YESTERDAY'S STOCK AND BOND QUCTATIONS

MARKET GOSSIP

(By John L. Cooley, Associated Press Financial Writer)

NEW YORK, Aug 29—The bull campaign in financial markets was pursued with vigor, but it met considerable opposition from profit taking sales today.

Stocks pushed up vigorously at times, with coppers and a sprinkling of utilities and industrials advancing briskly, obtaining considerable support from advancing commodities.

Sales totalled approximately 3,900,000 shares.

The movement in the coppers followed strength of that metal in the London market during the past week, and was accompanied by unconfirmed rumors that domestic producers were planning a sharp increase in the metal price here, to take advantage of the four cent—pound tariff. The metal showed a firm tone at 5½ cents a pound.

American Smelting touched 24, a new high for the year, and closed at 22¾, up 1½ points. Anaconda and Kennecott rose 1 to nearly 2 points, and maintained most of their gains. Green Cananea rose 2½ to 21, a new high for 1932, in a small turnover. In the utilities, members of the electric bond and share group were notably strong, American and foreign Power rising more than a point, and Electric Power and Light more than 2 to a new top. American Gas and Electric gained about as much. Some utilities turned rather heavy, however, Consolidated Gas closing 1½ lower.

Electrical equipments were strong. General electric touched 22, up 1¾, Westinghouse Electric pushed up 3 to a new high for the year, then lost half its gain.

Rails encountered considerable pressure, Union Pacific closed off 2½ points, and Santa Fe and New York Central lost about a point. U. S. Steel and American Telephone closed with fractional net losses. Union Cigar stores was an active low priced issue, in advance of the receivership announcement, accounting for more than 250,000 shares of the day's total turnover in the stock exchange of 3,923,850 shares. The stock rose to 1½, and then closed at ¾, off ¼. The range for the year to date was 1¾, high, and ⅜, low.

What the stock market did:

	Mon	Sat
Number of advances	403	449
Number of declines	261	133
Stocks unchanged	145	139
Total issues traded	809	721

WINNIPEG

(Canadian Press)

WINNIPEG, Aug 29—Unfavorable harvesting weather, light offerings and substantial trend toward higher levels at Liverpool gave a decided hoist to wheat values in the pit today. Closing prices were 2¼c above Saturday's final figures.

October closed at 57¾; December at 59¾ to ½ and May at 62¾ to 62⅞.

A fair export trade was reported worked over the week-end and during the morning but no estimate was available.

Lack of selling pressure was a feature of the trade but nevertheless some good buying by seaboard houses and for continental account and export sales were said to be quite appreciative.

Continued unsettling weather in western Canada is delaying harvesting operations and the movement of new wheat to market with the result that hedging pressure is considerably less than would be the case had the rains not been so general.

Work will be delayed for some days in a large section of the country and wheat may suffer in grade unless some bright, dry weather develops soon. The rains have been a stabilizing factor in the market, however, and large quantities of wheat have been absorbed without values losing ground.

Liverpool reports practically no competition against Canadian wheat and a broadening demand for Manitoba's with the Dominion furnishing practically the bulk of the weekly shipments. Export movement last week amounted to 7,500,000 bushels of which 4,750,000 bushels came from North America.

There was a good demand for cash wheat at spreads ⅛ to ¼ better for the top grades. Cash interest in all coarse grains was light. In the futures market all grains showed substantial gains.

CHICAGO

CHICAGO, Aug 29—Aggressive buying of both wheat and corn lifted all grains smartly higher again today after an early profit taking movement had caused fractional recessions. Corn received the most attention in weeks with the December delivery advancing 2 cnts to the highest level since May. December wheat sold at the best price sinces Aug 11. Oats showed more activity too, prices pushing up a cent or more when wheat was in the throes of profit taking sales. Provisions eased with hogs.

Wheat closed strong at almost the day's top level and 1¼ to 1⅝ cents above Saturday's finish.

Corn was also strong and 1 to 1⅛ higher.

Oats Z-1 70, and provisions 2 cents lower to 5 cents advanced.

MONTREAL, Aug 29—Butter and eggs continued higher on the Montreal wholesale markets today, the recent upward trend in both lines still being displayed. Cheese and potatoes held unchanged from last week's close.

The butter market was generally at the 21c line, with asking prices up to 21¼c per lb. for carlots or less of No. 1, this being ¼c above last week's final levels. Trading was light, but there was a firm tone to the market. Receipts were 23 boxes. Small lots to retailers, as quoted by jobbers, were firm at 22c for solids and 23c for prints.

The egg market varied according to quality of offerings. Newly arriving stock from Ontario or nearby points, of best quality, graded, or from British Columbia, was being quoted from 28c to 30c per dozen on extras, with firsts 19c to 20c, and seconds at 14c to 15c. Extras were in keenest demand, and were scarcest, and the quotations on them were 2c to 3c higher than last week's close. The other two lines were 1c ap. Receipts were 856 cases revealing further drop in volume. Prices to retailers were put up 2c on special brands and extras, and 1c on firsts and seconds.

Cheese held nominally unchanged from last week's levels, being quoted 10⅛c to 10¼c for Ontario's, and 9¾c to 9⅞c for Quebec's. Receipts, 2,241 boxes.

Potatoes held unchanged at 30c per 80-lb. bags for new Montreal grown stock.

Montreal Market Sidelights

(Canadian Press)

Development of an irregular tone in the Wall Street market failed to halt a generally firmer price tendency in the trading on the local stock exchange in today's session, although volume showed a contraction, and three international issues, Brazilian, C. P. R., and Nickle, all closed fractionally lower in apparent reflection of the uncertain action of the New York list. Further strength in the commodity markets, notably wheat and cotton, provided an encouraging background for improving stock market sentiment, but thus far this has not been backed up by news from trade and industry. Firming metal prices abroad is directing increasing attention to metal shares, and coppers were prominent on the strong side in New York today. At the close here gains were in excess of losses by 21 to three while the average price of twenty stocks recorded a gain of .19 to a new high for the move in the index of 20.71. This contrasts with a low of 12.85, established in June, and a high for the year of 26.90, created in January.

If a washable fabric has a dye that runs, often the dye is made secure by placing the fabric in a salt bath. After the garment has soaked in salt water of unusual strength, rinse it in cool, clear water. After it has been washed out in cool suds, place it in salt water, weak this time, as a rinse.
