITS MONTREAL

MONTREAL, Que., April 13.—(By the Canadian Press)—A silver rain down Montreal's spine today as King Winter attempted to wrestle control of the weather from spring. The old gentleman did not quite succeed; but he did make it exceedingly uncomfortable for those caught out in garments which had looked reasonable in the morning. He sent a snow storm which lasted for an hour or two and at its crest reached near blizzard proportions. It soon died down and by this evening had melted off the streets.

Many a dainty shoe was ready for the cleaner or the ashcan, depending upon its material, after its owner was forced to plough through the inch of muddy snow deposited in her path.

The flooded condition of many rivers which overflowed the banks during the past few days owing chiefly to ice jams was reported generally as receding tonight. Considerable inconvenience was still being experienced at Beauceville where the lower sections were buried.

E. N. Rhodes, Minister of Finance, told the House of Commons this afternoon. The minister was replying to a question asked by T. F. Ahearn, (Lib., Ottawa), who wanted to know also if the cheques sent out April 15 would bear the ten per cent salary reduction.

On the latter phase of the question Mr. Rhodes said it would depend upon passage of the bill providing for the reduction, now in final stages in the House.

Jilted Youth In The Toils

(Canadian Press)
LIVERPOOL, N. S., April 13.—Frederick Guest, 20 year old admirer of Miss Pauline White, 15, was today committed to stand trial before the Supreme Court for the attempted murder of Miss White on Saturday night. The girl took the witness stand at the preliminary hearing today, bandages on her face, neck and arms, and told of having been attacked by Guest, razor in hand, on Saturday night, when she went shopping with her mother, refusing to keep an appointment with him.

Bleak Picture Of Broadcasting Conditions In U.S.

OTTAWA, Ont., April 13.—(By the Canadian Press)—A bleak picture of broadcasting conditions in the United States was given the house committee on radio today by Dr. J. E. Morgan, spokesman for the National Committee on education by radio, Washington, D. C., and Dr. Lee DeForest, described as the father of radio broadcasting. The submission of Dr. De Forest was read to the committee by Graham Spry, head of the Canadian Radio League, the organization leading the fight for public ownership of radio broadcasting in Canada.

Dr. Morgan charged that powerful interests were spending a million dollars a year in propaganda in the United States to keep control of radio in the hands of private interests, that educational efforts were being stifled by these interests, and the right of free speech on the air threatened. The Federal Radio Commission, appointed by act of Congress in 1927, had functioned weakly and failed to carry out its responsibilities of conducting the industry "in the inter-

est of public welfare, convenience and necessity," Dr. Morgan contended.

Dr. De Forest also bitterly expressed himself regarding radio conditions in the United States. "In the space of a few years," he wrote, "we in the United States have seen the radio so debased by commercial advertising that many house-holders look upon it in the same light as a bothersome itinerant salesman. Much of the direct radio advertising was "a vulgar, cheap jack-show designed to draw dollars out of the people's pockets," he declared.

Further argument in support of public ownership of radio was contained in a brief submitted by J. L. Isley, (Lib., Hants-Kings), a member of the committee, on behalf of Professor C. H. Mercer of the Department of Languages, Dalhousie University, Halifax, N. S. Professor Mercer has been interested in educational broadcasting for some time and studied the systems in vogue in several European countries.

Newfoundland's Legislature Will Resume Session

ST. JOHN'S, Nfld., April 13. (By the Canadian Press)—Newfoundland's House of Assembly will resume its session next Tuesday, April 19. Business before the legislature will be concluded as quickly as possible; dissolution will be asked, and an election will be held without delay. Decision to this effect was reached at a caucus of the government party today.

Sir Richard Squires, present Premier, will lead the party in the election campaign, but Sir William Coaker, Minister without Portfolio, W. W. Halfyard, Minister of Posts, and Hon. Dr. Arthur Barnes, Secretary of State, will retire from public life.

The government's intentions with regard to the citizens' resolution asking "proper investigation" of charges that minutes of council had been falsified, were not disclosed after today's caucus.

Saskatchewan House Prorogues

REGINA, Sask., April 13. (By the Canadian Press)—To the tune of "back up your troubles" members of the Saskatchewan Legislature literally put the words into effect as the prorogation of the fourth session of the seventh legislature came into effect, this afternoon.

Long days and nights of wrangling, of bitter attacks and counterattacks came to a close with the members on both sides of the house entering into the spirit of goodwill.

Attempted To End Lives Of Entire Family

TORONTO, Ont., April 13.—(By the Canadian Press)—Mrs. Corinne Chapman, 29, today attempted to end her own life, that of her six months old baby, and her mother and sister, according to the police. Mrs. Chapman, before the family had arisen, is alleged to have walked into the kitchen of her flat, turned on all the gas jets, then with the baby in her arms, climbed to the roof of the house and jumped off. She was found lying in the snow, and is now in hospital terribly injured. The baby escaped serious harm.

While her father, A. H. Taylor, and her six year old son were out of the house, the woman turned on the gas, climbed to the porch roof and jumped. She was found in a lane alongside the house by a passing milkman.

The mother, Mrs. A. H. Taylor, and Mrs. Chapman's sister were awakened by the smell of gas and turned off the jets as the police arrived. Neither was affected by the fumes.

Gangster Arrives In Maritimes?

Man Resembling Harry Fleischer, Detroit Racketeer Wanted For Questioning In The Lindbergh Kidnapping Seen In St John And Halifax.

HALIFAX, N. S., April 13.—(By the Canadian Press)—A man who strongly resembled pictures of Harry Fleischer, Detroit gangster wanted for questioning in connection with the Lindbergh kidnapping, endeavoured to get a job aboard the steamer Fernfield Sunday and Monday. Four persons who saw him, including T. D. Farquhar, of the Farquhar Steamship Company, owners of the Fernfield, and Robert Salter, chief of harbor police, have since been shown pictures of Fleischer and think the waterfront job-holder may be he.

Turned down by the steamship company, the man told Mr. Farquhar "when a fellow wants to go right you won't give him a chance." The possibility that he may have made a later arrangement with the captain will be checked tomorrow when the Fernfield puts in at

Shot In The Back, Boy Dies

(Canadian Press)
NEW WATERFORD, N. S., April 13.—Accidentally shot in the back, Henry McKinnon, 15, died almost instantly today in the home of a neighbor. He was reading with a couple of young friends in a room adjoining the kitchen in John White's house, when a bullet from a .22 calibre rifle Arthur and William White had been using to shoot seals, crashed through the partition and entered his back below the shoulder.

Mrs. White and a seven year old boy were the only occupants of the kitchen at the time. It is believed the boy was tampering with the weapon and in some way discharged it.

GOVERNMENT COMMENDED RE TARIFF

Wise Action Of Conservative Gov't. In Invoking Anti-Dumping Legislation Stopped Flood Of Surplus Products Of U. S. Factories Into Canada.

OTTAWA, Ont., April 13.—(By the Canadian Press)—Commendation of the Government for its action in respect to the tariff in 1930 was voiced by A. M. Edwards, (Cons., South Waterloo), in the House of Commons today. Continuing the debate on the budget, Mr. Edwards said that Canada might very easily have been flooded with the surplus products of United States factories had it not been for wise action by the Government in invoking anti-dumping legislation.

United States manufacturers, said Mr. Edwards, had a zone system, in his own particular zone the manufacturer south of the line kept up prices to the level which he considered they should maintain.

When he sold his surplus outside that particular zone, however, he frequently slaughtered prices in order to compete with his rivals. Canada was outside these zones.

HUNT STILL GOES ON FOR LINDY BABY

Tracing of Ransom Money Now Seems To Hold Spotlight Of Kidnapping.

(Canadian Press)
HOPEWELL, N. J., April 13.—The 72-year-old "Jafie" of the Lindbergh case rode an elevated train and a motor car in quest of new contacts with the kidnapers today while police followed the trail of one of the bills he used in a \$50,000 ransom payment.

Other clues led to Canada. A man giving the name of D. D. Dickerson of New York was detained at St. Thomas, Ont., when police found he had letters addressed to the Lindberghs. He explained he merely was sending suggestions for locating the child and the importance of this development appeared negligible.

The Royal Canadian Mounted Police were asked to aid in apprehending Harry Fleischer, Detroit gangster long sought for questioning and now believed to be seeking to board a boat for abroad, possibly from Halifax, N. S.
