Executive will meet Wednesday at 10 o'clock, opening session at 2.30, public meeting at 7.30 and closing session Thursday morning at 10 o'clock. Box lunch.

KING PASSED A GOOD DAY

(Canadian Press) LONDON, Jan. 21.—It was officially announced at Buckingham Palace tonight that the King passed a good day and continued satisfactory progress toward recovery from his attack of pleurisy. Lord Dawson of Penn, Sir Stanley Hewitt and Sir Hugh Rigby, the King's special medical corps, consulted for an hour this morning. No medical bulletin was issued and it was stated that the next one would appear tomorrow morning. This will make an interval of 60 hours between bulletins which is the longest period that has yet elapsed without one of these official medical pronouncements.

Motorist Buys Ping-Pong Balls

(By British United Press) LONDON, January 21.—The sports department of a London store has received the biggest individual order for ping-pong balls on record. It was for 5,000. The order came from Major H. O. D. Segrave. The famous racing motorist is about to engage in an orgy of ping-pong. He is going to the ball in the bulk-head (water-tight compartment) of his 1,000 h. p. motor-boat Miss England, with which he hopes to win for Britain the world's fastest water-speed record. Major Segrave leaves England on January 21 on his dual attempt to wrest from the United States both the land and water-speed records. Both attempts will be made early in March. His 1,000 h. p. car and his 1,000 h. p. motor-boat are now receiving their finishing touches. The ping-pong balls will be used to reinforce the bulkhead. There is only one water-tight compartment in the boat, and were this pierced a serious accident might result. A ping-pong ball is in effect a very small water-tight compartment. The balls will be packed together, either in nets or sacks. Should the water-tight compartment be damaged the thousands of small compartments should be sufficient to prevent the boat from capsizing.

GREAT ENGLISH HOUSE TO BE CLOSED 9 YEARS

LONDON, Jan. 19.—Clumber House, one of the most gracious if not one of the largest of the lordly estates of this country, is to be closed for nine years. The Duke of Devonshire succeeded to the title on the death of his brother last May. It is understood motives of economy, more particularly as prompted by the incidents of the death duties consequent upon his succession to the title, have caused him to take this step. Clumber is situated in the fairest part of Nottinghamshire, in the heart of what is known as the Dukeries. Not far off is Chatsworth, the seat of the Duke of Devonshire, and Welbeck, the seat of the Duke of Portland. Clumber House possesses a priceless collection of pictures which for the next nine years are to be on loan to the Corporation Art Gallery in Nottingham. The Art Gallery is in very fine. The former Duke of Newcastle was an ardent Anglo-Catholic. The present Duke was formerly Lord Francis Hope. A little more than a year ago he presented to Dorking The Glory Woods, a famous beauty spot well known to Londoners, to mark the coming of age of his son. H. P. C. Hope. Besides Clumber House the Duke has seats at Harrowlands, Dorking, and Castle Blayney, County Monaghan, Ireland. His decision to close Clumber House recalls the interest aroused last year by the opening to the public of Haddon Hall, the seat of the Duke of Rutland, in the Peak of Derbyshire, after it had been closed for nearly 200 years.

INCOME TAX FORMS DRIVE ONE TO RIVER

LONDON, Jan. 19.—The year's first suicide over the income tax was recorded today, when the Coroner held an inquest over a 64-year-old man found drowned in the Thames. The victim was Henry Brett, a small oil dealer, who kept no business books in his office. When a formidable income tax forms came he did not know how to fill them. He was worried and more until he jumped over the railing of the bridge to his death. The Finance Act is a puzzling thing that has worried many a wiser head than this man had. The Coroner remarked: "This isn't the first inquest I have held on people who have committed suicide on account of income tax worries. I am sorry for this poor man." Opposition to India's statutory commission, which is studying conditions with a view to extending the franchise, has given away to general co-operation.

PRACTITIONER

Dr. W. E. Gallie of Toronto, has been appointed consulting surgeon to the department of pensions and national health. His predecessor was Col. C. L. Starr, who died recently.

Police Round up Chicago Criminals

(Special to The Guardian) CHICAGO, Jan. 21.—About 3,000 persons were arrested here Saturday night and today's dawn in one of the most sudden, widespread and successful police drives in the history of Chicago. Raids were conducted against every known habitat of the gangster, gunman and robber. Where doors were locked, they were smashed open. The theatre district swarmed with plain clothesmen, seeking the "dress suit" crooks, and police patrols were booked for hours ahead so swift were the arrests. The drive was Police Chief William Russell's answer to a week of crime marked by 102 robberies, in which four persons were shot dead and several others seriously wounded.

Peasant Party Is Dissolved

(Canadian Press) BELGRADE, Jan. 21.—The police of Zagreb have today notified all parties bearing the name "Croat" that they forthwith are dissolved. Their bureaus have been locked and sealed except in two cases where they were located in the offices of Croatian newspapers which have not been suppressed. General Secretary Krijivitch of the Croatian peasant party said to the Associated Press correspondent, while the party organization may be dispersed, it is impossible to destroy a spiritual organization embracing millions of people scattered by the mortal leader, Stephen Raditch and sealed with his blood. Indeed, formal dissolution will only strengthen the spiritual bonds uniting the Croatian people.

Olympic Games For Canada?

(Canadian Press) TORONTO, Ont., Jan. 21.—Every effort will be made to secure the winter sports of the Olympic games in 1932, it was decided at a meeting of the executive committee of the Canadian Olympic Commission today. The Canadian government will be requested to endorse the application of the Olympic committee and representations will be made through Sir George MacLaren Brown to the international Olympic committee, of which Sir George is a member. The United States committee will also be approached in the matter by the Canadian Committee. The United States has been awarded the summer Olympic games of 1932 for Los Angeles, but it is understood that the international committee will meet at Cairo, Egypt, next month to decide, on the venue of the winter games.

Cayley Will Move Address in Reply to Throne Speech

(Canadian Press) OTTAWA, Jan. 19.—T. M. Cayley, M. P. for South Oxford, has been invited with the honor of moving the address in reply to the speech from the throne at the approaching session of the House, according to announcement made today by Premier King. The speaker will be Charles Edward Forland, who was elected to the House in the recent by-election in Joliette, Que.

REPRESENTED CANADIAN BAR

(Special to The Guardian) NEW YORK, Jan. 21.—Hon. Arthur Melghen, K. C., represented the Canadian Bar at the banquet which closed the annual meeting of the bar of New York State here last night. Mr. Melghen brought greetings from the lawyers of the Dominion. The chief speaker of the evening was Ogden L. Mills, under secretary of the treasury, who vigorously opposed a proposal to transfer income tax refund affairs from the treasury department to the courts.

Strange Accident Being Investigated

(Canadian Press) BARRINGTON, N. S., Jan. 21.—In an unconscious condition with serious head injuries and with parts of her body frost bitten, Mabel Farrington, 17 year old teacher in charge of the rural school at Oakpark, Shelburne County, three miles from Barrington, was found this afternoon almost entirely hidden by a pile of brush some distance from the highway. She is expected to recover. A searching party of 150 men, recruited from surrounding districts, had scoured the wooded country since Friday afternoon, when Miss Farrington disappeared while on the way from the school room to her boarding house, a distance of about half a mile. Dr. H. H. Banks, of Barrington, said today that Miss Farrington was suffering from concussion of the brain, but whether she fell and came by the injury accidentally or was struck by another person is not yet clear. She herself has recovered consciousness but is unable to remember what occurred. Miss Farrington, whose home is in Lockport, was last seen by a neighbor who spoke to her as she was walking in the direction of her boarding house on Friday afternoon. She was discovered shortly after noon today at a point about one hundred yards from the road, half way between the school and her place of residence.

Paavo Nurmi Breaks Record in Supreme Court

(Canadian Press) NEW YORK, Jan. 21.—A trifle more bold than when he left here nearly four years ago and with a little less spring in his strange hitching stride, Paavo Nurmi, Finland's phantom of the track, has made a success on his second campaign of record breaking in American indoor meets. Three world records were made before the pace of the Finnish marvel in his first race of the new year at the Brooklyn college gymnasium last night, when he outdistanced a fair field to win a special event at the odd distance of 3,000 yards. At the end Paavo Led Ove Anderson, another point winner for Finland in the Olympic games, by fully 100 yards. The time was 7:43 2-5, more than two seconds better than the best previous mark made by Nurmi in 1925. Times were taken at six points along the route and two besides the final one, went down as new records. At 2,500 metres he was timed in 6:58 and at 1,58 miles the watch snapped at 7:23 2-5. Neither is a standard distance. According to a recent investigation, the most dangerous times of the day in London streets are four o'clock in the afternoon, seven o'clock at night and 11 o'clock in the morning and at night, the last being the worst.

REVOLT ENDED

(Canadian Press) GUATEMALA CITY, Guatemala, Jan. 21.—Official announcement was made today that the cities of Quetzaltenango and Retalhuleu, taking by rebel forces last week, were recaptured by government troops today without fighting. The government announcement stated that with the capture of the cities the revolt in Guatemala was completely ended. The rebel leaders were stated to have then fled and quiet continued throughout the republic.

LAST MINUTE NEWS FLASHES

(Canadian Press) MONCTON, N.S., Jan. 21.—The first aeroplane in the Prince Edward Island mail service completed its first round trip this afternoon, arriving at Moncton at 2.15 p. m. The plane from Quebec had not arrived at four OTTAWA, Jan. 21.—Andrew G. Acres, postmaster of Ottawa, died here today after an illness of several weeks. He was one of the city's best known citizens who during his many years here had played an important part in the development of the capital. He was sixty years of age and was appointed postmaster eleven years ago. NEW YORK, Jan. 21.—The Dollar Line was informed today that its liner President Garfield, which grounded on a coral reef in the Bahamas, was undamaged and that in all probability it could be refloated, pick up its passengers at Nassau, where they were taken by the rescue ship Pan-America and continue its journey around the world. LONDON, Jan. 21.—An informal poll of the House of Commons by Sir William Whitely said to show that an over-whelming majority of the members favor the many times suggested English channel tunnel. When parliament reassembles on Tuesday, Ernest Thurtle, a laborite will ask Premier Baldwin when the question can be formally discussed in parliament. NIAGARA FALLS, Ont., Jan. 21.—Four members of one family were killed and the driver seriously injured when a fast motor car was struck by a fast M.C.R. passenger train at Fraser, near here, this afternoon. PANAMA, Jan. 21.—Five American navy men were drowned yesterday when an officers gig of the U. S. S. Whitney collided with a charge in the Panama Canal Channel.

FILL OUT AND MAIL TO THE ORATORY EDITOR CHARLOTTETOWN GUARDIAN, CHARLOTTETOWN CANADIAN AND INTERNATIONAL ORATORICAL CONTESTS Being Conducted in Prince Edward Island by the Charlottetown Guardian I am a pupil of..... college or school. I am interested in the Oratorical Contests and I would like to take part in them. On February 1, 1929, I shall be less than 19 years of age. Name..... Home Address..... Date of Birth..... School..... Grade..... Teacher's Name.....

THE FOLLIES OF 1929

Colorful Revue Presented by Local Boys and Girls Under Capable Direction of Mr. Thomas Anderson. Numbers of the youth and beauty of Charlottetown took part last night in the opening performance of "The Charlottetown Follies." There were many excellent dance and ballet numbers, and the performers, though amateurs, have accomplished wonders, under the capable direction of Mr. Thomas Anderson. The costumes and stage settings, as well as the lighting effects, are all beautiful and in themselves well worth seeing. There are two performances given each evening, immediately after the feature picture and there is an entire change of programme on Tuesday. No one should miss seeing how well our boys and girls can do in an up-to-the-minute revue. A most interesting feature is the popularity contest, conducted jointly by the Prince Edward Theatre and S. A. Macdonald's Clothing Store. There will be much interest to see who the pretty lady, and popular Miss Charlottetown will be.

Paavo Nurmi Breaks Record in Supreme Court

(Canadian Press) NEW YORK, Jan. 21.—A trifle more bold than when he left here nearly four years ago and with a little less spring in his strange hitching stride, Paavo Nurmi, Finland's phantom of the track, has made a success on his second campaign of record breaking in American indoor meets. Three world records were made before the pace of the Finnish marvel in his first race of the new year at the Brooklyn college gymnasium last night, when he outdistanced a fair field to win a special event at the odd distance of 3,000 yards. At the end Paavo Led Ove Anderson, another point winner for Finland in the Olympic games, by fully 100 yards. The time was 7:43 2-5, more than two seconds better than the best previous mark made by Nurmi in 1925. Times were taken at six points along the route and two besides the final one, went down as new records. At 2,500 metres he was timed in 6:58 and at 1,58 miles the watch snapped at 7:23 2-5. Neither is a standard distance. According to a recent investigation, the most dangerous times of the day in London streets are four o'clock in the afternoon, seven o'clock at night and 11 o'clock in the morning and at night, the last being the worst.

Mallett Case

At the Supreme Court yesterday, the case of The King vs. Emmanuel Mallett, charged with breaking and entering, was heard before His Lordship, Chief Justice Matheson, and the following jury: Edward Williams (Foreman) William MacPhee Louis L. MacMahon William MacGregor Damien Ross Leon Peters Wallace L. Higgins James Andrews Lemuel MacKinnon Angus Cameron Grover C. Gillis John MacKenzie. The Crown was represented by the Attorney General and Mr. Claire Campbell, and the defence by Mr. J. J. Johnston, K. C., and Mr. E. H. Strong, K. C. It will be recalled that Emmanuel Mallett, the accused, was charged with breaking, entering and stealing faxes from the ranch of Mr. James Sims, located at French River. At last Trinity Term of the Supreme Court, at which time the jury disagreed, and in consequence a new trial was granted the crown. It is this which is now in progress. Two witnesses, James E. Sims, and Police Constable Stanford Bigger were examined yesterday. The hearing will be continued today at 11 a. m.

Great Interest Taken In Oratory Contest

The greatest interest is being evinced in the Canadian International Oratorical Contest which is being sponsored here by The Guardian. Seven provinces are taking part and the provincial winners will proceed to Toronto, or some other centre where the final championship contest will take place. It is expected, sometime in May. Every school having grades above no. 8 is entitled to send a competitor to the district contests which will be held at central points. The first three champions of the districts will then contend for the provincial championship in Charlottetown, and the winner will be entitled to proceed to Toronto for the Canadian Championship, his or her expenses being paid. There will be three valuable prizes for each district, and, in addition, the three winners of each School Contest will each receive \$5.00 to defray expenses in the District Contest. For the provincial final, there will also be two valuable prizes (with which, of course, goes the trip to Toronto, or elsewhere). The first three winners in each district will be entitled to come to Charlottetown as guests of The Guardian for the Provincial Competition. Intending competitors should fill in the coupon to be found in this issue, and mail to The Guardian without delay. Through a regrettable error, the name of Claire Brehaut, the first entrant in the contest this year, was ascribed to Murray Harbor School. Miss Brehaut is a pupil of Murray River School, the principal of which is Miss Rebecca Cook. Last year this school sent in no less than four entries, and no doubt this year it will beat its former record. A new form of shoe polish is marketed in stick form like shaving soap.

RECOVERING FROM ILLNESS

(Special to The Guardian) PARIS, Jan. 21.—Marshal Ferdinand Foch tonight had so far recovered from his kidney and heart ailments that his physicians announced they would permit him to leave his sick bed for a few minutes tomorrow morning. Doctors Davaine and Setz-Boyer this morning issued a more optimistic bulletin than any since the Marshal became ill. It said: "The Marshal passed a very good night. A progressive improvement in all his ailments was noted."

Settlement Will be Made Soon

(Canadian Press) TORONTO, Jan. 21.—The Toronto Star says today is informed by one of the Canadian newspaper manufacturers that a settlement of the newsprint troubles will be made on Wednesday at a price of nearly \$66 a ton. "The resumption of operations by the Abitibi Mill at Espanola today and the taking on of additional men at the Sault Ste. Marie Mill is the result of the approaching definite settlement," says the Star. "Final settlement, it was certain on Saturday, would be at a price founded on the average of all contracts between Hearst and the Canadian newsprint manufacturers, which virtually would mean a \$55 a ton price for 1929, which Premier Taschereau in New York on December 15 declared would satisfy the Canadian newsprint manufacturers for the present time.

Secrets of Flying Probed

(By British United Press) PARIS, January 21.—Three French engineers have recently invented a "machine-gun camera," capable of taking 3000 photographs per second through a special lens covered by a net of thin black lines, by means of which an aeroplane's movements are photographed in flight can be measured to an inch, and their exact speed and engine value calculated. The inventors—MM. Huguenard Magnan and Sainte-Lague, who have been carrying out experiments at Villacoublay aerodrome, near Paris—declare that the new camera will enable designers of aeroplanes to reduce to a minimum loss of power and speed through faulty body construction. "When the films taken by the "machine-gun camera" are shown in slow motion, it is claimed, the horizontal and vertical lines crossing the lens of the camera form a background—hitherto absent—by which an aeroplane's movements can be measured. Recent observations, declare the inventors, has shown that an aeroplane shaped with the same perfection as a swallow would triple its speed, using no more powerful engines than at present. Exact knowledge of a machine's behaviour during a manoeuvre—such as the new camera, it is hoped will provide—would lead to the correction of constructional defects and would mean an enormous saving in engine-power. The invention will also show builders which type of engine is best fitted for slow flying with a heavy load, and which for speed pure and simple. One photograph with which an experiment was made was that of a criminal named Browne, who murdered Police Constable Gutteridge, and the transmission was so good that the released picture was easily identified. Finger-prints of famous criminals have also been transmitted with equal success. It may be a long time before there is a chain of police wireless stations in England, but officials are certain that they can already transmit to stations in America and on the Continent, and thus supply the authorities of various countries with the photographs and finger-prints of fugitive gangs of international thieves and others whose arrest is desired. When a landlord recently asked for eviction of a family from a room at Highbury, England, he told the magistrate the room measured 12x18 feet and was occupied by a man and wife and eight children.

S. S. 'TERNE' IN THE GRIP OFF MARGAREE

Ship, Which Sailed With Last Cargo of Potatoes From Georgetown is in Difficulties—Marine Department in Touch With Situation. S. S. "Terne," the last ship to leave Georgetown this year with a cargo of potatoes and which sailed from the port at 7 a. m. Sunday, reported by wireless about 3.30 p. m. yesterday that she was in the ice off Margaree, Cape Breton. Messrs. Sinclair and Jenkins, federal representatives, on being apprised of the situation wired the Minister of Marine, suggesting that the "Montcalm" which is in North Sydney be sent to her assistance. They received a wire in reply stating that the vessel was in no immediate danger, and that the Department of Marine were keeping in touch with the situation. S. S. "Terne" is en route to Havana with a cargo of 18,400 bags potato shipped by the Potato Grower's Association. LATER MARGAREE, N. S., Jan. 21.—The Norwegian steamer Terne bound from Georgetown, P. E. I. to Cuba with 30,000 bushels of potatoes is caught hard and fast in an ice jam three miles off Margaree. Efforts are being made to have the C. G. S. Stanley, en route to Borden, P. E. I., proceed to assistance of the Terne which is in some danger of being crushed. There is little possibility of her being forced ashore as she is in a position to be towed out in great quantities. The Terne formerly the Tosto is a steamer of 142 tons gross. She took the outside route around Cape North when ice prevented her passing through the Strait of Canso.

Finge-Prints By Wireless

(By British United Press) LONDON, January 21.—Experts at New Scotland-yard are carrying out experiments in the transmission of wireless of the photographs and finger-prints of criminals. Remarkable success has already attended their efforts, and Viscount Byng of Vimy, the Commissioner, and various high officials who have seen the results have expressed their approval of the venture. This application by the police of the latest outcome of electrical research will in time have effects of far-reaching importance in the prevention and detection of crime and the thwarting and capture of criminals at present. At present the description of a wanted man is sent either by post or telegraph to various police forces, and frequently the details are of a somewhat vague character; but, however, informative a description may be, it obviously lacks the completeness of a reliable photograph and it does not convey the vivid mental picture which is so helpful to every policeman. One photograph with which an experiment was made was that of a criminal named Browne, who murdered Police Constable Gutteridge, and the transmission was so good that the released picture was easily identified. Finger-prints of famous criminals have also been transmitted with equal success. It may be a long time before there is a chain of police wireless stations in England, but officials are certain that they can already transmit to stations in America and on the Continent, and thus supply the authorities of various countries with the photographs and finger-prints of fugitive gangs of international thieves and others whose arrest is desired.

Just Because a Girl Has Eyes Like Her Father Would Ya Call Her Pop-Eyed

Toronto, cloudy 26-16 Montreal, cloudy 30-8 Quebec, clear 28-4 below Halifax, fair 38-10 St. John, clear 35-6 Boston, clear 44-24 New York, clear 48-22 Charlottetown, cloudy 21-4 High tide this morning at 8.30 and tonight at 7.36. Sun sets this afternoon at 4.51 and rises tomorrow morning at 7.31. Full moon Friday, January 25th., 2-45 a. m. Summerside tide eighteen minutes later than Charlottetown.
