### All Found Guilty of Murder in First Degree. Jury out one Hour and ten Minutes. Fate Not Decided

(Canadian Press)  
 NEW YORK, Nov. 19.—Gyp the Blood, Lefty Louie, Whitey Lewis and Dago Frank the gunmen charged with the murder of Rosenthal are all found guilty of murder in the first degree in the Supreme Court this afternoon.  
 The jury was out an hour and ten minutes.  
 Justice Goff remanded the prisoners until tomorrow morning, when he will fix the date for the sentence.  
 The entire proceedings in the court after the jury came in occupied only seven minutes.  
 The prisoners were brought into court by four prison wardens and uniformed policemen.  
 They heard the verdict with faces unmoved, staring straight ahead. On the way back to the cells the convicted men walked erect all except "Whitey" who went with bowed head.  
 The crowd in the court room received the verdict without demonstration and the news caused no visible excitement, when it reached the throng outside the building.  
 The counsel announced he would appeal from the verdict and as in the Becker

case it may be months before the ultimate fate of the men is decided.  
 NEW YORK, Nov. 18.—Today promised to be the next to the last day of the trial of the four gunmen charged with shooting down Herman Rosenthal under orders from Charles Becker. The morning session of court was given over to the closing address of Charles G. Wahle, counsel for the defence. The afternoon was allotted to Frank Moss's summing up for the state. Justice Goff has made known his intention of instructing the jury on Tuesday morning, but it was said today that he might continue today's session and deliver his charge after Mr. Moss has concluded. If the latter course is followed the verdict may be expected to-night. All four defendants have expressed confidence in acquittal, and it is said that they have prepared for a spread at which they hope to entertain their friends in celebration of a victory. The day of Lefty Louie has been selected for the gathering. With him, if his predictions are correct, will be his three pals, "Gyp the Blood," "Whitey Lewis" and "Dago Frank."

## BANANA CROP WAS DESTROYED

(Canadian Press)  
 KINGSTON, Nov. 14.—Confirmation has been received of the destruction of the banana plantation by a hurricane. Sixty per cent of the crop is done and great damage was done to the bridges, roads and wharves.

## GIRL ENDED LIFE; MAN IS ACCUSED

WASHINGTON, D. C., Nov. 18.—Miss Carrie Umhoefer, nineteen years old, daughter of Mrs. C. E. Umhoefer, Guttenberg, N. J., ran away from home three months ago. The mother's anxious search revealed no trace of the girl until a week ago. Then she learned that she was living here with a man known as Fred Schwartz in a small apartment.  
 Mrs. Umhoefer wrote imploring the girl to come home. An answer came, but it was not in Carrie's handwriting. A woman in the same building had opened the letter.  
 "Your daughter took her own life two months ago and was buried in the public cemetery," was the substance of the message that almost provoked the mother, but kindled in her breast a determination to avenge her daughter.

She came to Washington. The police took her to the apartment. She identified Schwartz as Fred Killigas and told the police that he was wanted for passing worthless checks in Brooklyn. He was arrested and confessed. Their total value, he said, was less than \$100. He said that Miss Umhoefer had passed worthless checks in Hoboken.  
 Mrs. Umhoefer charged the man with ill-treating her daughter, but he denied this and declared her suicide was a surprise to him. Both the Brooklyn and Hoboken police were notified.

## ROYAL GEORGE WILL FLOAT IF POSSIBLE

QUEBEC, November 18.—Preparations for the floating of the Royal George are proceeding with every precaution to ensure success.  
 Besides the lightning of the steamer, Mr. Witherspoon, who arrived from Kingston with a compressed air plant, is busy having the same installed and will introduce the air into Nos. 1 and 2 holds, the ship's tanks and engine room, and together with the two Lloyds experts, Captain Saunders, from New York, and Captain Perry Jones, from Cleveland, O., will inaugurate the floating of the ship from her stranded position and bringing her into the harbor of Quebec.

## WANTS \$5,000,000 MARBLE STADIUM FOR PARK

NEW YORK, Nov. 16.—Five million dollars to duplicate the white marble stadium at Athens in Central Park is asked from the city by James E. Sullivan, president of the recreation commission.  
 In 1908 this scheme was cried down on the ground that it would deface the park, but Mr. Sullivan now feels sure of success, and says he has hundreds of influential citizens with him. He thinks that the building of the stadium would lead to the selection of America as an Olympic meeting place for a second place.

## SILVER JUBILEE OF A. A. U.

NEW YORK, Nov. 18.—The governing powers in amateur athletics in the United States gathered in force at the Waldorf-Astoria today for the silver jubilee meeting of the Amateur Athletic Union of America. The gathering began with the customary business session, at which the records made during the year were passed upon and several new and important rules and amendments considered. The program for the remainder of the day and evening provided for a number of addresses reviewing the twenty five years' history of the A. A. U. and the part it has played in the advancement of amateur sports in this country.

## DISTRESSING FATALITY AT ST. JOHN HOME.

ST. JOHN, November 18.—A distressing fatality occurred this morning at her home, 8E, James street, when Mrs. Margaret Bridges, wife of George Bridges, received injuries from burning which resulted in her death a few hours later in the general public hospital. Mr. Bridges is employed as night watchman, and on his return home after his night's vigil it had been the custom of his wife to have lunch prepared for him. This morning he was greeted with fearful tidings that she lay fatally injured thru severe burns she had received about six o'clock Mrs. Catherine Pauley, who occupies the flat below that of Mrs. Bridges, heard her name called, and on going out to see what was the matter, she was horrified to see flames seething about the landing at the head of the stairs and to hear Mrs. Bridges calling for help from within. Mrs. Pauley managed to have the injured woman carried down stairs and placed on a couch in her home. Her clothing had been all burned off, her hair singed, and she was painfully burned about the body. Had it not been for the arrival of Mrs. Pauley she would likely have been dead within a few minutes. She was taken to the hospital, where she passed away about twelve o'clock.

## TERRIFIC BATTLE IS STILL RAGING

(Canadian Press)  
 CONSTANTINOPLE, Nov. 19.—Nazim Pasha the Turkish commander in chief sent the following despatch at 3.30 o'clock this afternoon.  
 "A desperate artillery engagement began this morning and is being continued with success.  
 The Bulgarian infantry operating in front of the centre of the line of defence was repulsed by the artillery fire. Part of the enemy's batteries were silenced.  
 We ordered a detachment of troops to advance.  
 They attacked the enemies' entrenchments and forced them to flee.  
 We captured a number of rifles, machine guns, helmets, shovels and pick-axes.  
 A number of helmets bore the badge inscribed 35th regiment Vrania showing that there are Serbian troops with the enemy.  
 The battle continues."  
 Another telegram from Nazim Pasha estimates the Bulgarian losses in Monday's fighting on the Turkish right wing at four hundred killed and wounded. These include twenty officers.  
 Two machine guns were captured.

(Canadian Press)  
 SOFIA, Nov. 19.—Bulgaria's conditions for agreeing to an armistice were transmitted to Constantinople early this morning. They were accompanied by Bulgaria's main conditions for the conclusion of peace, the principal stipulation of which permits Turkey to retain the city of Constantinople and a strip of coast territory in Europe.  
 It is understood that the terms of the allies for an armistice are moderate and that Turkey may save Constantinople if she accepts them. Respecting Albania it is said in well informed quarters that the Balkan league probably will not object to that country remaining under the Suzerainty of Sultan and that the powers will acquiesce in this.  
 LONDON, Nov. 18.—Any idea that the Turkish government may have had of negotiating by continued resistance must be shattered by to-day's news of the fall of Monastir. In the capture of that important town the Serbians took three pashas, including the Commander-in-chief Zekki Pasha, 50,000 men and forty-seven guns, thus achieving the greatest individual success of the war.  
 Monastir was the second city of importance in European Turkey. It was Turkey's stronghold in Macedonia, and by its downfall Macedonia passes completely out of Turkish hands.  
 What part the Greeks played in the capture has not yet been ascertained. It is known that the Greek army was marching to the assistance of the Serbians, and it is supposed that the Turkish retreat to the south of the Turkish retreat to the south of the Turkish army is drawn by the war correspondent of the Matin at Hadem Keut, the Turkish headquarters of the lines of Tchalata. He says:  
 Colonel Lehmann, a German officer, who has just taken over command of the Turkish artillery, declares that he did not find a single gun in place. The Turks have plenty of guns and ammunition. They have German cannon and French cannon taken from the Serbians before hostilities began. Three of the French guns were seen lying in the mud at the Hademkeui railroad depot. They were eaten up with rust and consequently useless.  
 The total of the Turkish force is estimated at 150,000 men, but there is a complete lack of energy among the commanders and organization of any sort is absent. The commander-in-chief does not leave his parlor car, where he will not receive anybody. The staff officers of the Turkish army themselves can see him only after ten o'clock in the morning. If things go on as they are today the Bulgarians will not find any Turkish troops to fight. They will all be dead from cholera and typhoid.

## CANADIANS AT THE N. Y. HORSE SHOW

NEW YORK, Nov. 18.—The Horse Show is a miniature Japan, a private view of which was given to invited guests and exhibitors at the Garden last evening.  
 Canada is represented in the military class by Lieut. C. E. Shirley of the Duke of Connaught's Hussars, England, Belgium and Holland also have military entries.

Saddle horses and hunters are more strongly shown than ever before, and there is also a marked advance in the hackney breeding classes, with many former champions showing. Among the boxhounds is Sir Edward Clouston, of Montreal.  
 LITTLE BOY KILLED BY DYNAMITE CAP.  
 FORT WILLIAM, Ont., Nov. 18.—Willie Noakes, aged ten years, son of Wm. Noakes, local painter, was killed instantly at the Franklin School this morning by the explosion of a dynamite cap which he had been chewing. The youngster's face was practically shattered to pieces. The accident happened in the presence of a teacher and two pupils who were just about to retire for the noon meal.

## ONE KILLED, ONE HURT TRIMMING GRAIN

MONTREAL, Nov. 18.—While trimming grain on the barge Ungava, of the Montreal Transportation Co., the St. Lawrence Flour Mills, one last night, in the canal in the rear of man was killed and another so badly injured that his right leg had to be amputated.  
 Bryne, forty years of age, was smothered in the grain of the hold of the barge, and Robert Hamilton, 61 years of age, of 181 Wellington street, had his right leg crushed while attempting to rescue him.

## HUSBAND BLAMES WIFE FOR INDUCING HIM TO KILL CHILD

CINCINNATI, Nov. 18.—Disappointment because their ten-days-old baby was a boy when they wanted a girl, Fred, and Mrs. Kipp, each 22 years old, wrapped the child in a shawl and tossed him into the Ohio River.  
 They were arrested last night, and the husband confessed, blaming his wife for wanting to dispose of the child. When arraigned in court today their cases were continued to November 27. The body was not recovered.

## MARCONI APPEARS WITH ARTIFICIAL EYE

VENICE, Nov. 18.—William Marconi made his first public appearance yesterday since his recent accident at a luncheon given in his honor by Princess Marie Berthe, the widow of Prince Carlos of Bourbon. Mr. Marconi, who suffered the loss of his right eye in an automobile collision, surprised everybody by the naturalness of his appearance. He wears an artificial eye, which has been so ingeniously contrived that it is not to be distinguished from the natural eye, and seems also to be endowed with the power of movement.

## AMERICAN GOVERNMENT ROUNDING UP SWINDLERS.

CINCINNATI, November 18.—With the arrests today in six cities of men alleged by the government to constitute a monumental get-rich-quick chain of swindlers, United States secret service men declare they have brought to the surface an organization that has molested small corporations, inventors and promoters, to the tune of \$1,500,000 in the last three years. The arrests were made as the result of secret indictments returned here by the last United States grand jury.  
 Indictments were returned for five men who are alleged to have constructed one link of the chain. The other arrests were made on affidavits of government officials. The three indicted in Cincinnati will be returned here for trial.

## CODERRE ELECTED BY BIG MAJORITY

(Canadian Press)  
 MONTREAL, Nov. 19.—Coderre is elected by a huge majority. Doyon probably loses deposit.

## MASKED MANIAC HELD POLICEMEN

(Canadian Press)  
 LOS ANGELES, Nov. 19.—A masked maniac armed with an infernal machine containing enough dynamite to destroy the city block, a bottle of nitro-glycerine and a revolver took possession of the Central Police station today and held it until knocked unconscious by the policeman.  
 Another policeman grasped the infernal machine and threw it into the street. By strange chance there was no explosion although there was great panic among the vast crowds in the street.

### At This Port. Board of Trade Instrumental in Arrangement. Steamer Will Take Full Cargo.

The Charlottetown Board of Trade on Saturday last wired the Department of Trade and Commerce requesting that the steamer Cape Breton, of the Subsidized Black Diamond Line, now discharging coal at Charlottetown, be placed at the disposal of shippers to carry a cargo of freight, readily perishable, direct to Newfoundland. A considerable portion of this freight has been awaiting shipment for several trips, the Company's steamers not having space to carry it owing to large shipments from Montreal. The Deputy Minister replied that he had wired the company setting forth the urgency of the Board's telegram, together with similar representations from Messrs. Nicholson and McLean; that the company's agent at Sydney advised him that he was not aware of congestion of freight at Charlottetown until receipt of Deputy Minister's telegram. To this the secretary of the Charlottetown Board of Trade replied that the agent had misinformed him as the company had been repeatedly advised that freight had been left

over for the past two months, and that it was only through the Deputy Minister's assistance that temporary relief had been obtained by an extra trip of the Cacouna. The secretary urged that additional relief be insisted upon demanding that the Cape Breton be loaded at once at this port. Yesterday afternoon the secretary received from the Deputy Minister a wire stating that he had sent the company an emphatic message to give relief at this port or take the consequences. The sequel to these firm telegrams was that last night the secretary of the Board of Trade received from the Deputy Minister a telegram stating that the Black Diamond Line had agreed to place the S. S. Cape Breton at the disposal of shippers here and hoped that a full cargo would be available. Both the Board of Trade and the Deputy Minister deserve credit for the business-like manner in which this necessary convenience was secured for the shippers of the province, and it is hoped that she will be loaded to the plimsoll mark within the next few days.

## FOR HAPPENINGS IN AERIAL CRAFT

PARIS, Nov. 20.—(Special)—The International Congress for the codification of laws regulating marriages, births, and deaths on board aerial craft, which has just finished its labors at Geneva, has only formulated a definite recommendation in the case of a death taking place in the air. It recommends that the pilot in charge shall be legally bound to declare the fact to the authorities at his nearest stopping-place, or if travelling in a foreign country to the nearest Consul.  
 Though it is admitted that the question of aerial marriages is not of pressing importance, it is pointed out that the precedent for a birth in the air was established during the Paris Exhibition of 1878, when a child was born in a captive balloon 1,000 ft. high.

## PROTEST AGAINST WOMEN LAWYERS

ROME, Nov. 20.—(Special)—The Court of Appeals of Rome has just entered a protest to the Attorney-General against the admission of Signorina Teresa Labriola to the list of practising advocates. According to the court, the admission of a woman to the Bar is a direct infringement of a law passed in 1874, which relegates this profession entirely to men. The case is also to come before the Court of Cassation, and according to a report from legal circles, it is expected that Italy's first practising woman barrister will find herself barred out of the legal profession. Signorina Labriola, entered the list of practising advocates during the summer, and conducted her first case, the defence of a soldier accused of striking a superior officer, with such skill that she succeeded in obtaining a sentence of eight months' imprisonment instead of the usual minimum penalty of four years. She intimated at the time of her admission that she would devote herself almost entirely to the defence of cases in which female psychology played an important part.

## AMERICAN RHODES SCHOLARSHIP NOT UP TO MARK

WASHINGTON, November 18.—A severe criticism of the calibre of students sent to Oxford university under the Rhodes scholarship was delivered today by Dr. George R. Parkin, of Oxford, executive secretary of the Rhodes scholarship trust, before the national association of state universities, which began its seventeenth annual session here today.  
 Dr. Parkin divided the students sent to Oxford from the United States into three classes. The first third, he said were high grade students; the second third were fair, while the other third, well, it is a mystery to the Oxford faculty how they ever got there.

## "SPANISH PRISONER" LOSES

NEW YORK, Nov. 18.—The "Spanish prisoner" will not be released by Guy Sison, a wealthy contractor, of Winemucca, Nev. Mr. Sison had received a letter from Madrid, Spain, saying that if he would put up \$4,000 to release J. Ivanovitch, the latter would tell him where he could find \$450,000. Mr. Sison left his home Friday and checked passage on board the Lorraine of the French line, which steams for Europe to-day.  
 E. G. Lamb, sheriff of the little Nevada township, heard of Mr. Sison's object in starting for Europe, and having heard of the "Spanish prisoner" swindle and being a good friend of Mr. Sison, he telegraphed to Inspector Faurot here. Detectives found Sison in the Manhattan Hotel yesterday afternoon, and Sison has indefinitely postponed his trip to Madrid.

## WANTS RIGHT TO APPOINT POLICE CHIEF

ST. JOHN, Nov. 18.—The commissioner of public safety is making a determined effort to get the appointment of the chief of police of the city under his control. At present the chief is appointed by the provincial government, but at the meeting of the council to-day, a resolution was adopted, asking the government to permit the appointment to be made by the commission in future. The commissioner of public safety recently held an investigation into the police force of the city, with the result that several resignations were accepted. He is now apparently determined to get the chief, but the general opinion is that the government will refuse the request.

## MANITOBA A. A. ANNUAL MEETING

WINNIPEG, Man., Nov. 18.—The secretary of the Manitoba branch of the Amateur Athletic Union of Canada was successfully opposed as the secretary of the Winnipeg Amateur Hockey League. A. R. Morrison, who is Commissioner of Recreation in Winnipeg, drawing a salary from the city, was nominated for the secretaryship of the league, but R. A. O. Manning, who represented the Monarchs, objected that Morrison could not hold office, as he took a salary for looking after athletics, and was therefore not an amateur.  
 The point was not argued, and Mr. Morrison's name was withdrawn.  
 Mr. Morrison is widely known in Canada as a cricketer and he was responsible for the West obtaining the presidency of the Cricket Association this year.  
 Fred Marples was chosen secretary and Dr. Taylor was elected president. The schedule will be drawn up next week.

## MYSTERIOUS CASE PUZZLES ANTWERP

ANTWERP, Nov. 20.—(Special)—The mysterious murder of a diamond merchant is the cause of much speculation here. M. Provo, the murdered merchant, was last seen alive on September 24, when he was leaving Antwerp in a motor-car, accompanied by M. Gaston, a sportsman, and another man whose name is unknown. The party apparently went to Brecht, where M. Vergents has a shooting. Here, dispensing, it is stated with the services of the game-keeper, the diamond merchant and his two companions went out shooting. M. Provo was not again seen. In consequence of the statements of the game-keeper and other people, M. Vergents was arrested on October 2. Two days later M. Provo's dead body was found roughly buried in the wood.  
 M. Provo had gunshot wounds in the head and face. Confronted with the dead body M. Vergents protested his innocence. Here the matter stands at present. Meanwhile the police are trying to trace the third man of the shooting party. M. Vergents is alleged to have called on M. Provo's wife and family on the afternoon that the diamond merchant disappeared, and it is also alleged that later in the same day he tried to sell a collection of diamonds belonging to the merchant.

## MORMONS IN SWITZERLAND

GENEVA, Nov. 20.—(Special)—Expelled from nearly every European country, the Mormons have recently made Switzerland, with headquarters at Zurich, their working centre on the Continent, and continue to exploit Swiss and other girls without fear of legal interference. The Mormons who were condemned to prison won a test case some years ago before the Federal Tribunal at Lausanne on the grounds that they were allowed the same privileges as other religious bodies in Switzerland, and that they could only be expelled for moral reasons, as, for instance, if they preached polygamy, a subject which they are careful to avoid in public.  
 A hundred Swiss girls and a thousand European girls of all nationalities, under golden promises, are sent across the Atlantic to Utah every year. England and Switzerland are the only European countries in which the Mormons are tolerated.

## RECEIVED PECULIAR SENTENCE

NEW YORK, Nov. 18.—As a penalty for having caused the death of John McNamara, a car conductor, through a blow of his fist, Joseph Bush was to-day ordered by Justice Crane in part VII. of the Supreme Court, to pay to McNamara's widow the sum of \$3 per week for one year, to aid in the support of herself and her three children.  
 If the widow should refuse to accept the money, Justice Crane ordered that Bush open an account in a savings bank in trust for the children and deposit the money for their benefit. Bush was told to report regularly to the court on the matter, and to carry out the court's instructions without fail.  
 Justice Crane suspended sentence on the case, commended Bush for not having tried to enter a plea of self-defense, and for telling the whole truth. Justice Crane said he did not like to send the man to jail for a case of this kind, and said he preferred to give the defendant an alternative; a chance to work out his own salvation. The widow, the justice said, had good grounds for a civil suit, and could undoubtedly secure heavy damages, but that would be of no use, as Bush has no money, and he therefore deemed it wiser to impose the \$3 a week payment, which seemed to him a fair and just settlement of the case.

## IRISHMEN LEFT HOME RATHER THAN MARRY ON COMMAND

MONTREAL, Nov. 18.—Driven away from home because they persistently refused to marry, a party of four Irishmen landed in Montreal this morning.  
 Lloyd O'Brien, Harry Shannon and two brothers of the latter, fell under the ban issued six months ago in their home town of Quinsangan, in County Meath. It was claimed that the general prosperity and welfare of the community demanded a diminution in the abnormal number of single men. So seventy-nine glaring cases were especially named and given notice that they must join the benedictines inside of six months or else depart for pastures new. Thirteen of them are still unwed and four of them seek a haven in Canada.
