REBEL LEADER GRANTS BRITISH DEMAND

MONGOLS TO RENEW ATTACK IN SUIYUAN

Re-enforced After Repulse By Chinese

Chinese Sources Claim Invaders Bolstered By "Many Japanese".

KWEINUI, Suiyuan Province, China, Nov. 27.—(Friday)—Suiyuan's provincial army headquarters declared today two divisions of Manchoukuo troops "including many Japanese" had reached the outskirts of Shantu, Chahar Province, preparatory to renewing an attack in Suiyuan.

Chinese sources asserted the Mongols, driven from the strategic city of Pailinmia, planned to attempt to regain that point and also recapture lost positions in eastern Suiyuan.

Japanese army officers were reported held prisoners by the Suiyuan army after the capture of Pailinmia.

Headquarters of Gen. Fu Tso-Yi, Suiyuan commander, said the Nanking (Central) Government finally had given real assistance to the Suiyuan forces, sending four infantry divisions and one cavalry division to join them.

Word received here said 400 irregulars quit the Mongols and their alleged Japanese helpers at Shantu had reverted to bandit status.

Chinese military headquarters and General Fu Tso-Yi had renewed a strong inviolable threat that the Japanese Kwangtung army would be thrown into the Suiyuan conflict as a result of the Chinese capture of Pailinmia.

STORM-TOSSED FREIGHTER MAKES PORT

Norwegian Ship Beran Limp Into Saint John's Two Weeks Overdue At Montreal.

ST. JOHN'S, Nfld., Nov. 26.—(CP Cable)—The sturdy little Norwegian freighter Beran sailed in here today from the sea of lost ships, two weeks overdue on a voyage from Drammen, Norway, to Montreal.

Agents had about given up the 1,127-ton vessel as lost a week ago and Captain Teigen himself said he and his crew almost lost hope "time and again" on the 28-day crossing.

Through wallowing seas kicked up by "no less than 14 storms" the Beran had pitched and tossed her way across the angry North Atlantic, her crew of 17 on water ration during the last two weeks.

The freighter was out of coal when she arrived. All her woodwork and 40 tons of her pulpwood cargo had been red to the fires. But the vessel made little headway against the seas and d'd the lat 176 miles of her course under "sail's", made over from her canvas tarpaulins.

"I never experienced such weather in all my years at sea," Captain Teigen, a grizzled, white-haired old man, said on the Beran's arrival today. "We encountered no less than 14 storms since we left Norway and time and again we almost gave up hope."

The Beran carries no wireless. After bunkering here she will head for Montreal and possibly Toledo, O. Charterers of the 1,547-ton Norwegian Collier Stranna in Halifax, hearkened by the Beran's safe arrival said they would wait until the end of the week before giving the vessel up as lost. The Stranna is 33 days out from Glasgow, Scotland, and unreported.

MONTREAL, Nov. 26.—(CP)—Battered during a 25-day trip from Sweden, the 1,000-ton Norwegian freighter Fagerstrand arrived here today and prepared to enter dry-dock for repairs.

Imports Scottish Seed Potatoes

(C.P. By Guardian's Special Wire) KENTVILLE, N. S., Nov. 26.—With a view to gaining a foothold in the English market—until the civil war in Spain held chiefly by that country—George A. Chase of nearby Port Williams today imported a shipment of seed potatoes from Scotland.

Varieties of potatoes which the English consumer wants, shippers say, have been barred from the mainland of Nova Scotia for years because of wart disease. To overcome that the Kings County grower bought Cowley's Island, half-a-mile off Mahone, N. S., to grow tubers from seed imported from Scotland.

The first cargo of seed tubers was transferred from a freighter in Halifax harbor to a small schooner today. If the experiment is successful, he said, and the potatoes are given a clean bill of health by the Federal Department of Agriculture, mainland acreage will be planted.

ROME DENIES PLANES SENT TO MALLORCA

(C.P. By Guardian's Special Wire) ROME, Nov. 26.—Sources close to the Government, lost no time in denying two reports circulated abroad.

One published in the London Chronicle, said several hundred Italian planes and aviators were on the Mediterranean island of Mallorca to aid 40,000 Spanish insurgents poised for an offensive against Barcelona.

The second, circulated in Geneva, said Italy had warned it will quit the League of Nations if a Spanish Government delegation is seated at the Dec. 7 meeting of the Covenant reform committee.

LONDON, Nov. 26.—Answering questions concerning reported Italian activity in the Spanish Mediterranean island of Mallorca, Viscount Cranborne, under-secretary for Foreign Affairs, told the House of Commons today that "recent information from the British vice-consul at Palma (capital of Mallorca) and from His Majesty's ships indicates that the situation in the Balearic Islands remains quiet."

SCRIP ISSUE CESSATION REQUESTED

Prosperity Certificates Have Failed in Purpose Says Letter to Premier Aberhart.

By J. F. SANDERSON
Canadian Press Staff Writer
EDMONTON, Nov. 26.—(CP)—The Aberhart Government was requested today to end its venture in stamped scrip. The Chambers of Commerce of Edmonton and Medicine Hat and the Board of Trade of Calgary and Lethbridge addressed a letter to Premier Aberhart claiming the experiment was a failure and it should be scrapped.

Scrip was issued first in August when \$236,000 was paid to road workers but the total in circulation has been dropping consistently. Two weeks ago, at the regular November redemption period, only \$30,000 was still in circulation although \$15,000 had been issued a few days earlier to the Alberta civil servants.

In part the letter to the Premier read as follows: Prosperity certificates have failed entirely of their avowed purpose, as indicated by their name. They would not circulate on their own merits. They have not kept in circulation even after strenuous efforts to organize for them. The failure in this respect has been great and has been admitted by members of the Government on the public platform.

Having failed elsewhere, the Government is now turning to the classes in the community least able to resist its wishes—civil servants and the recipients of relief.

The acceptance, by a civil servant of a portion of his salary in prosperity certificates (or the purchase of such a portion immediately on receipt of his salary) is to be a "voluntary" one does not need to be a civil servant to know that, thus used, the word "voluntary" must be given a new meaning.

In commenting on the original statement of June 10, 1936, the Premier is quoted as the Calgary Albertan as saying "that the issue of these bonds actually constituted an

EDMONTON, Nov. 26.—(CP)—The ugly Grimsby trawler Girl Pat which ended an ill-fated cruise half-way around the world in Georgetown last June is soon to be sailed back to England, it was learned here today.

Commander R. W. Lawrence whose wartime experiences as a submarine navigator were probably more exciting than the Girl Pat's long flight down the coasts of Europe and Africa and across the Atlantic to South America, has been appointed to sail the trawler home.

Safety Zones For Neutral Shipping In Barcelona Port

Government Troops Push Back Right Flank Of Rebels Near Toledo, Report.

(By The Canadian Press)
A Spanish Government drive to disrupt the insurgents' long communications and supply lines south of Madrid was in progress today.

Government reports claimed militia detachments drove back the insurgent right flank yesterday in the vicinity of Polan, near Toledo, and San Martin de Montalban, commanding the Madrid-Talavera de la Reina road. Talavera is an important insurgent supply base.

All dispatches agreed that Government troops had repulsed insurgent attacks in University City, on the north-west border of Madrid. The militia claimed the capture of several tanks.

In London, the Admiralty announced the Insurgents at last had agreed to the establishment of safety zones for neutral shipping in Barcelona harbor in the event General Francisco Franco carries out his threat to "destroy" the city.

Evacuation of non-combatants from Madrid continued as no end to the siege of the capital was in sight. It was stated 200,000 residents of the city had already left.

By CHRISTIAN OZANNE

MADRID, Nov. 26.—(CP-Havas)—Socialist forces which two months ago were driven in headlong rout from Toledo by General Francisco Franco's Moors, tonight were reported poised within striking distance of the ancient capital.

Issuing from Aranjuez in a carefully-planned offensive, Government forces drove the insurgent right flank back in a series of smash attacks, the Government asserted.

Polan, a few miles from Toledo, and San Martin de Montalban, which commands the route to Talavera de la Reina, were said to be in the hands of the militiamen tonight.

The Government claimed substantial successes all along the Madrid front, as bad weather prevented insurgent bombers from paying their usual visit to the capital late today.

T.B. 5 YEAR PLAN OUTLINED BY SPEAKER

Looking ahead in the treatment of tuberculosis in Prince Edward Island was the subject of an instructive and intensely interesting address by Dr. P. A. Creelman, medical superintendent at the Provincial Sanatorium, at the weekly supper meeting of the Y.M.C.A. Club last night.

Dealing with he called the "tuberculosis five year plan," Dr. Creelman declared that every patient that has tuberculosis in the province should be provided for in at least five years. At present there are 60 patients in the Sanatorium with 60 outside under the supervision of the staff, 30 of whom are in urgent need of hospitalization not only for their own sake but to

LONDON, Nov. 26.—(AP)—The Admiralty said today the Spanish Insurgent leader, General Francisco Franco, granted Great Britain's repeated requests for neutral shipping safety zones in Barcelona harbor.

As the announcement was made public, eight British submarines and the depot ship Cyclops were proceeding from Malta to protect British shipping from molestation on the high seas off the Spanish coast.

WATERFORD, N. J., Nov. 26.—The Wildwood Express of the Pennsylvania Reading seashore lines crashed into a truck today and killed three Waterford men and a boy.

Appeal Made In "Potato Case"

Test Action On Validity Of Maritime Freight Rates Act Taken.

MONCTON, N. B., Nov. 25.—(CP)—J. C. Burchell, K. C., Halifax when passing through Moncton today enroute home from Montreal, commented on a report presented by the Halifax Board of Trade regarding operation of the Maritime Freight Rates Act and referred to it as "Foggy Case."

Mr. Burchell is the solicitor of the Transportation Commission of the Maritime Board of Trade and acted for that Commission in the case heard by the Board of Railway Commissioners at Moncton some months ago. He recalled that at the hearing in Moncton he had described the Maritime Freight Rates Act as the "life line of the Maritimes."

"The potato case," Mr. Burchell announced, "will be argued on appeal before the Supreme Court of Canada in January or February." He added that the governments of the three Maritime Provinces were greatly interested in the hearing and the appeal, and had provided the finances to carry on the original hearing at Moncton and for the appeal to the Supreme Court of Canada.

In Mr. Burchell's words, "the potato case was really a test action to decide the validity of the Maritime Freight Rates Act not only in respect of freight rates on potatoes but also on all other commodities."

Cossacks Pledge Lives To Stalin

MOSCOW, Nov. 26.—(AP)—Brilliantly garbed Cossacks, fierce traditional lighters for the Russian Czars, today pledged their lives to Joseph Stalin and the Soviet Union.

Before wildly cheering delegates to the All Union Congress of the Soviets, a group of some 60 Cossacks stood stiffly on the platform while their leader shouted that the Cossacks were again an organized fighting unit and ready to lay down their lives for the "Soviet Fatherland."

Full liberties and the right to enter the Red Army were restored only a year ago to the Cossacks, professional soldiers for the old Czars.

Earlier today the prime minister of the Ukrainian Republic likened Chancellor Hitler to "a pig" who "never sees the sky" in a speech before the Congress.

Sydney Benefits From Civil War

(C.P. By Guardian's Special Wire) SYDNEY, N.S., Nov. 25.—The Spanish civil war tonight was credited with sending the greatest number of ships to Sydney for bunkers since the days of the Great War.

So far this month 86 ocean-going freighters have bunkered at this port. Shipping men say many of them ordinarily would have taken their coal supply on at Gibraltar or Spanish ports but now take on sufficient fuel to eliminate the Spanish stop.

GREENOCK, Scotland, Nov. 26.—Labor took a House of Commons seat from the Liberal Nationals today when R. Gibson won the Greenock by-election.

The Labor candidate polled 20,594 votes while V.E. Cornelius, Liberal, drew 17,990.

Will Sail Girl Pat Back To England

GEORGETOWN, British Guiana, Nov. 26.—(CP Cable)—The ugly Grimsby trawler Girl Pat which ended an ill-fated cruise half-way around the world in Georgetown last June is soon to be sailed back to England, it was learned here today.

Commander R. W. Lawrence whose wartime experiences as a submarine navigator were probably more exciting than the Girl Pat's long flight down the coasts of Europe and Africa and across the Atlantic to South America, has been appointed to sail the trawler home.

WATERFORD, N. J., Nov. 26.—The Wildwood Express of the Pennsylvania Reading seashore lines crashed into a truck today and killed three Waterford men and a boy.

Four Killed In Train-Truck Crash

WATERFORD, N. J., Nov. 26.—The Wildwood Express of the Pennsylvania Reading seashore lines crashed into a truck today and killed three Waterford men and a boy.

OTTAWA, Nov. 26.—(CP)—Development of radio programs that have an essentially Canadian flavor—entertainment that could originate in no other place was the objective laid today before a conference of broadcasting officials by Major Gladstone Murray, general manager of the Canadian Broadcasting Corporation.

Program directors and arrangers from Halifax to Vancouver, members of the corporation staff and many of them associated with national and private broadcasting since radio's inception, attended the meeting in Major Murray's office. All were invited to offer suggestions and assist in carrying out the new Corporation's policy of building up a basic structure of distinct Canadian radio entertainment.
