Father, Mother, Sister, Brother,
All Should Use Parisian Sage.

Prevents Baldness—Banishes Dandruff—Stops Falling Hair and Itching Scalp

PARISIAN SAGE is a family hair tonic and dressing that will do much good in every home.

The man who uses PARISIAN SAGE if only occasionally will never grow bald. Baldness is caused by dandruff germs which dig down into the roots of the hair, devour its nourishment and cause the root to die and the hair to fall and thin out.

PARISIAN SAGE is a scientific hair remedy that not only kills the dandruff germs, but gives the hair root just the same nourishment that nature gives it.

PARISIAN SAGE first kills the germs; then nourishes the weakened hair root and causes a growth of healthy hair.

This same nourishment (PARISIAN SAGE) causes the hair to grow vigorously which means that the hair becomes full of life and lustre, and grows radiant and beautiful.

Thousands are wasting time, losing hair and growing bald because they are using superficial tonics. While they may clean the scalp and make it feel refreshed, they do not get to the root of the hair where the real destroyer of hair, the pernicious dandruff germs, thrives and multiplies.

Try PARISIAN SAGE for all hair troubles; it means death to the germs; life to the hair. It is pleasant to use and so harmless that it can be used by every member of the family from the oldest to the little tot.

Get a 50 cent bottle today, and if you are not satisfied that it is just as good as claimed, your money back without any quibbling. Sold by Geo. E. Hughes and druggists everywhere. Girl with Auburn hair on every carton and bottle.

OVER THIRTY-TWO MILLION DOLLARS

For the year ending 26 Dec 1911 the Sun Life of Canada received applications for \$32,400,000.00. No better evidence of the popularity of that good old company could be given.

More Money for the Small Dealers

The big man isn't big in spite of the telephone—it's because of it, to a certain extent.

If you're satisfied with the profits your great-grandfather made, if you just want to eke out a bare existence from your business, if more business don't look good to you—well, a phone will be just in the way—a bothersome ornament.

But, mark it down plain, if you want more business, a larger and better class of customers, straight tips on all the markets, the most profitable of inside information and the respect of your customers and envy of your competitors—in short if you want success—you'll see what we can do for you, and you won't waste time over it either.

The phone will bring you business—it will prove its worth in better returns, in actual additional cash in your till.

Let Contract Dept. prove these facts to you.

THE QUEEN'S COUNTY GUARDIAN

It pays to buy in this Province

Mrs. Walter Hazard of Murray Harbor returned Saturday from an extended visit to Boston. She was a guest at the Russ over Sunday.

C. B. Chappell, Charlottetown, was among the passengers returning on the Northumberland yesterday, returning from Halifax.

Miss McLeod, trained nurse of New York, came to Charlottetown Saturday, and leaves today to visit her uncle, Rev. John Gillis, Orwell.

Rev. B. O. Hartman, Montague, preached in the First Methodist Church, Charlottetown, yesterday morning and in Grace Church in the evening, delivering excellent discourses on each occasion.

Yesterday afternoon Miss Gertrude Hennings of Charlottetown, was removed to the City Hospital in Wright's ambulance suffering with an attack of appendicitis. She was operated on successfully during the afternoon.

Mrs. Fall, Crapaud, who is undergoing treatment in the P.E. Island Hospital, was reported yesterday to be slightly improved. She underwent an operation last week and Saturday one of her sons came from Moncton, arriving on the Minto.

The many friends of Edward Burns, steward of the S. S. Minto, will deeply sympathize with him, in the loss of his wife and infant child, whose death occurred within a short time of one another yesterday at their home in Charlottetown. Mrs. Burns was thirty-nine years of age. Another child, a little girl, is ill.

Along the passengers to Charlottetown on the Minto Saturday evening were D. J. Morrison, of Dalhousie College, Halifax, and Georgia Tyle of Queen's University, Kingston, both divinely students, who will be stationed in this province during the summer months. Mr. Morrison will probably be located at Hampton and Mr. Tyle is not sure of his location at present.

In the Central Christian Church, Charlottetown, last evening Rev. J. F. Floyd, preached from 1 Timothy 1:18-20. He spoke of the appalling disaster of the foundering at sea of one of the greatest ships ever constructed, the Titanic, that sailing on in midnight suddenly struck on a sunken iceberg, carrying to their death over a thousand souls. Whilst all hearts go out in sympathy to those bereaved, he drew some lessons, which might be useful in the voyage of life. He pointed out the essential elements in a good ship, and pictured out mankind as going on a long voyage and urged them to take passage in the safest ship, the ship of Zion, whose pilot was Christ. In that ship there could be no possibility of disaster.

MARCONI
By Percy Shaw.

Kings of the world, pay heed—
Can ye shout through fog and snow
Clear-chiselled the call for speed
That the earth's far ends may know?
From the iceberg riven ship
Can ye cry to the listening beach?
With a touch of the finger tip
The hearts of the ocean reach?

Hurricane, hail and cloud,
The mighty deep in its wrath
They laugh at the kindly browed?
As straws in the whirlwind's path.
They sing the songs of command,
A million accents their own,
But they know the master's hand,
They bow at the master's throne.

With prayers of rescued souls
Their voices clamor and beat
As far as the ocean rolls
Like blessings about his feet.
Submissive they bend the knee,
He laid them low with a word
They hail him, King of the Sea!

LOSS OF TITANIC
(Continued from page 1.)

and finished their evening program some time before. Mr. Chevre saw the lowering of the boats which took the people on the ship appeared to be not appreciating the danger they were in. Suddenly the giant steamer gave a lurch over on its side, and the lights went out. Then a frightful series of cries and screams were heard above the music which changed to "Nearer my God to Thee" at the last, and a mad rush was made to the boats, which were dropped into the water crowded with a struggling heap of women who had been pushed into them.

The Titanic, said Mr. Chevre, seemed to him to settle gradually, though its little craft was out of sight when he ended home. He only surmised that the vessel had foundered by the giant waves that reached them, these waves evidently being caused by the upheaval of the water as the vessel sank below the surface.

Mr. Chevre then said that he heard
